HORTICULTURAL ESTABLISHMEN)
250 SO. LA BREA AVE.
LOS ANGELES, CALIFORNIA.

THE ARTIST who conceives and paints a masterpiece has no greater problem than he who creates and effects a beautiful landscape setting for the home. Both require specialized knowledge.

THE LANDSCAPE DEPARTMENT of Paul J. Howard's Horticultural Establishment is comprised of men skilled in creating a harmonious ensemble—being experienced in designing, expert in the proper method of planting and versed in the knowledge of horticulture.

OUR SERVICE is extended to our patrons in the belief that we are able to obtain the maximum effect with the minimum expenditure.

Paul J. Howard's

HORTICULTURAL ESTABLISHMENT

250 So. La Brea Avenue

Los Angeles, California

N PRESENTING to you this edition of our "FLOWERLAND" catalog, we desire to explain that we have not attempted to make a complete listing of all varieties of plants, seeds or bulbs, neither have we listed our stock of garden furnishings and supplies. A catalog large enough to contain a complete and descriptive listing of our entire stock would require several times as many pages as this one.

This booklet is quite complete in that the principal items are described and priced. Should you desire prices or descriptions that are not listed herein we invite you to write us and we will cheerfully advise you by letter.

PLANTING SUGGESTIONS

In our climate, practically all varieties of Evergreen trees and shrubs can be successfully transplanted during the entire year if they receive proper care after planting. The following instructions may be followed with profit:

Care of Stock on Arrival—All plants should be watered and protected when received. Should any plants be wilted use a little extra precaution and shade after planting for a few days.

Digging the Holes and Watering—Do not fail to make the hole larger than the root system of the plant. Leave a few inches of loose soil in the bottom, place the plant in the hole and fill in with top loam. Fill the hole about three-fourths full and tamp, then fill with water, allowing it to settle, and fill with good soil. It is well to go back the following day and level up around the tree. Always water by trenching if possible.

Handling Balled Plants—Always handle plants that are balled in burlap, by placing one hand under the ball, (never grasp by the trunk or top), and use the other hand to balance the top. Plant so the top of the ball will be barely covered. After you have partially filled the earth in, cut the string at the top of the ball and lay the burlap back, then fill in to proper level. Do not remove the burlap, it will soon rot. Great care should be taken not to crack the ball.

Plants in Pots, Boxes or Cans—When plants are received in cans remove the can by cutting two opposite sides from top to bottom and spreading apart. Be careful that you do not break the ball and disturb the roots. Boxes may be handled by digging the hole sufficiently large to receive the box with space left on either side, tilt the box to one side and remove one-half the bottom, then reverse and remove the other half. The sides can then be removed, taking care that the roots are not disturbed. Fill in as you would around balled plants. Potted plants may be removed from the pots by inverting the pot with one hand, firmly pressing the top of the earth and tapping gently on a solid wood surface.

Maintenance—After plants are planted and watered well the care has only just begun. The soil should never be allowed to dry out, neither should the ground become water-soaked and sour. Watering by trench or basin is always preferable and a thorough watering is better than sprinkling many times. Keep the ground around your shrubs, trees and rose bushes loose at all times. A good mulch is beneficial, also some fertilizer should be used. Care should be taken, however, in fertilizing. Use only the best material and such as is suited to your soil. We will gladly advise you.

Your Orders will be accepted with the assurance of entire satisfaction and will receive prompt and careful attention.

PAUL J. HOWARD'S HORTICULTURAL ESTABLISHMENT

ROSE BUSHES

MAKING AND PLANTING A ROSE GARDEN

While it is comparatively easy to find a plot of ground to be allotted to the Rose Garden, and in which this "Queen of Flowers" will grow, there are certain dangers to be guarded against as far as possible. First of all, avoid a draughty spot, nothing is quite so bad for roses as a draught. The perfect position for the rose garden is in the open garden. It may be sheltered from the winds by trees or shrubs, but it should not be shaded, for roses must have light and sunshine. However, a slight shade for a short time in the heat of the day is not bad, but care should be taken to have a good circulation of air, for roses will not flourish in stuffy, closely shadowed places. Never plant roses where the sun reflects against the side of a building

Drainage is another important point to consider, for whether the soil be heavy or light, clay or sand, it is absolutely essential that a rose garden be well drained. The soil best suited to the rose is a rich loam, and in this soil they will thrive with but little fertilizer. However, some of our best bushes are grown in adobe, which if properly cultivated and watered, is very good. If your soil is especially sandy, it will pay you to have some loam hauled in.

The best fertilizer for roses is well rotted dairy manure, which can be used liberally without fear of injury. To this may be added some real bone meal if the soil is partilarly poor.

Roses should be lightly pruned in August and September. By this we mean to remove only the extra long shoots and dead wood. The heavy pruning should be done in December and January. At this time all surplus heavy wood should be removed. Also all dead wood should be

cut out and the plants cleaned up. On young plants three to five shoots are sufficient to leave, but on the older plants several good strong shoots may be left. Do not cut your roses too near the ground, especially if they are old, as the old wood will not branch again.

While roses require a well drained soil, they also require a good bit of moisture. Care should be taken to keep the soil moist continually during the blooming period. In watering roses, do not sprinkle; the best method is to irrigate by means of trenches or basins. A thorough irrigation in this manner if followed by cultivation will last from one to two weeks even in the hot weather.

Our Roses are all strong two-year-old, field grown plants, and with few exceptions are budded. This insures a good vigorous growth and well developed buds and flowers.

These are dug from the field in December, and are ready for delivery soon after January first. For mail orders and shipping at a distance, we advise delivery during January and February, as the plants are dormant at this time, and can be packed lightly and shipped with safety to any part of the United States. After March 15th, our plants will be planted in pots and other containers and will be delivered in these receptacles. For local planting we strongly advise the planting of our established plants, as by removing the plant carefully from the container, they are not disturbed.

Our list of varieties has been limited to the best of the old varieties, and to the most promising of the new introductions, and while not as large as some, the varieties are all well selected, and in each case have proven to be worth while.

LATE INTRODUCTIONS AND SCARCE VARIETIES

Betty Uprichard. Coppery-red buds opening to semi-double flowers of large size and striking color, beautiful orange-carmine on outer surfaces of petals, and light salmon on reflexes. Strong growing, and the flowers are borne on long stems.

Price \$1.50 Each

Edel. A large flower of great depth and quality. Color white, with the faintest ivory shading towards the base passing to a pure white. A fine grower, very free-flowering, opening well in all weather, and delightfully scented.

Price \$1.00 Each

Eldorado. Large sized, golden-yellow flowers, vigorous growth and free-flowering habit and fragrance.

Price \$1.50 Each

Elsie Beckwith. Beautiful buds, and open flowers of ideal form. Rich, deep, glowing pink, on long stems, sweetly scented.

Price \$1.00 Each

Etoile De Feu. A very large, full, double flower, similar in shape to Louise Catherine Breslau, except it is a deeper fiery orange, with a shading of salmon. Foliage is beautiful and glossy, and plant is a strong grower.

Price \$1.50 Each

Fragrant Bouquet. Its name is suggested by its remarkable sweet perfume and free flowering habit. Plant is a splendid grower, of compact habit, with medium size blooms of a delicate flesh pink, shading golden yellow at base of petals.

Price \$1.00 Each

Golden Emblem. Long shapely buds of rich yellow, with flames of crimson on the outer petals opening to a delightfully fragrant, full, firm flower. The flowers are produced on upright stems well above the glossy green foliage.

Price \$1.00 Each

Golden Ophelia. Seedling from Ophelia, and very similar in form. Color is a bright golden yellow. Excellent as a cut flower and very popular for corsage bouquets.

Price \$1.00 Each

Hawlmark Crimson. A valuable new addition to the red roses; long buds, very pointed, similar in shape to K. of K. Intense crimson, with vivid maroon markings, becoming a shade lighter as the flower opens. Free blooming, and the flowers are very enduring.

Price \$1.00 Each

Hortulanus Budde. A new red rose from Holland. Glowing dark red buds, long, tight and beautifully shaped. Opens to a semi-double flower, with bright golden stamens in center. Strong and free bloomer.

Price \$1.00 Each

Imperial Potentate. Splendidly shaped buds, opening to well-formed large, double flowers of crisp, glistening rose-pink with silvery suffusion at the base of the petals, sweetly scented. At the International Rose Test Garden, at Portland, Oregon, this variety was awarded the Silver Medal of the American Rose Society, the Gold Medal of the city of Portland, for the best bush Rose shown and the Silver Trophy of the Portland Chamber of Commerce for the best rose produced in 1923 on the Pacific Coast.

Price \$1.50 Each

Independence Day. Same type of flower as Mme. Edouard Herriott; color is a rich bronzy yellow, shaded with copper. Flowers are rather small, and open quickly, but the color is very unusual, and the bush is very free blooming, being almost always covered with bloom. Plant is vigorous and bushy.

Price \$1.00 Each

Lord Charlemont. One of the most promising new red roses. Dark crimson, high center, fragrant. Plants bushy and free blooming.

Price \$1.50 Each

Lulu. In bud form, one of the most beautiful roses in existence. In shape it somewhat resembles Irish Fireflame, but is much larger and longer. Color is orange-red, shaded salmon pink and apricot. Very free flowering.

Price \$1.00 Each

Mable Morse. Clear unfading golden yellow buds, and well shaped, fragrant flowers, borne on long stems above glossy, light green foliage. Believed by many to be the best yellow rose yet introduced.

Price \$1.50 Each

Mary Pickford. A novel rose of merit, named in honor of America's own favorite artist. In habit of growth it is strong, similar to Souv. de Claudius Pernet, which was one of its seed parents. Color is an exquisite shade of orange-yellow stained on the reverse of outer petals with salmon and salmon blush. Buds are of refined form, long and pointed, and the expanded flower is beautiful. Free bloomer.

Price \$1.50 Each

Mrs. Charles Lamplough. A most pleasing tone of soft, light lemon; flowers of wonderful size, depth and substance; very sweetly scented. A vigorous grower, producing its splendid flowers throughout the season.

Price \$1.00 Each

Mrs. Erskine Pembroke Thom. Another yellow rose which, however, is entirely distinct; a clear, deep, canary yellow without shading. Will prove a valuable addition to our list of yellow roses. The buds are of good long shape, and develop into large, full flowers. Attractive foliage and free blooming.

Price \$2.00 Each

Mrs. Henry Bowles. Handsomely formed, fragrant flowers, with high pointed center. Color is rose pink, shaded salmon and orange. Open blossom full and lasting. Free flowering and of upright growth.

Price \$1.50 Each

Mrs. Henry Morse. Clear, bright rose, suffused with vermillion and with clear vermillion veining on the petals. Very vigorous in growth, free blooming and sweet scented.

Price \$1.00 Each

Mrs. Herbert Stevens. Very beautiful, perfectly formed flowers, white with fawn shadings. Sweetly perfumed. Extremely free flowering; strong grower.

Price \$1.00 Each

Mrs. Lovell Swisher. Long, pointed, beautifully shaped buds of a deep coppery salmon, opening to perfectly formed, double, delightfully fragrant flowers of a delicate salmon pink passing to flesh pink at the edges; a unique, pleasing, novel color combination. It is a very strong, vigorous grower, with clean bronzy foliage, and exceptionally free flowering.

Price \$1.50 Each

Mrs. W. C. Egan. This is another remarkable, two-toned pink rose. The plant is an extremely prolific bloomer and a good grower. The reverse of the petals is a pleasing shade of soft, light pink, while the interior is a deep flesh-pink, delicately lined with gold.

Price \$1.00 Each

Nederland. A particularly good deep glowing red; splendid buds opening to very large well formed flowers on long stems; fine for cutting.

Price \$1.00 Each

Padre. Most novel and attractive in coloring, with long petals of a coppery-scarlet flushed with yellow at the base, produced on long shoots. Growth strong and upright and exceedingly free-flowering.

Price \$1.00 Each

President Cherioux. One of the best of the new introductions. A beautiful shade of prawn-red and salmon pink, shaded with yellow. Large, full formed globular flowers; a strong grower and very free flowering.

Price \$1.50 Each

Rev. F. Page Roberts. A most beautifully shaped long bud and a full double flower of a rich orange-gold, shading to saf-fron-yellow; growth vigorous, and very free-flowering.

Price \$1.50 Each

Shot Silk. Beautifully shaped buds and flowers of soft coppery rose flushed and overshot with apricot and yellow. Open flower cup shaped. Very fragrant and a moderate grower.

Price \$1.50 Each

Souvenir de Claudius Pernet. A rose of unusual beauty of souvenir de Claudius Pernet. A rose of unusual beauty of form and coloring, and in great demand on account of its bright sunflower-yellow flowers which retain their color better than any other yellow rose, both in bud and open bloom. The buds are long, full and firm, and they come on strong, upright stems, with brilliant green foliage.

Price \$1.00 Each

Souvenir de Georges Pernet. Flowers large, of globular form, and the bush is vigorous and free in growth. Color, orient-red, shading to cochineal-carmine at the end of the petals, the whole rose being overspread with a golden sheen.

Price \$1.50 Each

Souvenir de George Beckwith. A strong, vigorous grower of great branching habit, with large full globular flowers on good stiff stems; color shrimp-pink tinted chrome-yellow, shading to deeper yellow at the base of the petals.

Price \$1.50 Each

Souvenir de H. A. Verschuren. Color is a deep golden yellow. The flowers are double, intensely fragrant, and come on long strong stems. A splendid addition to the yellow class.

Price \$1.50 Each

Sunstar. Beautiful flowers, of lemon yellow variously edged, veined and splashed rose and vermilion. Very free blooming. Especially beautiful in cooler weather, when the flowers do not open so quickly.

Price \$1.50 Each

The Queen Alexandra. A brilliant flower of intense vermilion, deeply shaded old gold on reverse of petals, which spring from a pure orange base. The flowers are quite full and when half blown are bewildering in their beauty. Delightfully sweet scented.

Price \$1.50 Each

Una Wallace. A beautiful soft, even-toned cherry rose without shading. Every bloom comes perfect and quite full. One of the freest growers, and a remarkable profuse bloomer. Sweetly perfumed.

Price \$1.00 Each

STANDARD VARIETIES

Price of Any of the Following
75c Each

America. Produces large flowers of a bright rose pink, similar in shape to American Beauty, but a hardier plant to grow.

American Beauty. The well known deep rosy-carmine variety, so popular as a cut flower. Especially adapted for warm interior sections.

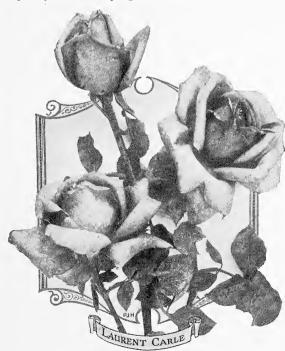

Betty. After this becomes established it produces blooms of marvelous beauty, particularly in autumn. Its large deliciously scented flowers are of glowing coppery rose color, suffused with a golden sheen.

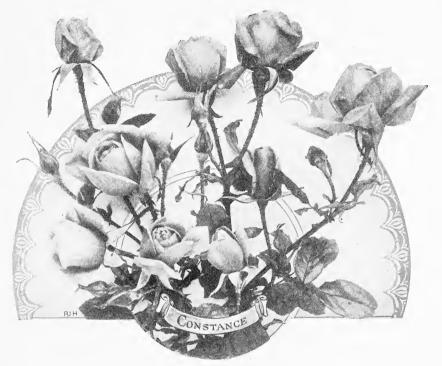

Cheerful. One of the best of the newer roses. In color a pure orange coral with long pointed buds. A very free and strong grower.

Columbia. This beautiful rose is of strong vigorous habit and exceptionally free-blooming, Extensively used for cut flower purposes. Flowers of good size, perfect form, both in bud and expanded. Color an exquisite shade of rose-pink.

Constance. A free-flowering variety which bears attractive long, orange-yellow buds of perfect form, slightly streaked with crimson; as the blossom develops it opens into a golden-yellow.

Crusader. A very large rose with firm, pointed center, borne on long, strong stems. Color is a rich, dark, velvety crimson. Especially fine in the Spring and Fall.

Duchess of Luxembourg. (Marie Adelaide Grand Duchess of Luxembourg). Rich deep orange yellow, shaded burnt orange. The buds are beautifully shaped, long and pointed, and are borne on long stems, with shiny green foliage.

Duchess of Wellington. Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron yellow as the flowers develop. Delightfully fragrant and very free-flowering.

Florence Pemberton. An excellent bedding rose of vigorous habit of growth, flowering profusely throughout the season. In color it is a creamy white suffused with pink. A fine bold flower with high pointed center and great depth of petal.

Francis Scott Key. A splendid rose with immense double blooms. Color is a deep even red throughout and the flowers are delightfully fragrant. A superior garden variety.

Frau Karl Druschki. The ideal hardy white rose. Pure in color, strong grower and remarkably free-flowering. Sometimes called the White American Beauty.

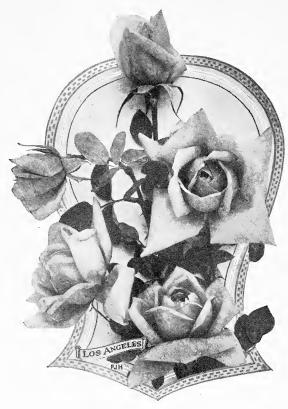

General McArthur. A well-known favorite and one of the best all around bedding varieties in our collection. It is one of the earliest and most perpetual flowering sorts. It's flowers are of good form; of a warm, rich crimson-scarlet, and delightfully scented.

Gorgeous. Plant of strong vigorous branching habit. The flowers are produced in the greatest profusion on stiff, erect stems. Deep orange yellow color, heavily veined and shaded copper-rose.

Grange Colombe. A remarkably vigorous growing rose with enormous long pointed buds. Color white tinted with creamy vellow.

Gruss an Teplitz. This rose will succeed under the most ordinary conditions. In color it is of the richest scarlet shading to a velvety-crimson, very fragrant. A free, strong grower and in bloom all the time.

Hadley. A magnificent red rose. Plant is a strong vigorous grower and produces dark, crimson scarlet buds on long stems.

Hoosier Beauty. Beautiful, well shaped, long buds, and large full perfect flowers, of an intense, rich dazzling crimson-scarlet and deliciously fragrant. The plant is of vigorous growth and is conceded to be one of the best roses of its color.

H. V. Machin. One of the dark red shades. The large, well-shaped blooms are produced on strong growing plants, with good foliage. A delightfully fragrant rose of scarlet-crimson, shaded darker.

Irish Elegance. A beautiful single rose, in color apricot shading to bronze at base.

Irish Fireflame. A glorious single flowering variety, bearing it's flowers in clusters of five or more; splendid for cutting in sprays in bud form. These buds are a rich deep orange, splashed with crimson, opening to a large single flower of a satiny old gold, shaded with ochre.

Isobel. This is truly one of the most beautiful single roses ever developed. In color an orange terra-cotta tipped with rose with brilliant stamens in center. Good foliage, vigorous plant.

Jonkeer J. L. Mock. One of the best bedding varieties, the flowers which are produced with the greatest freedom on long stiff stems, are of large size and of perfect form, of a deep imperial pink—the outside of the petals silvery rose.

Juliet. Outside of petals old gold, interior rich rose as the flowers expand; delicious fragrance.

Kaiserin Augusta Victoria. Soft, pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long graceful stems; a strong, free, healthy grower.

Killarney Brilliant. Sport of the original Killarney, but far more intense in color, it being a rich glowing shade of rosycarmine.

K. of K. (Kitchener of Khartoum). The flowers of this brilliant rose are large, semi-double and intensely fragrant. The color is a striking, intense brilliant scarlet with a velvety sheen. It is a profuse bloomer.

Lady Alice Stanley. Beautiful shade of coral rose, the inside of the petals shading to a flesh-pink, with deeper flushes. Perfect in size, color, and form.

Lady Ashtown. One of the best roses for garden decoration. Good buds, opening to a high centered double flower; fragrant. The color is a deep shining pink, with a yellow glow at base of petals. Very free bloomer.

Lady Battersea. A splendid garden rose of lovely form and color. The slender pointed buds come on long stems and are rich cherry red shading to rose pink. Rather dwarf in growth, but very free blooming.

Lady Hillingdon. One of the best yellow roses. Deep apricot-yellow without shading. Will not lose color after cutting. Foliage has deep bronze shading.

Lady Ursula. Rose of exceedingly vigorous growth, free blooming. In color a delightful shade of flesh-pink. Distinct from all others.

Laurent Carle. Brilliant carmine, deliciously scented, flower nearly as good in hot, dry weather as under more favorable weather conditions.

Los Angeles. This is one of the finest roses ever introduced. The bush is a vigorous grower and is practically free from mildew, producing a continuous succession of long stemmed flowers of a luminous flame pink toned with coral and shading to translucent gold at the base of the petals. The buds are long and pointed, and when fully expanded, they open into a flower of mammoth proportions. This is a rose that is beautiful from the opening of the bud until the last petals have fallen.

Louise Catherine Breslau. This rose is entirely distinct from all other in color; buds are coral-red shaded with chromeyellow. When full blown they are of a superb shrimp-pink shaded coppery-orange and chrome-yellow.

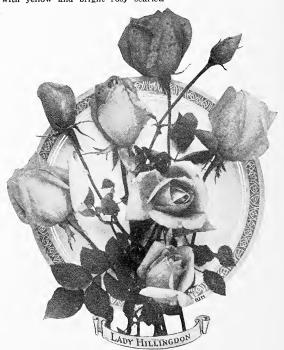

Madame Abel Chatenay. Carmine rose with salmon shadings; long pointed buds and double flowers, a strong grower, very free-flowering, and a favorite bedding variety.

Madame Butterfly. Color is a harmony of pink, apricot, and gold. The flowers resemble Ophelia in form. It is a vigorous grower and a profuse bloomer.

Madame Caroline Testout. Clear pink. One of the best. The very large, clear pink buds are borne in the greatest profusion. This rose should have a place in every collection.

Madame Charles Lutaud. Well-formed globular blooms of chrome-yellow, blending to scarlet-rose at margin of petals. Erect, strong grower.

Madame Edouard Herriot. A very strong and vigorous grower, branching habit and glossy green foliage. The buds are coral-red, shaded with yellow at the base, the open flowers of medium size, semi-double, are of a superb coral-red shaded with yellow and bright rosy scarlet.

Madame Jules Bouche. While not a pure white, it being at times slightly tinted with blush on the reverse of the petals, it is considered one of the best of the white bedding roses. It is a strong grower, very free-flowering and very double.

Madame Jules Grolez. Very free flowering variety with high pointed center. A clear satiny rose in color, double and fragrant.

Madame Leon Pain. Entirely distinct from all others in color. A silvery-salmon with orange-yellow center. Buds pointed, flowers large, very free bloomer.

Madame Melanie Soupert. Beautiful semi-double, large flowered rose, especially fine in bud form. In color a charming pale tint of salmon yellow, with pink and carmine suffusion.

Madame Segund Weber. Vigorous grower, free flowering; large perfectly formed cup-shaped flowers of marvelous beauty. In color it is a soft tone of salmon pink.

Maman Cochet. This is without doubt, one of the finest all around roses; hardy, vigorous grower, beautiful foliage. The bud is long and pointed, borne on long stems; color rosepink, the inner petals being a silvery rose shaded with goldenyellow.

Mary Countess of Ilchester. Rosy crimson flowers of large size and smooth circular petals. A vigorous grower and sweetly perfumed.

Miss Alice de Rothschild. An erect, vigorous and free flowering tea rose. Flowers light yellow, deepening toward center, well formed and fragrant.

Miss Lolita Armour. The coloring of this rose is very difficult to describe and is distinctly different from anything that we know of. Briefly the introducers describe the rose as chromeyellow at the base, shading to burnt-orange and copper. The reflex of the petals is chrome-yellow at the base, shading to bright salmon with brilliant copper suffusion. The flowers are quite double and the buds are similar to that well-known rose, Caroline Testout.

Mrs. Aaron Ward. Strong, vigorous, but compact growth, constant bloomer with buds and open blooms of excellent form; in color a distinct Indian yellow, shading lighter toward the edges.

Mrs. A. R. Waddell. A free-flowering garden variety that is liked wherever seen. A delicate soft rosy-salmon, suffused with a golden sheen; flowers of medium size.

Mrs. Chas. Russell. This is one of the most popular cut flower varieties. Large, well-formed flowers, of a rosy-carmine with a rosy-scarlet center. Strong branching habit; wonderful foliage, and very free-flowering.

Mrs. Franklin Dennison. A rose of surpassing beauty. Very full and well-formed flowers of porcelain-white, veiled primrose-yellow, deepening to ochre at base of petals. Strong, vigorous grower.

Mrs. Wakefield Christie Miller. Produces very freely, large sized perfect flowers. They are a bright pink color with lighter shading. The plant is vigorous and free—excellent for bedding—especially so for massing.

Old Gold. A continuous flowering, semi-double, vigorous grower producing vivid, reddish-orange flowers with rich coppery red and apricot shadings. Very fragrant.

pery red and apricot shadings. Very Iragian.

Ophelia. This very floriferous rose has made such a record for itself that it qualifies to be classed with the very best. Flowers of perfect form, large size, are held erect on stiff, straight stems. In color a most pleasing tint of salmon-flesh shaded with rose.

Paul Neyron. A great old favorite. Dark rose, of enormous size. Very double, highly scented. One of the best of the hybrid perpetual type.

Radiance. An ideal bedding rose. Succeeds unusually well in hot summer weather when frequently many other varieties fail. In color it is a brilliant carmine pink, with salmon-pink and yellow shadings at the base of the petals.

Red Radiance. A counterpart of Radiance except in color, which is clear cerise red.

Rose Marie. This is without exception one of the most beautiful and satisfactory pink roses of late introduction. Its remarkable freedom of bloom, and its beautiful buds and well-formed flowers of a clear, deep pink, give it a premier place among roses.

Sunburst. Flowers of a rich cadmium-yellow with orange-yellow center. Rose of vigorous growth, and free bloomer; excellent for cutting in bud or half open flower.

White Cochet. Identical, except in color, with Maman Cochet.

Wm. F. Dreer. The buds are long, pointed, rich in tones of pink and orange. As the flower develops, particularly in the half open bud, the center shows shades of rich orange, merging to yellow with the edges of petals beautifully rimmed with pink. Equally as good a grower as the Los Angeles.

Willowmere. This splendid rose is of a coral-red color, suffused with carmine in the bud state, and opens to a large, full, handsome flower of a rich shrimp pink, shaded yellow in the center, and flushed carmine-pink toward the edges of the petals.

NEW CLIMBING ROSES

Black Boy, A fine new red climber originating in Australia. The vigorous growing vine produces large, double roses of a very deep velvety crimson, with blackish shadings; the stems are very long, fine for cutting. Very fragrant.

Price \$1.50 Each

Bonnie Prince. Cl. Robust Climber with large graceful clusters of medium sized frilled flowers, like Tausendschoen except pure white in color.

Price \$1.00 Each

Cl. Constance. A climbing form of the popular yellow rose. Makes a very striking effect, with its glossy bright green foliage, and abundance of bright orange yellow buds, streaked with crimson on the outer petals. The flowers open to a large cup shape, of a pure golden yellow color. Extremely beautiful.

Price \$5.00 Each

Cl. Los Angeles. A beautiful new sport from the bush, with all the beauty of that famous variety in a vigorous climbing form. Luminous flame pink with a golden coral suffusion.

Price \$1.50 Each

Cl. Louise Catherine Breslau. A new climber with beautiful shiny foliage. Flowers are a counterpart of the bush variety.

Price \$1.00 Each

Cl. Mrs. Aaron Ward. A good climber, free blooming. Flowers a golden buff with faint pink shadings.

Price \$1.00 Each

Cl. Rose Marie. This is probably the most valuable addition to our list of climbers made in recent years. The flowers are exactly like the well known and increasingly popular bush variety, and are a beautiful shade of clear, glowing rose pink. The shape of the flower is ideal and the stems are good, making it very valuable for cutting.

Price \$3.50 Each

The above prices are for fine established plants in one gallon containers. We can supply larger plants in most of the varieties, in five-gallon containers at a slightly higher price.

STANDARD VARIETIES OF CLIMBING ROSES

Price of Climbing Roses, Except Where Noted, 75c Each

American Pillar. Blooms profusely in tremendous clusters of crimson-pink flowers with large white centers and golden yellow stamens, making a beautiful contrast.

Banksian Rose. A fine climbing vine with practically no thorns, and clusters of small, double white flowers, very showy, and intensely fragrant, with the perfume of violets.

Belle of Portugal. A new climber of extremely rapid growth, and beautiful foliage. Produces very large flowers of a delicate pink, shaded salmon. Beautifully shaped and borne in great profusion from January to June. Fine for fences or arbors.

Cherokee. A rapid climber, with bright shining green foliage, and large, waxy single flowers. White, Pink or Red (Ramona.)

- Cl. Cecile Brunner. This well-known variety needs very little description. Its dainty little flowers of perfect form are produced in graceful sprays. Color is a soft rosy-pink on creamy white ground. Heavy foliage. Thrifty climber.
- Cl. General MacArthur. A vigorous climbing sport from the bush variety, having the same bright red color, and free blooming qualities.
- Cl. Hadley. One of the most beautiful deep red climbers. Flowers are identical with the bush variety, coming on very long stems.

Price \$1.00 Each

Cl. Hoosier Beauty. The climber is the counterpart of the bush Hoosier Beauty. Splendid clean foliage and heavy bloomer. The rich velvety crimson is vivid and lasting.

Price \$1.00 Each.

- Cl. Kaiserin Augusta Victoria. Very free-flowering climbing form of this most popular white rose. Long stems.
- Cl. Lady Ashtown. Best of all the climbing Tea varieties. Produces immense quantities of large soft-rose colored flowers, continuously throughout the season.

- Cl. Lady Hillingdon. One of the best yellow climbing roses. Deep apricot-yellow without shading. Good foliage.
- Cl. Madame Caroline Testout. Climbing form of the bush rose Madame Caroline Testout. Silvery pink in color. Exceedingly free bloomer. Large perfect buds; a most satisfactory rose.
- Cl. Maman Cochet. Buds and flowers larger than the bush and produced in greater profusion. Makes very rapid growth. Good foliage and heavy wood.
- Cl. Sunburst. Flowers a rich yellow, with orange-yellow center. Rose of vigorous growth with good foliage.
- Cl. White Maman Cochet. There is no difference between the climber and bush variety, except their respective habit of growth. Bud and flower formation is the same. A very satisfactory climber; popular wherever used. Habit of growth is the same as Maman Cochet (pink).

Dorothy Perkins. Soft shell-pink, flowering profusely in large clusters; very fragrant. One of the most popular varieties of the Ramblers.

Dr. W. Van Fleet. A very popular climbing rose on account of the large size and fine form of its buds and flowers, which are a rich flesh pink and produced singly on long stems. Splendid for cutting.

Duchesse d'Auerstaedt. A vigorously growing vine freely producing good sized, very double flowers of an intense golden yellow. One of the best yellow climbers.

Gold of Ophir or Beauty of Glazenwood. Apricot-yellow suffused with coppery red; rapid grower, free from disease. Blooms abundantly in the spring.

Marechal Niel. One of the best of the yellow ever-blooming climbing roses, producing masses of deliciously fragrant, fully double, golden-yellow blooms.

(Continued on Page 9)

STANDARD CLIMBING ROSES

(Continued from Page 8)

Paul's Scarlet Climber. Without doubt this is one of the best new climbing roses introduced. It cannot be excelled for brilliancy of color, which is vivid scarlet. Flowers are of medium size, semi-double, very freely produced in large clusters, the plants being literally covered with flowers. Of strong climbing habit and perfectly hardy.

Silver Moon. Beautiful semi-double flowers, pure white in color; petals of great substance, beautifully cupped. The large bunch of yellow stamens in the center adds to its attractiveness.

Tausendschoen. (Thousand Beauties). Entirely distinct. The individual flowers are of a most elegant and graceful form. In color it is a most delicate shade of soft pink when first opening, changing to carmine on the reverse of petals when fully expanded. Flowers are produced in trusses.

Yellow Banksian. The same as the white variety except in color, which is a buff yellow; not as fragrant as the white.

Price—any of the above climbing roses, except where noted: 75c Each

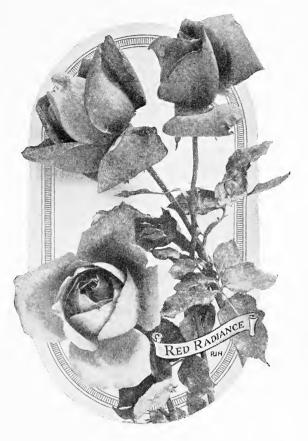

We can furnish many of the above in larger sizes, and will gladly quote prices on varieties and sizes in stock.

LANDSCAPE DESIGNING

The designing and laying out of gardens is more than merely planting. Well placed walks, drives, pergolas, tea-houses, etc., increase the usefulness and appearance. The charm of many a building is largely due to its landscape setting. The trees and shrubs, when properly selected and placed, remove the otherwise harsh lines,—they add color and harmony as well as unite the house and garden. The flowering plants, bulbs, perennials and annuals, increase the interest of the garden, add brightness of color, and furnish flowers for decorative purposes.

Our Landscape men are thoroughly conversant with garden designing and will be pleased to assist you in planning or rearranging your garden. A few plants well located will add to the appearance and value of your home, too.

A telephone call will bring an experienced landscape man to your home.

STANDARD OR TREE ROSES

The tree-shaped roses are decidedly ornamental and are wonderfully attractive. These are most effective when planted in rows along driveways or walks, and when planted in groups at entrances.

The rose-trees are budded on strong growing stock; the buds being placed thirty inches to four feet above the ground and on two or three sides of the standard, making a symmetrical, well balanced head.

Our tree-roses are grown in such varieties as have been thoroughly tested and found to be strong and prolific growers as well as good bloomers.

Established Plants ready March 15, in 5 gallon containers.

Price \$3.50 to \$5.00 Each

POLYANTHA ROSES

(BABY ROSES)

This class of miniature roses has been derived from the climbing or rambler roses, and is becoming exceedingly popular. They are of dwarf, compact habit of growth, and blossom so freely as to completely cover the entire plant with blossoms through the summer and fall, and in California they bloom almost continually.

The plants are splendid for bedding, and for borders, or edgings for flower beds, rose gardens, etc., where they are most effective.

Baby Dorothy. This glorious little rose resembles the Dorothy Perkins except that it is very dwarf. The clear pink blossoms entirely hide the plant when it is in full bloom.

Baby Herriot. Just picture the Sweetheart Rose, Cecile Brunner, colored like the Daily Mail, or Madame Edouard Herriot and you will have somewhat the idea of the beauty of this little rose. The color is a shrimp-pink with intense coppery-yellow suffusion, while the base of the petals are golden yellow. We are certain that Baby Herriot will please everyone.

Price 35c Each-\$3.50 Per Dozen

Chatellon Rose. This variety bears perfect miniature roses, which are beautiful in the bud. These are small but comparatively long and quite pointed; the flower is of medium size, semi-double, clear bright pink color and is very lasting. Grows one to two feet high.

Price 35c Each-\$3.50 Per Dozen

Ellen Poulsen. A most floriferous little rose. Dark pink, perfectly formed and quite fragrant.

Erna Teschendorff. The flowers are of a deep crimson color, flushed somewhat with carmine. Splendid for pot plants when handled properly and will bloom well about Easter time.

George Elger. A lovely little golden-yel-low polyantha rose, a free grower, and pro-lific bloomer. The foliage is small, glossy and dense. The flowers are beautifully pointed and open with pretty symmetrical little roses.

Ideal. (New). This is a first class little rose in every way. The bushes are moderately strong, very compact, and bloom abundantly all season. Flowers are of medium size and dark velvety crimson. Borne in clusters.

Price 35c Each-\$3.50 Per Dozen

Jessie. This veriety blossoms in clusters and the flowers are a bright cherry crimson color.

Brilliant cherry-crimson La Fayette. flowers as large as the well-known Paul's Scarlet Climber, borne in branched trusses almost continuously in bloom. One of the most brilliant and satisfactory baby roses for bordering walks or for edging rose

Price 35c Each-\$3.50 Per Dozen

Orleans. This is one of the best of its class. Has been awarded the gold medal in Europe where it is very popular. The plant is a very compact, symmetrical grower, and when in bloom forms a perfect bouquet of cerise-pink with a distinct white center. Very lasting.

Perle Orleanaise. A bright salmon-pink, shading to yellow at the base of the petals, very double. Its habit of growth is vigorous, erect, and bushy, has few thorns, and bronzy tinged, bright green foliage.

Red Orleans. Color is brilliant Geranium-red, suffused with rose, with white center. Ideal for massing in flower beds or for borders.

Plants are well rooted, very bushy, and established in 21/2 inch pots.

Price of the above Baby Roses, except where noted-25c Each-\$2.50 Per Dozen.

In Europe the baby roses have been used for years and may be found in almost every garden, but in America we are really just beginning to appreciate them, and now they have come to stay. They are hardy, grow easily, free from pests, and so attractive as to deserve the attention of all lovers of flowers.

Our collection is made up of fourteen splendid varieties.

PLANTING ROSE BUSHES

All rose bushes listed are established plants and little trouble will be experienced if care is taken in planting and if planted in good soil. Cut the can in the manner suggested on page 1. Be sure to cover the bud one or two inches. Always leave a basin around the plant. Cultivate when dry enough after each watering. Do not cut roses with long stems during the first six months after planting.

ORNAMENTAL FRUIT TREES CITRUS FRUIT

Planting Note

Sub-tropical fruits, generally speaking, should be handled with extra care. All plants should be either balled from the field or grown in pots or boxes, and when planted, special care should be taken not to break or disturb the earth around the roots. It is a good plan to erect a slight protection from wind and sun when plants are first planted.

Planting may be done at most any time, but the best time is during the spring and early summer, February to June.

Lemon

Eureka Lemon. The celebrated California lemon and favorite shipping variety. Medium size; smooth glossy, heavy, juicy and well flavored. Keeps well. Tree is vigorous grower, almost thornless and a prolific bearer. Greatly in demand because flowers, green and ripe fruit, are borne almost the entire year. Especially heavy crop in the middle of the summer when lemons are much in demand. Prune only enough to keep the tree shapely as the extra foliage protects the fruit from sunburn.

Price \$2.00 Each.

Oranges

Ruby Blood. Medium size; nearly round. Skin thin, but very tough; pulp melting, rich and juicy. When ripe usually mottled with blood-red and often the entire center is ruby-red. The best Blood Orange.

Price \$2.50 each

St. Michael. Dwarf Tree. Fruit small, round and very firm; skin thin and smooth; meat juicy and splendid flavor. March to January.

Price \$2.50 each

Valencia Late. Large, oval, solid and heavy; flesh is exceedingly juicy; skin thin and of a strong texture. Keeps well on the tree through the summer and maintains its fine quality as late as September. Ripens when all other varieties are gone.

Price \$2.00 Each.

Washington Navel. World famous. Fruit large, solid and heavy; very juicy; seedless. Skin smooth and of very fine texture. Tree vigorous and heavy bearer. December to May.

Price \$2.00 Each.

Pomelo-Grape Fruit

Marsh's Seedless. The best and most popular variety; sweet, juicy and almost seedless; can be eaten without sugar when fully ripened. Lemon yellow; rind thin and smooth; flesh dark and rich. Bears early and keeps late.

Price \$2.00 Each.

Small Oranges

Kumquat. (Very Ornamental). A dwarf member of the orange family, bearing an attractive, golden-yellow fruit. Very palatable whether fresh or preserved. The fruit is about the size of a large olive and has an agreeable aroma. The Kumquat is a gem for a pot plant or ornamental planting, being a beautiful evergreen bush or small tree, blooming freely through the spring and early summer; flowers small white, very fragrant.

Price \$3.50 to \$5.00 Each.

Tangerine (Dancy's) Kid-glove Orange. The standard variety. Skin orange-red; meat sweet, separating freely from the rind. Rivens in April.

Price \$2.50 each

Satsuma. Deep yellow fruit. Flesh very tender, juicy and entirely seedless. October to December.

Price \$2.00 Each.

Begonias (EVER BLOOMING BEDDING BEGONIAS)

The bedding and border begonias are of the greatest value in the garden, and while they grow the year around in California, they are so inexpensive that they can be treated as an annual if so desired. The flowers, although small, are of brilliant colors, and borne in profusion continually. As a border to the shady flower bed or fern bed, they have no equal.

Gracillis luminosa. Bright scarlet flowers.

Gracillis prima donna. Strong grower—1 ft. to 18 inches high, bushy and dense foliage; flowers are brilliant clear pink, shading to rose.

Semperflorens. Vernon. Bright orange carmine flowers, deep red foliage.

Price in 21/4 inch pots-\$1.50 per dozen \$10.00 per hundred.

SUB-TROPICAL FRUITS

Avocado

While the Avocados must have a goodly amount of moisture, they thrive best in soils where there is good drainage. In orchard plantings the trees should be set from 30 to 40 feet apart, each way, thus allowing for full development of the trees.

Avocado trees are of two distinct types. The trees bearing the thin-skinned fruit are the hardier and can better endure the extremes of heat and cold than the thick-skinned varieties, which should be planted in latitudes suitable for the growth of lemons.

THICK SKINNED VARIETIES

Dickinson. Weight 9 to 16 ounces. Shape oval. Dark purple skin, very thick. Very heavy bearer. Not as hardy as some other Guatamalan varieties. June to October.

Dutton. A new variety, rapidly gaining favor. Pear shaped, weighing about 16 ounces; rough dark purple skin. Flesh of very rich flavor. Vigorous grower and heavy bearer. Nearly as hardy as Fuerte. February to April.

Fuerte. Fruit pear-shaped, dull green in color and matures at an exceptionally good time, January to March. Weighs from ten to sixteen ounces and has a medium-sized seed. Shows as high as 30% fat or oil; is one of the highest in this respect yet tested. This, together with its many other good qualities, gives it rank as one of the best thick-skinned varieties.

Lyon. Very early and prolific bearer. Fruit weighs 16 to 18 ounces, conical shaped, with rough green skin. Excellent flavor. Tree is upright and slender, requiring little space. Slower to grow in the nursery, so trees are smaller for the price. April to July.

Mayapan. Recently introduced by the Department of Agriculture. Tree is tall and slender. Fruit is nearly round, about 16 ounces in weight. Skin thick, brownish purple in color. Flesh of fine quality. Valuable because of its early and heavy bearing. May to August.

Puebla. Obovate fruit of purplish color—skin smooth and medium thick. Flesh rich with a high percentage of fat. This variety is prolific and bears when young.

Spinks. Varies from nearly round to slightly pear-shaped, and weighs from sixteen to twenty ounces. Seeds are large in proportion to the flesh, but fit very tightly in the cavity. Flesh is cream color; very smooth and a rich pleasant flavor. Very attractive when ripe on account of the thick, purplish-black skin. Considered equal to the finest flavored Guatemalan fruits. Ripens April to June.

THIN SKINNED VARIETIES

Caliente. A hardy variety with thin skin of purple color. This variety seems well adapted to a wide range of planting, bearing heavy and regular crops in all sections in which it is planted. The fruit also has the advantage of ripening off the tree if picked before fully ripe. It is of medium size, ripening from September to October.

Ganter. Of vigorous growth, with large rounded top and a prolific bearer. Fruit of the thin-skinned variety, oval to oblong in shape, measuring from 3½ to 4½ inches in length, and 2½ to 3½ inches in diameter; greenish in color. Excellent flavor and quality. Parent tree located at Whittier, California. Fruits from September to December.

Northrup. Pear shaped fruit, weighing from 6 to 10 ounces; of fine texture, rich and buttery. Good keeper. Bears two crops, one from October to December, and a lighter one from April to June.

Price of Avocados-Balled field plants:

5 to 6 feet, \$5.00 each 6 to 8 feet, \$6.50 each

Lyon Avocado-3 to 4 feet, Price \$5.00 each

Cherimoya (Anona Cherimoya)

A delicious sub-tropical fruit which should be planted in every location where there is comparative freedom from frost.

Deliciosa. Large variety of fine flavor and good quality, ripening in January.

Booth. Long rough skinned variety of recent introduction of very rich and delicious flavor, ripening from February to April.

Price either variety \$3.50 Each.

Sapota (Casimiroa Edulis)

A handsome semi-tropical tree almost as hardy as the orange, of quick growth with deep glossy green leaves. The fruit of the select budded variety is most delicious—being of a rich aromatic pleasing flavor. Select budded varieties.

Price \$3.50 Each.

Natal Plum (Carissa Grandiflora)

A very attractive fruiting shrub with dark green leaves and large fragrant white jasmine-like flowers. The bright crimson fruits which are about the size of an olive, make a delicious sauce similar to the cranberry.

Price 75c to \$2.50 Each

Loquat (Eriobotrya Japonica)

The tree is an ornament to any garden with its large evergreen leaves and shapely top. While the seedlings often bear when quite young, it is much more satisfactory to plant the budded varieties. These bear good crops of best quality fruit.

Advance. Large pear shaped fruit of delicious sub-acid flavor, borne in large compact clusters; ripens in May.

Premier. Earliest to ripen, of large size, excellent quality and fine flavor. March to April.

Thales. One of the largest loquats cultivated. This Chinese variety has a thin skin and thick orange flesh of rich distinctive flavor. Ripens from May to June.

Price, either variety, \$3.50 Each

Feijoa (Feijoa Sellowiana)

A large shrub growing to a height of ten to fifteen feet. With its leaves which are glossy dark green above and silvery below, and its beautiful bluish-white flowers, conspicuous red stamens, it is well worth planting for ornamental purposes alone. But the most valuable asset is its delicious fruit of a spicy aroma and flavor, best described as a mixture of pineapple, banana and raspberry. The fruit is excellent eaten out of hand, or made into preserves, jellies, salads, etc. The select grafted varieties produce quantities of fruit about the size of a large egg. The shrub will stand a temperature of 16° above zero.

Choiceana. Large fruit, exceedingly fine flavor; heavy bearer, ripening in November. Extra large field grown plants.

Price \$5.00 Each.

Seedlings, 1-gal. cans, 75c

Guava (Psidium Cattleianum)

(RED STRAWBERRY GUAVA)
A vigorous evergreen shrub, standing sharp frosts unharmed, having handsome dark glossy green leaves. A fine plant for ornamental and hedge use, as well as for quantities of luscious red sub-acid fruit about the size of a large cherry. This is excellent for the table use as well as for making the well-known guava jelly.

Guava (Psidium Lucidum)

 $\begin{array}{ccc} (YELLOW & STRAWBERRY \\ & GUAVA) \end{array}$

Similar to above except in color and size.

Lemon Guava (Psidium Guajava)

One of the choicest of the guava family. Fruit is large, pear shaped, and yellowish green in color. The plant is quite tender and should be planted in a frostless position. Plant is strong grower, attaining a height of 8 to 10 feet.

Price—1 gal. can, 50c each 5 gal. container, \$1.50 Field Plants \$2.00

FLOWER SEEDS—Sow seeds of Snapdragon, Alyssum, Calendula, Calliopsis, Candytuft, Centaurea, Clarkia, Annual Chrysanthemum, Cosmos, Gaillardia, Larkspur, Linum, Lupin, Layia elegans (Tidy Tips), Mignonette, Nemophila, Nigella, Poppies, Wild-Flower Seed and Sweet Peas.

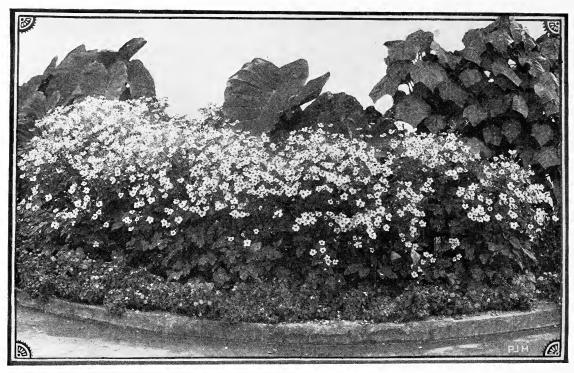

PLANTS OF — Snapdragon, Columbine, Calendula, Canterbury Bells, Foxglove, Hollyhock, Pansy, Pentstemons, Shasta Daisy, Stocks, Gaillardia, Myosotis, Ferns, Fuchsias, Begonias, and Rose Bushes may well be planted.

BULBS—Continue to plant Narcissus, Jonquils, Daffodils, Anemones, Ranunculus, Iris, Gladiolus, Amaryllis, and Lilies of Japan.

FRUIT TREES—Both citrus and deciduous fruit trees may be planted this month; also berry vines.

Our Nurseries at Chatsworth are now well stocked with a complete assortment of trees and shrubs. The stock is very fine. Shrubs are well shaped, having been trimmed and trained for specimens and the trees are grown to stakes, keeping them straight and uniform.

This plant is located one mile east of Chatsworth, on Devonshire Boulevard at the corner of Lurline Avenue. A salesman is on duty from 7 A. M. until 4:30 P. M. each week day. We invite you to visit these grounds and make a personal selection of the plants for your home.

Anemone Japonica

PERENNIAL FLOWERING PLANTS

In the well planned garden much thought and consideration is given to the perennial flower beds and borders. This is the permanent, or near permanent, color feature of the garden. With the plants offered in this section, the most beautiful and interesting gardens may be had,—gardens that increase in interest and beauty year after year, and change their aspect with every change of season.

Acanthus

(BEAR'S BREACH)

Mollis latifolius. A handsome decorative plant, used as a single specimen or for grouping with other plants to give a sub-tropical effect. The leaves are deeply toothed and heart-shaped; 2 feet long and 1 foot wide. Produces curious slate-colored spikes of flowers during July and August. Thrives best in partial shade.

Price 50c each

Ajuga

(BUGLE PLANT)

A useful plant for shady positions in rockeries or for a ground cover, under trees, etc., where grass will not grow. reptans. Excellent for ground covers. Grows three to four inches high, with deep purplish-blue flowers. Foliage is dark, glossy green and very dense.

Price \$1.50 per dozen; \$10.00 per hundred

Achillea

(MILFOIL OR YARROW)

Millefolium Roseum. Finely cut deep green foliage. Flowers pink in dense heads, 18 inches high and flowers all summer. Bolue de Neige. (Ball of Snow). Bears its pure white flowers the entire summer on strong, erect stems 2 feet high. Tomentosa. Handsome cut foliage and bright yellow flowers during June; height about 12 inches.

Price 25c each; \$2.50 per dozen

Agathea

(BLUE DAISY)

Coelestis. Especially suitable for edging. Can be trimmed to make low hedge and is seldom without its sky-blue daisy-like flowers the entire year.

Price \$1.00 per dozen; \$7.50 per hundred

Page Fourteen

Alyssum

Saxatile compactum. (Basket of Gold). An indispensable plant for hot sunny places. Also splendid in the rockery. An almost constant bloomer.

Price 5150

Price \$1.50 per dozen; \$10.00 per hundred

Anchusa

(DROPMORE VARIETY)

Italica. The Anchusa makes a vigorous growing plant 4 to 5 feet high, bearing innumerable glistening blue forget-me-not-like flowers which are borne in profusion during the spring months. Plant in any good garden soil and in a sunny position.

Price 20c each; \$2.00 per dozen

Myosotidiflora. This is a dwarf variety of Anchusa which is entirely different from the old tall growing variety. Grows but 10 to 12 inches high, and blooms during April, May and June. The little Forget-me-not-like flowers are a deep, rich blue, and are produced in many sprays completely covering the plants plants.

Price 50c Each; \$5.00 Per Dozen

Anemone (JAPANESE WIND FLOWER)

Japonica. A valuable hardy perennial bearing large, stately flowers on strong stems, above the heavy dark foliage. Anemones thrive best when planted in a cool, shady position. They are most useful for filling in the fern-beds or shaded side of the rockery. Two colors, pink and white.

Hupehensis. These little beauties have recently been introduced from Central China and are closely related to our Anemone Japonica or Wind Flower, which they resemble except that they are smaller. The plants grow to a height of 10 to 12 inches and are a mass of color from early August until late October. The little single rose-like blossoms are a pleasing shade of rosy-mauve. A valuable addition to the perennial flower graden collection. ing shade of rosy-mans.
flower garden collection.
Price 35c each; \$3.50 per dozen

Aquilegia (COLUMBINE)

Columbines do well in most any kind of soil, although a good loam is preferable. The best situation being in a partially shaded location where the soil is rather light and where the plants are protected from the wind. They may also be planted in full sun, provided they are not near a building where there is a reflecting heat.

Coerulea. Rocky Mountain Columbine. Large violet-blue and white flowers.

Pink Hybrids. A splendid selection of long spurred Columbines in the pink and rose shades.

Paul J. Howard's Hybrids. A mixture containing a beautiful ollection of colors. White, blue, yellow, orange, scarlet, rose, collection of colors.

Price 15c each; \$1.50 per dozen; \$10.00 per hundred

Calceolaria

A beautiful plant of dwarf and compact habit, producing a mass of beautiful, pocket-like flowers, spotted and blotched in rich and varied colors. Does best in sheltered, half shady loca-

Price 50c Each

Carnation (DIANTHUS CARYOPHYLLUS)

Carnations do exceedingly well in our climate, require very little culture and bloom almost continuously throughout the year. They prefer a light, sandy loam and plenty of water. We list and recommend the following splendid varieties:

Dr. Choate. Scarlet, fragrant. Enchantress. Lovely soft pink, large.

Fall-Flowering Hardy Asters

heads.

(MICHAELMAS DAISIES)

Among the showiest of our late-flowering hardy plants, giving a wealth of bloom during September and October, when most other hardy flowers are past; for the best effect should be planted in masses of one color. Grow freely in any soil.

Price 25c each-\$2.50 per doz.

Aubrietia

A very pretty little plant much used for edging. Blue flowers. Price 20c each-\$2.00 per doz.

Campanula

Indispensable, hardy garden flowers, of much variety of form, some of tall and imposing habit, others are dwarf compact little plants, suitable for edging, rock-work, etc. Like a good, rich soil, and last much longer in bloom if planted in a half shady place. All taller growing kinds should be staked to prevent injury from high winds.

Carpatica (Carpathian Harebell). A pretty species growing in compact tufts, not exceeding 8 inches high; flowers clear blue; held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for a hardy border or for the rockery it is unsurpassed.

Medium (Canterbury Bells). We offer this popular variety in blue, white, rose and in mixed colors.

Calycanthema (Cup and Saucer Canterbury Bells). We offer this type in blue, white, rose and mixed colors.

Pyramidalis (Chimney Bellflower). The most conspicuous of all Campanulas, forming a perfect pyramid 4 to 6 feet high, crowded with large salver-like porcelain-blue flowers in August.

Price-Any of the Above, 25c Each \$2.50 Per Doz.; \$15.00 Per 100

FLOWER SEEDS-Continue to sow seeds the same as during January. Also Balsam, Lobelia, Pyrethrum, Scabiosa, Verbena, Petunia and Salvia in seed boxes for transplanting later

PLANTS OF—Columbine, Snap-dragons, Carnations, Canter-bury Bells, Foxglove, Delphinium, Pansy, Pentstemon, Shasta Daisy, Stocks, Verbena, Calendula, Hollyhocks.

BULBS of Amaryllis, Cannas, German Iris, Gladiolus, Liliums, and Tuberoses.

FRUIT TREES-Plant all deciduous fruit trees, citrus trees, ornamental trees, and ornamental shrubs, shrubbery and roses, Strawberry plants, Asparagus, and Rhubarb roots. Spray peach trees before they leaf out with "Lime Sulphur" for the prevention of "Curly Leaf".

Rose Pink Enchantress. Large

Rose 1 mm — rose pink Victory, Bright scarlet. Mrs. Ward. Dark rose. Matchless. White, large. Fair Maid. Soft apple blos-com pink flowers. Very frag-

yellow, very choice. Price 20c each; \$2.00 per doz.

Chaenostoma

Hispida. A dwarf border plant ideal for rockery work. Height 6 ot 10 inches, foliage small and plants covered with minute white flowers through-out the year. Price 15c each; \$1.50 per doz.

Coreopsis

Lanceolata. One of the most popular hardy plants. The flowers are a rich golden yellow, of graceful habit of growth and splendid for cutting. Blooms the entire summer and fall.

Price 10c each; \$1.00 per doz.

Delphinium

One of the most popular of our perennials. Especially shades of blue displayed in its color tones. Plant in full sun in well drained soil. Grows from three to five feet high. Do not allow seedpods to form and they will flower again later in the season.

Belladonna. (Light Blue). 3 to 4 feet. Flowers exquisite shade of turquoise blue.

Bellamosum. This is a dark form of the Belladonna, with which it is identical in habit, and growth, and freedom of bloom. It has intensely rich deep blue flowers.

Formosum. Deep blue, white eye, open spike. Price 25c Each. \$2.50 Per Dozen.

ENGLISH HYBRIDS. This strain of Delphiniums contains a wide selection of all the best shades of blue, ranging from the palest sky blue to indigo, sapphire, dark blue and purple. For producing a fine mass of blue, Delphiniums are unequaled, and the fact that with the return of each season there is an increased quality of bloom and added wealth of color has made them popular in gardens everywhere.

Price 35c Per Clump, \$3.50 Per Dozen Clumps.

Dianthus, Napoleon III

Dianthus Napoleon III

This is a rare and beautiful variety of hardy Pinks. It is a perennial and constantly in bloom. The flowers are very double, and are a clear, even tone of cherry red, coming on long stems. Very valuable as a cut flower. Does not produce seed, so this variety is always scarce.

Price 20c Each, \$2.00 Per Doz.

Dianthus

(HARDY GARDEN PINKS)

Especially fine for planting in beds and borders; their delightful, refreshing spicy odor makes them a wonderful addition to any collection of garden flowers.

Semperflorens. Beautiful single pinks with fringed edged flowers in many colors,

Hedwegii. Handsome attractive double flowers in colors of white, pink, and dark red.

Price \$1.00 per dozen; \$7.50 per hundred

Barbatus Sweet William. An attractive free-flowering perennial which produces a splendid effect when planted either in beds or borders. Requires a good rich soil to grow them to perfection. Grow one to two feet high. Colors of white, rose,

21/2 inch Pots, Price 15c each; \$1.50 Per doz. 4 inch Pots. Price 25c each; \$2.50 per dozen.

New Perpetual-Flowering Hardy Pinks (DIANTHUS ALWOODI)

This is a most important addition to our list of perennial plants. They are perfectly hardy and flower continuously from early spring until late in the autumn the flowers are much more substantial and larger than the old type of Hardy Pinks, and are borne on long stems suitable for cutting; deliciously clove-scented.

Harold. A splendid large double pure white of great substance.

Jean. Pure white with a deep violet-crimson center.

Joyce. Soft rose-pink with amaranth-red center.

Robert. A delicate shade of old rose with light maroon center.

We offer good thrifty young plants of the above 20c each; \$2.00 per dozen; \$15.00 per hundred. Ready February 15th.

Digitalis (FOXGLOVE)

The Foxgloves, old-fashioned and stately, are wholesome company in any garden. The strong flower stalks—frequently 5 to 6 feet high—rising from rich and luxuriant masses of leaves, always give an appearance of strength to the hardy border, and during their period of flowering dominate the whole garden.

Gloxiniaeflora (Gloxinia-flowered). A beautiful strain of finely-spotted varieties. We offer them in white, purple, rose or

Ambigua or Grandiflora.

Ambigua of veined brown.

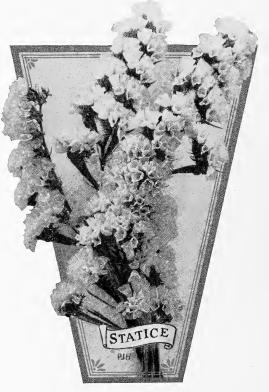

Price. 4 inch Pots, 25c each; \$2.50 per dozen.

\$15.00 Per Hundred.

Price. 3 inch Pots 15c each; \$1.50 per dozen.

\$10.00 Per Hundred.

Showy flowers of pale yellow,

(See Page 22)

Doronicum (LEOPARD'S BANE)

Excelsum. Large bright yellow flowers and one of the most fective very early spring flowering perennials. There are Excelsum. Large bright yellow flowers and one of the most effective very early spring flowering perennials. There are many who have only seen this as a single plant, here or there in a hardy border, and have no idea of the effect it has when planted in a mass. It is also a splendid flower for cutting, as it carries well and stands a long time in water, opening out morning after morning. They succeed everywhere.

Price 35c each; \$3.50 per doz.

Eupatorium (THOROUGH WORT)

Coelestinum. A useful border plant of strong, free growth, 3 to 4 feet high, with minute light blue flowers, in dense heads. Good for cutting. August and September.

Price 35c each; \$3.50 per dozen.

Gaillardia

(BLANKET FLOWER)

Gaillardias are among the brightest of our hardy perennials. The flowers are very showy and are splendid for cutting. The plants need very little care and when once you have a bed of these established it is a permanent flower bed.

Grandiflora. One of the showiest hardy plants, growing about 2 feet high and succeeding in any soil in a sunny position; beginning to flower in June, they continue the entire season. The large flowers are of gorgeous coloring. The center is dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower; excellent for cutting.

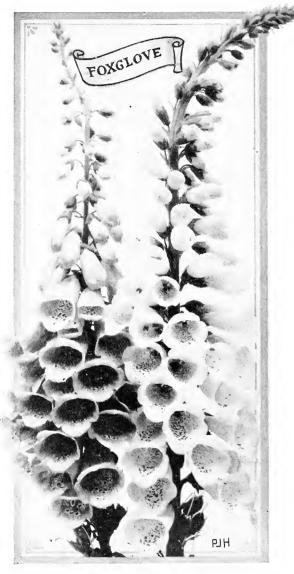

Price 15c each; \$1.50 per dozen; \$10.00 per hundred

New Gaillardia, Portola

We consider this novelty, which originated in California, one of the most valuable perennial plant introductions in many years. The plant, unlike the usual type, which is inclined to be somewhat straggly, is of strong, vigorous, upright habit of growth, $2\frac{1}{2}$ to 3 feet high, with heavy, leathery, glaucous foliage; the long flower stems are straight and strong, and hold the massive flowers erect. These are of extraordinary size, from 2 to 3 inches and over in diameter the petals very broad, overlapping, of

Gaillardia Portola

great substance, and spread out flat, forming a very symmetrical flower. In color, a brilliant, rich coppery-scarlet, each petal heavily tipped or margined with golden-yellow.

Price 25c each; \$2.50 per dozen

Gazania

Much used as a ground cover in parkways and over dry rocky places. Their closely matted foliage makes a complete carpet above which is borne myriads of flowers. Colors, lemonyellow and orange.
Price \$1.00 per dozen; \$7.50 per hundred

Geum

Mrs. Bradshaw. A very showy compact growing perennial with strawberry-like foliage bearing double bright scarlet flowers. In bloom during a good portion of the year. Especially adapted to rockery planting and splendid as a bedding plant.

Price \$1.50 per dozen; \$10.00 per hundred.

Lady Stratheden. It is a counterpart of the popular scarlet variety Mrs. J. Bradshaw, only the blooms are a rich golden yellow. A splendid new perennial.

Price 20c Each—\$2.00 Per Dozen

Gerbera (TRANSVAAL DAISY)

Hybrids. The Transvaal Daises are greatly admired by all who see them. The Daisy-like flowers are borne singly on long slender stems which makes them ideal for cut flowers. The colors are extremely attractive, covering a wide range of shades and hues, such as straw, yellow, orange, scarlet, rose, pink, salmon, etc. Plant in full sunshine in well drained soil and be sure not to plant too deep. Avoid covering the center or crown. Strong field clumps.

Price 35c each; \$3.50 per dozen.

Gerbera Jamesoni. Similar in habit to the Hybrids but bears bright scarlet flowers.

bright scarlet flowers.

Price 35c each; \$3.50 per dozen.

Heliotrope

Make splendid bedding plants and can be used in many parts of the garden. These flower clusters often measure six to ten inches in diameter, and their delightful perfume makes them most desirable in the garden.

Coeur d'Opale. A superb shade of light blue. Queen Margaret. Rich deep purple. Centefleur. Large, dark blue.

Price 20c Each. \$2.00 Per Dozen.

Gypsophila

Paniculata. This handsome Gypsophila is the variety which is commonly used by florists for mixing with bouquets, etc. The plants attain a height of two to three feet, are much branched and covered in the Spring with innumerable minute pure white flowers. This variety is often referred to as Baby's Breath. Strong.

Price 20c each; \$2.00 per doz.

Helianthus

The perennial Sunflowers are among the most effective hardy plants for large bor-ders for planting among shrubbery, or as clumps on the lawn. Remarkably freeflowering, will succeed in any soil; invaluable for decorative purposes, or as cut flowers during summer and autumn.

Maximiliana. The latest of all, perfecting its fine golden-yellow flowers in long, graceful sprays during October, when all others have finished flowering; invaluable for cutting; 5 to 7 feet.

Multiflorus Fl. Pl. (Double Hardy Sunflower). Large, double Dahlia-like golden-yellow flowers in great profusion dur-ing July, August, and Septem-ber; 4 feet.

Angustifolia. This is worthy of a place in every perennial garden. The long, narrow leaves clothe the long slender canes, which are crowned with large clusters of single bright yellow blossoms.

Price 25c each; \$2.50 per doz.

FLOWER SEEDS-Sow in open ground seeds of Acroclinium, Ageratum, Alyssum, Snap-dragons, Arctotis, Balsam, Calendula, Calliopsis, Candytuft, Centaurea, Clarkia, Annual Chrysanthemum, Cosmos, Daisies, Godetia, Gypsophila, Helichrysum, Larkspur, Linum, Marigold, Mignonette, Nasturtium, Nemesia, Nigella, Phlox, Poppy, Salpiglossis, Sweet Peas. Salvia,

PLANTS OF Snapdragon, Columbine, Calendula, Canterbury Bells, Delphinium, Geum, Ger-bera, Hollyhock, Pansy, Pentstemon, Begonias.

BULBS—Cannas, Gladiolus, Tuberose, German Iris.

Planting of all deciduous fruit trees should be completed this month. Citrus trees, Guavas, Loquats, Avocadoes may also be planted to advantage. Also Roses and ornamental shrubs, particularly the early flowering shrubs—Weigelia, Spirea, Crepe Myrtle, Flowering Crab, and Flowering Peach.

Heuchera (CORAL BELLS)

Sanguinea. A most desirable, compact, bushy plant of easy culture, bearing loose graceful spikes of little bell-shaped flowers of rosy coral-pink color. Valuable for the rockery, borders, and the fern bed. Also desirable for cutting. Stands a semi-shady position well.

Price \$1.50 doz.; \$10.00 hundred

Hollyhock

The Hollyhock is one of the oldest of cultivated flowers, and is today to be found in almost every garden. They grow with the minimum amount of care and even in many places where they are utterly neglected, they produce a wealth of beauty which is probably not duplicated in any other cultivated flower. In fact the Hollyhock can be planted in any garden and in almost any position, and still be most effective. We offer a splendid assortment of doubles — red, rose, salmon-pink, maroon, yellow and white.

Price—3-inch pot plants, \$1.50 dozen; larger plants 35c each; \$3.50 per dozen

Hunnemannia (BUSH ESCHSCHOLTZIA)

Fumariaefolia. A splendid perennial of the poppy family; bears large single yellow flowers two to three inches across. Splendid for cutting, blooming over a long period of time. Price 15c each; \$1.50 per doz.

Helenium

All of these are desirable border plants, succeeding in any soil in a sunny location, with broad-spreading heads of flowers, useful for cutting, each species covering a longblooming season.

Autumnale Rubrum. Robust, growing 3 to 4 feet high, with bright terra-cotta red flowers in August and September.

Autumnale Superbum. Golden-yellow flowers during the late summer and fall months; 5 to 6 feet.

Hoopesi. Pure orange-yellow flowers, 2½ inches across, and the earliest to flower, coming in early in June and continuing throughout the summer; 2 feet.

Riverton Beauty. Rich lemon-yellow, with black cone; August and September; 4 feet. with large purplish

Riverton Gem. Old gold, changing to wall-flower red; August and September; 3½ feet.

Price 30c Each; \$2.50 Doz.; \$18.00 Per Hundred. One of each of the 5 varieties, \$1.25.

Iberis (PERENNIAL CANDYTUFT)

Sempervirens. Dwarf evergreen plants, 6 to 10 inches high, overed with masses of white blooms in spring and early sum-er. Excellent for rockeries or borders.

Price 25c Each; \$2.50 Per Dozen.

Lavandula (LAVENDER)

Vera. This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August.

Price 25c each; \$2.50 per dozen; \$15.00 per hundred

Linum (FLAX)

Perenne. Bright blue flowers, hardy. Flavum. A pretty plant for the rockery or front of hardy border. Produces an abundance of yellow flowers in July. Price 25c Each; \$2.50 Per Dozen.

Scabiosa Caucasica

Lobelia

Cardinalis. Entirely different from the low-growing varieties. Grows two feet high with bronzy-red foliage and brilliant fiery-scarlet flowers from July to October. Prefers moist position.

Price 20c Each. \$2.00 Per Dozen.

Marguerite

Marguerites are splendid for use in the perennial border, as specimen plants, or they may be used to good advantage as borders along driveways, walks, etc. Plant in full sun and keep them cut back from time to time. This will keep them sturdy and bushy.

Mrs. Fred Saunders. Large double white.

Boston Yellow. A splendid clear yellow single.

Giant White. A fine single white.

Price 15c each; \$1.50 per dozen

Myosotis (FORGET-ME-NOT)

The true forget-me-nots, a lovely dwarf plant for damp places, spreading rapidly and carpeting the ground. Makes excellent edgings.

Palustris. Hardly ever out of flower. Best in partial shade.
Price 15c each; \$1.50 per dozen; \$7.50 per hundred

Blue Bird. A new Forget-me-not. Rich deep blue in color. Blooms over a long period of time, compact habit of growth—a favorite with all.

Price 20c each; \$2.00 per dozen; \$12.00 per hundred

Pentstemons (BEARD TONGUE)

PENTSTEMONS may be planted in most any location and at any season of the year, and will always give most satisfactory results. The new and improved varieties are very effective in the garden as they present a gorgeous display of color and are in flower for a good portion of the year. The varieties listed here are quite dependable.

Sensation. This strain bears large spikes of brightly colored flowers ranging from pink, rose, red, mauve, lavender, into purple.

Sierra Madre. A handsome flowering variety in deep rosyred with lighter center.

Price \$1.00 per dozen; \$7.50 per hundred

Papaver (POPPY)

Nudicaule. (Iceland Poppy). Growing about 15 inches high, with bright green fern-like foliage. This plant produces, on long stems, charming cup-like flowers in a glorious array of

Orientale. (Oriental). For gorgeous coloring these poppies have few rivals among hardy plants. They produce a magnificent effect in shrubberies and hardy borders, while for cutting they are invaluable.

Price 25c Each; \$2.50 Per Dozen.

Physalis (CHINESE LANTERN PLANT)

FRANCHETI. Flowers yellow with dark center. Produces lantern-like fruits. Highly interesting and ornamental. Grows about two feet high.

Price 50c each

Physostegia (FALSE DRAGON HEAD)

One of the better summer-flowering perennials. Bears long spikes of tube-like flowers. Very hardy and easily grown.

virginica. Long spikes of light pink blossoms.
virginica alba. Same as above except that it bears white flowers.

Geum Mrs. Bradshaw

Vanderbilt's Hybrid Delphinium

A highly improved strain, greatly superior to the ordinary varieties, producing giant stalks of blossoms, and the individual flowers often measure two inches across. The colors are various shades of metallic blue. The majority of the flowers are of the brightest, clear turquoise blue, while some are lighter, some deep blue, and some are bright blue with a jet-black center. Mixed colors only.

Price 35c Each, \$3.50 Per Doz.

Platycodon (JAPANESE BELL FLOWER)

Grandiflorum. The Platycodon is very closely related to the Canterbury Bells, but is different in form and habit of growth. The flowers in bud have the appearance of inflated balloons. They flower from June to September. Colors are blue and white.

Price 35c each; \$3.50 per dozen.

Plumbago

Larpentae. One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high and covered with deep blue flowers during the summer and fall months.

Price 25c Each; \$2.50 Per Dozen.

Page Twenty

Primula

The hardy primroses are among the most useful winter and spring flowers in California. They thrive best in shaded locations where considerable leafmold or peat has been added to the soil.

malacoides. Baby Primrose. These dainty little flowers are almost a necessary requisite to the late winter and early spring flower garden. Their graceful little clusters of light lavenderpink flowers are borne in great quantities on strong wiry little

Price 15c each; \$1.50 per dozen; \$10.00 per hundred

obconica. This strain blooms constantly throughout the early spring months and its white, lavender, purple, and rose-colored flowers always add beauty to the shady flower bed.

Price 20c Each. \$2.00 Per Dozen.

kewensis. This remarkable primrose originated in the Royal Botanic Gardens at Kew, England. It is a splendid winter bloomer and has a long flowering season. The bright yellow flowers are quite fragrant and their long stems make them splendid for show purposes.

Price 20 each; \$2.00 per dozen

veris. The old English Cowslip. The yellow flowers are borne during the early spring months when flowers are scarce. They are fine for edging.

Price 15c each; \$1.50 per dozen

chinensis. This beautiful Chinese Primrose is a favorite for winter and spring blooming. Especially valuable as a pot plant. The flowers are produced in large trusses in a wide range of colors.

Price 35c each; \$3.50 per dozen

vulgaris. English Primrose. Pure yellow flowers produced in early spring in great profusion. They differ from preceed-ing varieties in that they come on single stems and not in umbels or trusses. Splendid for cutting. Plant in partial

Price 25c Each; \$2.50 Per Dozen.

Albion

HARDY PERENNIAL PHLOX

For enchanting fragrance and bright lasting color in your garden, nothing surpasses them.

Blooming as they do, from early summer until early fall, these hardy perennials bring a greater amount of lasting joy to the lover of color gardens than any other species of flower. The Hardy Phlox are hardly rivaled by any other perennial flowering plants in the points of hardiness and gorgeous display of colorful blossoms. They are striking in masses, especially against a shrubbery back ground, or in the open surrounded by green lawn. A few dozen Phloxes planted in a well prepared flower bed will bring joy to any one. Always use a few white ones to accentuate the beautiful brightness of the other varieties.

General Assortment

Price 25c Each; \$2.50 Per Dozen.

Albion. (Medium). One of the best introductions, producing very large panicles of pure white flowers, with faint aniline red eye.

Bacchante. (Medium). Tyrian rose with crimson eye.

Eclaireur. (Tall). Brilliant rosy magenta, with large lighter halo.

Frederick Passy. (Medium). Luminous light mauve pink with white center.

Henry Murger. (Tall). White, crimson-carmine center.

Jeanne D'Arc. (Tall). A good standard; late; white.

La Vague. (Medium). Pure mauve, with aniline red eye. Louise Abbema. (Dwarf). Very large, dwarf, pure white, fine form.

Mrs. Jenkins. (Tall). The best tall early white, for massing.

Professor Virchow. (Medium). Bright carmine overlaid with orange-scarlet.

Riverton Jewel. (Medium). One of the late introductions that we particularly recommend. A lovely mauve-rose illuminated by a brilliant carmine-red eye.

Phloxes become more beautiful year after year. Their hardy perennial roots become more firmly established and each succeeding year brings added blossoms to the same bed of flowers.

Plant them in either partial shade or full sun (the flowers will be brighter in the sun) in any good garden soil. While they will thrive in ordinary soil, they respond wonderfully well to good treatment and will repay the planter for a little extra care in preparing a rich loam before planting.

Colors are, White, Rose, Salmon, Mauve, Carmine, Orange-Scarlet, etc.

Flowerland Special Collection

Six Phlox that are worthy of a place in every garden. Plant them in masses and note the blending of colors.

Price 35c Each: \$3.50 Per Doz.

3 each of the six varieties (18 in all) \$4.50 6 each of the six varieties (36 in all) \$8.50

Elizabeth Campbell. (Medium). The well-known but always scarce variety. Bright salmon-pink with lighter shadings and dark red eye; one of the finest varieties yet produced.

Rheinlander. (Medium). A pleasing salmon-pink with flowers of very large size.

Rynstrom. (Medium). An improved form of the popular variety Pantheon; fine for massing, of a Paul Neyron rose color.

Thor. (Medium). A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow. A light, almost white halo surrounds the aniline-red eye. A very effective color and becoming more popular each season.

Widar. Light violet-rose, with a very large and distinct light center which intensifies and illuminates the delicate coloring. A phlox that will please.

Wanadis. Equally as good as Widar. The color is a shade deeper and the flower spikes are well proportioned and very large.

Page Twenty-one

Pyrethrum

Hybridum. One of the best early summer flowers. Charm-Hybridum. One of the best early summer flowers. Charming color and wonderful lasting properties as a cut flower. The daisy-like flowers come in all colors from deep red through the various shades of rose to pure white. The fine fern-like foliage adds to its attractiveness.

Price 25c each; \$2.50 per dozen

aureum. Is the well-known Golden Feather so much used for edging, carpet bedding, etc., and is an annual while the others are perennials

are perennials.
Price 50c per dozen; \$3.50 per hundred (in flats)

Rosmarinus (ROSEMARY)

Officinalis. An old favorite aromatic herb, delightfully fragrant; flowers light blue and grows about 2 feet high.

Price 25c each; \$2.50 per doz.

Rudbeckia

(CONE FLOWER-GOLDEN GLOW)

This is а well-known plant which is very popular for mixing in with other plants in the perennial border. They attain a height of 4 to 5 feet and bear quanti-ties of double golden-yellow dahlia-like flowers.

Newmani. Dark orange-yellow flowers, with deep purple cones, borne on stiff, wiry stems 3 feet high; flowers from July to September.

Nitida "Autumn Sun." Nitida "Autumn Sun." An attractive single-flowering variety, growing 5 to 6 feet high, with long, broad petals of bright primrose-yellow; August to October.

Purpurea. (Giant Purple Cone-Flower). Flowers about 4 inches across, of a peculiar red-dish-purple with a remarkably large cone-shaped center of brown; forms bushy plants 3 feet high, and blooms from July to October. Price 25c each; \$2.50 per doz.

\$15.00 per hundred

Salvia

(SAGE)

(Blue Sage). Large, rich, dark blue flowers. Does Patens. best in partial shade.

Price 25c each: \$2.50 per dozen

Pretty willow-like growth. Spikes of light blue Azurea. flowers.

Price 25c each; \$2.50 per dozen (Meadow Sage). Deep blue. Price 35c each; \$3.50 per dozen Farinacea.

Leucantha. Bears spikes of deep royal purple bloom in dense whorls along a stem 6 to 12 inches long, which are a deep contrast to its gray foliage.

Price 35c each; \$3.50 per dozen

Santolina

(LAVENDER COTTON)

Chamaecyparissus incana. A dwarf evergreen perennial with attractive, silvery-white foliage. Can be trimmed to any shape desired and is much used as an edging for borders and in carpet bedding.

Price-50c per dozen; \$3.50 per hundred from flats

Saxifraga

Crassifolia. These will thrive in almost any soil and in any shady position. Their large, glossy, leathery leaves and spikes of clear pink flowers make them doubly admirable for planting in front of the shrubbery, in the rockery, or under trees where a mass planting is desired.

Price 50c each; \$5.00 per dozen

Scabiosa (BLUE BONNET)

Caucasica. This plant cannot be too highly recommended for the California garden. The soft and charming light lavender-blue flowers are borne on good stems

a foot to eighteen inches high and there are but few days in the year that a bed of these would not bear some flowers for cutting. Plant in

Price 35c each; \$3.50 per doz.

Columbaria. A new Scabiosa from South Africa resembling Caucasica, but is an exquisitely delicate mauve. Flowers are very graceful, and the foliage is feathery, and decorative. A free bloomer, and a valuable addition to our list of perennials. Price 35c each; \$3.50 per doz.

Solidago

(GOLDEN ROD) Canadensis. An unusually common but useful perennial that blends in with the shrub-

bery and perennial plants and makes a splendid background for lower growing flowers. Pro-duces graceful arched sprays of golden-yellow flowers.

Price 25c each; \$2.50 per doz.

Shasta Daisy (CHRYSANTHEMUM LEUCANTHEMUM)

Alaska. A magnificent variety which bears large glistening white flowers often measuring 5 inches across, on long stems. The best variety for cutting. Price \$1.00 doz; \$7.50 hundred A magnificent varie-

Stokesia

(CORNFLOWER ASTER)

Cyanea. This is not a new, but it is a rare and beautiful hardy perennial. The plants grow 18 to 24 inches high and bear numerous lavender-blue cornflower-like blossoms about the size of an ordinary Aster bloom, from July to November. Plant in full sun.

Price 15c each; \$1.50 per dozen

Statice

(SEA LAVENDER)

Caspia. Bears numerous sprays of tiny pale lavender flowers on long stems. Very popular for mixing with bouquets in the same way as Gypsophila or Baby's Breath.

Latifolia. The leaves of this variety are a deep green, large and leathery, and grow very close to the ground, above which is thrown panicles of small lavender flowers which are used in bouquets.

Perezi. A sub-shrub. Grows 2 to 3 feet high and bears heavy purplish-blue flowers just above its blue-green leaves which are very large. The Statice thrive in almost any soil, but should be given a sunny exposure.

Price—3-inch pots 15c each; \$1.50 per dozen

FLOWER SEEDS — Sow seeds of Amaranthus, Columbine, Aster, Balsam, Cockscomb, Morning Glory, Centaurea, Cosmos Hunmemannia, African and French Marigolds, Mina Lobata, Nastur-tium, Iceland Poppy, Oriental Poppy, Portulaca, Salpiglossis, Scabiosa, Shasta Daisy, English Daisy, Statice, Verbena, Zinnia.

PLANTS - Calendula, Canterbury Bells, Coreopsis, Candytuft, Dianthus, Gaillardia, Pansy, Petunia, Pentstemon, Hollyhock, German

BULBS—Cannas, Caladiums, Dahlia, Gladiolus, Tuberose, Tuberous Gladiolus, Begonias.

Watch your rose bushes and if troubled with green aphis, spray with Black Leaf 40, or other nicotine prep-Mulch flower beds with dairy fertilizer to conserve moisture and to give nourishment to the plants.

VISIT "FLOWERLAND"

Thalictrum (MEADOW RUE)

These plants have finely cut foliage which much resemble that of Maidenhair ferns, and dainty small flowers in

Sprays.

Dipterocarpum. Though introduced some years ago, this beautiful species is yet but little known. We consider it one of the real gems among hardy plants, not only for the garden but its dainty, graceful sprays of flowers, elegantly arranged on stems 3 feet high, are invaluable for cutting; the flowers are of charming shade of violet-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers.

Price 35c each—\$3.50 per dozen

Tritoma (RED HOT POKER-TORCH LILY)

Pfitzeri. Succeeds in any garden soil, but responds quickly be liberal treatment. Bears spikes of orange-scarlet flowers 3 4 feet high. Very showy.

Price 50c Each

Trachelium

Coeruleum. An attractive late flowering perennial, native of the Mediterranean region. Bears feathery deep lavender flowers in dense clusters around a small crown at the terminal end of a small wiry stem.

Price 35c each; \$3.50 per dozen

Valeriana (VALERIAN)

Rubra. Branches freely at the base and forms numerous flower stalks which are densely covered with smooth green leaves, and bears clusters of airy flowers almost continually. Red, white and pink.
Price 20 each; \$2.00 per dozen

Verbena

One of the most popular plants grown. For beds, borders and window boxes, it is particularly fine. The clusters of showy and often fragrant flowers are borne in constant succession almost the year around.

Our stock includes the well-known mammoth varieties in all colors including lavender, purple, red, pink, white and the Auricula flowered with their large umbels of white-eyed flowers.

Price \$1.50 per dozen; \$10.00 per hundred

Veronica

Spicata. A very desirable plant for the perennial border. Grows 11/2 to 2 feet high, bearing long spikes of bright blue flowers during the summer months.

Price 25c each; \$2.50 per dozen

GERANIUMS

While one of California's most common flowers, the Geranium has assisted materially in making California famous for flowers. Always in bloom, always growing well, not complaining of poor soil and neglect, these faithful flowers go on day after day, month after month, doing their bit to make the garden cheerful. During the past ten years great strides have been made in the improving of the various varieties of Geraniums. There are now some mammoth flowering sorts as well as delicately colored ones that supersede the old time kinds.

Alphonso Ricard. Semi-double, rather dwarf but very com-Bright orange flowers.

Beauty Poitevine. Semi-double. An old standby and a very ne geranium. The flowers are a rosy salmon pink, slightly fine geranium. shaded orange.

Berthede Priscilla. A delicate silvery pink that holds its color well even in the hot sunshine. Large double flowers. Helen Michell. Semi-double. A choice clear scarlet variety.

Jean Oberle. An exquisite shade of Hydrangea pink shading to white at the outer edges. Very large double flower.

Jean Viand. Beautiful clear rosy pink with a distinct white

Jean Pabon. A fine double, blood red with white eye.
Fiat. The queen of salmon pink geraniums. Plant is of bushy compact habit, has exceptionally clear foliage and the flowers are large and beautifully clustered. A free-bloomer.

flowers are large and beautifully clustered. A free-bloomer. Semi-double.
Madame Salleroi. A beautiful little plant for borders and edging. The foliage is very dense, grows close to the ground and is attractively variegated with white.
Mrs. Pollock. Another attractively variegated variety. Foliage is bronze, belted with crimson and edged golden yellow. Crabbe. A large flowering variety. Color is a beautiful shade of salmon pink. Extra large trusses of blossoms.

Jacquerie. The flowers of this variety are mammoth size and are exceedingly bright, having that rich velvety scarlet color that everyone so much admires.

Paul Crampbel. This is a favorite bedding geranium and is one of the best bright scarlet varieties. Plants are compact, bushy, and somewhat dwarf.

Maxime Kovalesky. A truly wonderful single geranium. Flower trusses are large, being made up of numerous large single blossoms, and are a beautiful orange red.

Mrs. E. G. Hill. A beautiful, soft, salmon pink. A profuse

bloomer.

S. A. Nutt. This is the darkest and richest geranium grown. It is a very bright, dark, deep, rich, velvety maroon. An excellent bedding geranium.

Price-Standard Varieties of Geraniums-

2½-inch pot plants 15c each; \$1.50 per dozen \$10.00 per hundred

3-inch pot plants 20c each; \$2.00 per dozen \$12.00 per hundred

IVY LEAVED GERANIUMS

The Ivy Leaved Geraniums are especially adaptable for window boxes and for covering banks, parkways, or hillsides, on account of their trailing or creeping habit.

Chas. Turner. This is the best known and the best of all Ivy Geraniums. The plant is a prolific grower, with deep bright green ivy-like foliage. Bears deep clear pink blossoms very profusely.

Price \$1.50 per dozen; \$10.00 per hundred

Gazania Border

IRIS GERMANICA

(FLAG LILIES-FLEUR-DE-LIS)

The Irises are sun lovers and delight in a well drained situation. They require little or no cultivation other than to keep the weeds out. Plant so that the soil just covers the rhizome and firm down well. A light mulch of well rotted manure is beneficial.

Generally speaking, the fall of the year is the best time to plant Irises, September and October being the ideal months for the planting of root divisions. Established potted plants may be planted almost any time.

The following varieties are deliciously fragrant, large, beautifully marked blossoms, having mottled "Standards" and delicately veined "Falls". Any one of the collection is a rival of the orchid.

Albert Victor. Standards soft blue; falls beautiful soft lavender.

Price 20c each, \$2.00 per dozen

Alcazar. A truly magnificent Iris. Stems of great length. Blossoms of enormous size. Color a wonderful combination of violet, purple, and blue. Price 35c each, \$3.50 per dozen

Amas. Handsome giant flowered form from Asia Minor. Standards rich blue. Falls violet.
Price 25c each, \$2.50 per dozen

Archeveque. A new Iris, the coloring of which is as unique as it is beautiful. Standards are a rich reddish purple. Falls dark velvety purple.

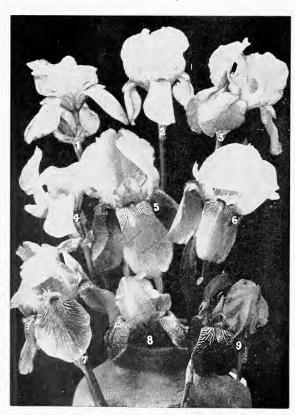

Price 35c each, \$3.50 per dozen Arnols. Falls rich velvety purple. Standards rosy bronze.

Grows 30 inches high.

Price 25c each, \$2.50 per dozen

Cherubim. This new Iris has standards of a distinct shade of lavender. Falls lavender veined with white.

Price 50c each, \$5.00 per dozen.

- 2. Golden Fleece 3. Caprice
- 4. Jeanne d'Arc 5. Alcazar 6. Isoline
- 7. Monsignor
- 8. Archeveque 9. Prosper Laugier

Caprice.

Caterina. This is a most satisfactory and truly beautiful variety. Very tall, sturdy flower spikes, on which are surmounted large beautiful flowers. Standard clear lavender-blue. Falls soft light blue; very fragrant.

Price 50c each, \$5.00 per dozen

violet purple shadings.

Price 25c each, \$2.50 per dozen

Crimson King. Everblooming variety. Deep, rich claret purple. Plant a border of these—they are almost constantly in

Price 15c each, \$1.50 per dozen

Standards rosy red. Falls a deeper shade with

El Dorado. A tall growing large flowering type, and a new color in hybrid Irises. The ground or back-ground color is brownish yellow, overlaid with blue. Price 35c each, \$3.50 per dozen

Fairy. White, delicately bordered and suffused soft blue; very good. Price 15c each, \$1.50 per dozen

Creamy white, faintly tinged lavender. Price 15c each, \$1.50 per dozen Florentina.

Golden Fleece. Light yellow; strikingly attractive flowers growing about 18 to 20 inches high.

Price 25c each, \$2.50 per dozen

Her Majesty. Standards are a lovely rose-pink. Falls bright crimson tinged with darker shadings. The blending of tints and coloring in this flower are rare indeed for an Iris.

Price 35c each, \$3.50 per dozen

Isoline. Standards lilac-pink shot with bronze. Falls purplish old rose with golden throat and yellow beard. One of the most beautiful of the family. Height three feet.

Price 35c each, \$3.50 per dozen

Jeanne D'Arc. The ground color of this remarkable Iris is pure white, both in falls and standards; petals are lightly penciled light blue. A free bloomer and equal to an orchid in

Price 35c each, \$3.50 per dozen

Lohengrin. Blossoms of immense size. The color deep rich Price 35c each, \$3.50 per dozen

Loute. Height medium. Flowers borne on sturdy stems; to size. Standards pale lilac, falls deep blue. Price 35c each, \$3.50 per dozen very large as

Lovely. Ultramarine-blue bordered cream; very distinct variety. Price 20c each, \$2.00 per dozen

Madame Chereau. White with beautifully frilled wide bor-Mauante der of clear blue.

Price 15c each, \$1.50 per dozen

Mrs. Reuthe. Standards white, snaueu and Price 15c each, \$1.50 per dozen Standards white, shaded and veined blue.

Mesopotamica. A wonderful and comparatively new variety. Standards clear lavender. Falls violet purple.

Price 50c each, \$5.00 per dozen

Monsignor. A tall growing variety bearing immense blossoms in profusion. Standards are a bluish lavender while the falls are violet with white pencilings at the throat. Blooms for a long time. Price 25c each, \$2.50 per dozen

Nuee D'Orage. A strikingly beautiful variety. Standards are a peculiar shade of grayish lavender. Falls bronze and purple. Blossoms of extra size. Very fine. Price 35c each, \$3.50 per dozen

Page Twenty-four

Oriflamme. Standards clear light blue. Falls rich lavender purple. Very fine large flowers.

Price 25c each, \$2.50 per dozen

Pallida Dalmatica, Princess Beatrice, Queen among Irises; grand and stately. Standards lavender, falls clear deep lavender. Flowers large and extra fine.

Price 35c each, \$3.50 per dozen

Parisiana. A distinct advance, by way of color, in these new Irises. The standards are mottled lavender-pink. Falls creamy white, with a suffusion of Pink. A scarce and high priced sort. Price 50c each, \$5.00 per dozen

Plumeri. Standards coppery rose. Falls velvety claret; tall growing.

Price 20c each, \$2.00 per dozen

Princess Victoria Louise. Falls deep purplish-rose; standards yellow; grows 30 inches high; especially attractive in the garden.

Price 50c each, \$5.00 per dozen

Prosper Laugier. An iris that is different. The flowers of this variety are unique and different from those of any other variety. The standards are a light bronzy red, while the falls are a rich velvety maroon with orange beard, which enlivens the color.

Price 35c each, \$3.50 per dozen

Tamerlane. This variety bears flowers of phenomenal size. Well poised on thick heavy stems. Standards bright blue. Falls deep purple.

Price 35c each, \$3.50 per dozen

Walhalla. Standards lavender-blue; falls violet-purple, lighter toward the edge. Grows 2 feet high.

Price 25c εach, \$2.50 per dozen

Zephyr. Color lavender-blue, blossoms of medium size only. What they lack in size, however, is more than made up for by their profusion of bloom.

Price 35c each, \$3.50 per dozen

Iris Stylosa

These are, perhaps, the most useful of the Iris family for general garden use. They thrive in any location and do particularly well around pools, where their long, grassy evergreen foliage is extremely attractive. Blooming as they do for so long a time in the fall and winter months, makes them doubly valuable.

Iris Stylosa Blue. Lilac-blue, violet scented; very fine.

Iris Stylosa Alba. Identical with the preceding, except in color, which is pure white.

Price 20c each, \$2.00 per dozen

Iris of Japan (Japanese Iris—Iris Kaempferi)

A marvelously beautiful class of Irises.

The color combinations are unsurpassed even by the Orchid, and it would be difficult to describe them except to say that all shades of purple, lavender, mauve, pink, yellow and white are included. Flowers are very large, often eight to ten inches in diameter, and are borne on stems reaching two to three feet above the ground.

Our collection is made up of some splendid varieties which have been tested and

found to be very satisfactory for our climate.

Mixed Colors only-Price 35c each, \$3.50 per dozen

SHRUBBERY

Shrubbery forms the foundation planting of every well planned garden. At "FLOWERLAND" you will find a large collection of shrubs, tall, short, or spreading, shrubs for sun or shade, shrubs with splendid foliage and shrubs with flowers as well. All sizes from those in one gallon containers to large specimens in boxes.

FLOWERLAND

Is completely stocked with annual and perennial flowering plants; shrubs, trees, and in fact every garden requisite.

We extend to our customers the service of skilled, experienced plantsmen to facilitate the effective planting and care of our plants.

Note: In ordering bulbs, to be shipped via Parcel Post, please enclose additional for postage at the following rate, unless listed prepaid:

10c per dozen bulbs; 20c for 50 bulbs, and 30c for 100 bulbs.

"Flowerland Dahlias

THE DAHLIA

We know of no other garden flower (the rose excepted) that will yield as large returns for the amount of money and time expended as the Dahlia. They are easily grown, prolific bloomers, and the color and flower variations are very extensive.

Our stock this year is the finest ever, strong, clean tubers, with plenty of vitality to produce magnificent blossoms.

We have been careful in selecting our stock and have included only those varieties which have been thoroughly tested and found to be most reliable.

This list includes many late novelties of exceptional merit as well as recent introductions and standard varieties that have proven to be the best.

For best results follow these planting directions:

PLANTING NOTE: Dahlias require a sunny position, a thorough watering about once a week during warm weather, and deep cultivation a day or two after each

watering. Almost any kind of soil will produce good dahlias, if properly cared for; but rotted manure should be worked into the soil when preparing the ground, which should be dug deeply. In planting tubers, always lay the tuber on its side, never stand on end. Plant not less than two feet apart, and about four inches deep. Each plant should be staked. If part of the buds are pinched off you will have larger blooms. The flowers will keep better if cut in the evening, the stems dipped in boiling water for a few minutes and then set in cold water to harden.

Time for Planting

As the dahlia is a fall blooming flower, it naturally does not require early planting as some may suppose. Planting should begin about the middle of April and may successfully continue for two months or more. Earlier than this, the ground is cold and the tubers may rot. If planted when the ground is warm, growth is quicker and more vigorous and the plants will bloom until frost.

BEST NEW VARIETIES

Amun Ra. THE SUN GOD. Decorative. The originator describes it as follows: "The glint of a topaz that is placed near a bit of old Chinese lacquer would suggest the tone of Amun Ra. To call it a glorified burnt orange hardly does it justice." The outer petals are gorgeously shaded copper and orange shading to gold, deepening toward the center to a rich bronze. Its beautiful, unique color, with the mammoth, perfectly formed blooms, and its strong, stiff stems, puts it in a class but itself.

Price \$1.00 Each

NOBILIS

Page Twenty six

Augustinus. (Hybrid Cactus). The flowers of this new variety are borne erect on extra long, stiff stems, characteristic of the newer Holland introductions. They are large, very freely produced, and made up of many long, wavy petals. A wonderful combination of salmon, overlaid with deep old rose.

Price \$1.00 Each

Couronne D'Or. (Decorative). A very large flower full and double, with good long stems. The color is a bright coppery orange. One of the most beautiful novelties in size and color vet introduced.

Price \$5.00 Each

El Granada. (Hybrid Cactus). A vivid orange with the reverse of petals creamy yellow. The petals twist and interlace, giving the effect of an orange flower, with gold tipped petals. The flowers are very large and full, and the stems are long and perfect. A prize winning flower wherever exhibited.

Price \$5.00 Each

Emma Groot. (Decorative). This is one of the best of the new Holland introductions, and is a distinctively new type. It is a very large flower with broad wavy petals, and stays perfect from the first to the last of the season. The color is a desirable shade of deep mauve or lilac, beautiful in either natural, or artificial light. The stems are long and very stiff, carried high above the bushes.

Price \$2.00 Each

Gold Rush. (Decorative). Large, full flowers of a beautiful clear lemon yellow, without shading. Vigorous grower and the blossoms are carried high above the bush on fine long stems. Lasts a long time when cut. This is a particularly striking novelty, and is destined to become very popular.

Price \$2.50 Each

King Harold. (Peony Decorative). This is a very striking dahlia of a rich, velvety red, almost black. An especially fine variety of this color as the stems are long and stiff, and the flower is of large size. A new Holland variety which we can very strongly recommend.

Price \$1.00 Each

Kittie Dunlap. (Decorative). This is a beautiful new shade resembling the American Beauty Rose. It is a very free bloomer all season, of large size and substance, and has long stems. It has long keeping qualities, making a very desirable cut flower.

Price \$1.50 Each

Mariposa. (Hybrid Cactus). A perfectly formed hybrid cactus composed of long narrow incurved petals which curl and twist so as to baffle an artist. A delightful shade of lavenderpink which is intensified by a deeper center. One of the gigantic California introductions which has depth as well as diameter of flower. An absolutely stiff stem which rises nearly 3 feet above the foliage and a center which is regular and perfect. Blooms early and continues in good shape to the end of the season.

Price \$1.50 Each

Mr. Crowley. (Decorative). An exquisite shade of salmon, with golden suffusion. Flowers are large and come on stout stems on plants of very compact habit, very free flowering and a splendid exhibition variety. This is the variety that we grew along our front driveway last year, which evoked so much ad-

Price \$1.50 Each

(Decorative). A beautiful combination of white and Adding. Decorative). A deautiful combination of white and scarlet, with the white predominating. The large bold flowers are carried on robust stems and keep exceptionally well after cutting. It differs from Earle Williams in the amount of red in the flowers. Both very desirable where really showy effects

Price \$1.00 Each

Pink Triumphant. (Decorative). A new pink dahlia of delightful form and color. It has broad petals, running to narrow points. In color it is a most attractive shade of soft rose pink, with just the faintest white tips. One of the most valuable varieties for cutting.

Price \$1.00 Each

Rising Beauty. (Hybrid Cactus). Deep scarlet, tipped with gold. Similar to Geisha, but the red is deeper, giving a greater contrast. The plant is always a free bloomer, being one of the first to come into bloom, and continuing late in the season. The stems are long and rigid and hold the large flowers erect. Late in the season the flowers are inclined to the peony forma-

Price \$1.00 Each

Rookwood. Giant Decorative. A remarkably distinct Dahlia in every way, habit of growth heavy, vigorous and spreading but dwarf, unusually free-flowering, coming into bloom early and producing 100 per cent perfect flowers to the end of the season. The form is absolutely perfect and entirely distinct. Composed of peculiarly curled or twisted petals, in color a pleasing shade of cerise-rose, which does not vary during the entire season. Rookwood is different from all others and none will be disappointed with it.

Price \$3.00 Each

Shudow's Lavender. (Decorative). The very large flowers are of a silvery lavender slightly shading to white. In hot weather the white is more pronounced, but as the season advances it will almost disappear. The stem is long and stiff and holds the large flower erect. It blooms continuously and freely from early to late in the season and never shows a center and has excellent keeping qualities as a cut flower.

Price \$2.00 Each

Tommy Atkins. (Decorative). One of the most remarkable colored dahlias of all. It is a brilliant flaming scarlet, the brightest red yet produced. Creates a sensation wherever shown. The flowers are large and attractively formed, not at all stiff and formal, and are well placed on good long stems. Our supply of this is very limited.

Price \$2.50 Each

Wizard of Oz. (Decorative). A great dahlia in every way. It is very large, but not coarse, sometimes much like a cactus variety. The stems are very long and stout. The color is a rare shade of amber pink, with soft salmon shadings. It succeeds everywhere.

Price \$2.50 Each

CHOICE STANDARD VARIETIES

Artis. Decorative. The color is a rich, brilliant, fiery orange-scarlet, a shade which is very desirable for floral decorations. The flowers are medium sized and the shape of the blossoms is most beautiful and artistic. Awarded a First Class Certificate at Amsterdam, Haarlem, and The Hague in 1921, and highly commended at the dahlia trials at Wisley, England, in 1922.

Price 50c Each

Ballet Girl. (Cactus). One of the best English Cactus dahlias Ballet Girl. (Cactus). One of the best English Cactus danias with unusually good stems for this type. The plants are exceedingly prolific bearing such quantities of flowers in such varieties of color that it is somewhat difficult to describe. The flowers are usually described as being orange with white edge but vary so much that some of the flowers may be pure orange or white shading to orange, and even white blossoms.

Price \$1.50 Each

Barranca. (Decorative). A clear canary yellow. Flowers are large, perfectly arranged, and borne on good stems well above the foliage.

Price 50c Each

B. P. O. E. (Hybrid Cactus). A California introduction named in honor of the Benevolent and Protective Order of Elks, because of its color, a rich regal purple. It makes a striking decoration, particularly when used with white dahlias of this same type. The flowers are perfect in form, with the best of stems and keeping qualities.

Price 50c Each

Delice, (Decorative). Probably the most used pink dahlia for decorating and floral work. The color which is a glowing rose pink, together with the perfect formation of the flower and stiff wiry stems, makes it a valuable flower.

Price 25c Each

Dr. Tevis. (Decorative). This is a magnificent flower and will always be in demand. Splendid for cutting and decorating. Equally effective in the garden. The color is a blend of copper, old-rose, and old gold.

Price 50c Each

Dream. (Decorative). A peculiar peach pink with an amber-like glow. Of great beauty and perfect form, standing erect on long, strong stems high above the foliage. New Holland sort that is ideal for cutting.

Price 50c Each

Earle Williams. (Decorative). A very popular dahlia because of its bizarre coloring and perfect shape and large size of its blooms. It is a mixture of red and white, with the red predominating. This is a fine companion flower to the variety Nobilis.

Price \$1.00 Each

Elsa. (Peony). One of the real good white flowers. The large well formed flowers are excellent keepers and should be used freely in vases.

Price 35c Each

Geisha. (Peony). This superb flower has a combination of brilliant scarlet and gold with a touch of rich clear yellow at the center. The petals are queerly twisted and curled which tends to make it a sensational type.

Price \$1.00 Each

General Rosalie Jones. (Hybrid Cactus). Pure golden yellow, with no shading. One of the best, and a most beautiful cut flower. The flowers are large, beautifully shaped, with full centers, and have good straight stems.

Price 50c Each

George Walters. (Cactus). Always a good dahlia. A hybrid cactus that produces mammoth flowers. Blooms freely on good strong stems. A pinkish salmon with yellow shadings at the base. "Exceptional."

Price 35c Each

Golden West. (Cactus). Known by all who grow dahlias. Has been a favorite since its introduction. The color is a superb shade of yellow with apricot shadings.

Price 35c Each

Insulinde. (Decorative). The finest and most artistic dahlia of distinct form with petals twisted and curled. Stems are two to three feet long, with flowers 9 to 10 inches across. Color, a rich saffron yellow shaded russet orange. One of, if not the grandest of Holland's introductions.

Price \$1.00 Each

(Decorative). A delicate mauve pink of great Jane Selby. substance and beautiful formation. The plant is a strong grow-er, producing the giant flowers on long stiff stems well above the foliage.

Price 50c Each

Jean Chazot. (Hybrid Cactus). This we consider one of the finest of the autumn tinted cactus varieties for cutting as well as garden decoration. The flowers are of good size, very graceful formation, held on long stiff stems in such a manner that they show the full flower to the best advantage, the color is a nasturtium-red with golden suffusion, frequently tipped with golden vellow. golden yellow.

Price 50c Each

Judge Marean. (Decorative). A very large flower of perfect decorative shape. The colors changing as the flowers pass through the different stages of development are a combination of glowing salmon-pink, red, iridescent orange, yellow and gold, all blending most harmoniously; it is an early and continuous bloomer on long perfect stems.

Price \$1.00 Each

La Doska Dowd. (Decorative). A fine cut flower variety. The color is a clear yellow, with a rich golden center. The large flowers are freely produced on long thin stems, which are rigid and hold the flower erect.

Price 50c Each

Minnie Burgle. (Decorative). The best known and most popular red dahlia. A free bloomer and good keeper when cut. Color is an intense crimson scarlet.

Price 25c Each

Mr. H. C. Dresselhuys. (Decorative). Similar to Delice, which has been long considered the best pink dahlia for cut flowers, but lighter in color, being a soft rose pink. It is a much freer and surer bloomer than Delice.

Price 50c Each

Mrs. Carl Salbach. (Decorative). This dahlia has rightfully been awarded numerous medals and certificates of merit. It is really a grand flower and we do not hesitate to recommend it as one that is sure to please. The color is a mauve pink shading to white.

Price 50c Each

Page Twenty-eight

Mrs. Edna Spencer. (Cactus). An exquisite shade of delicate lavender or orchid pink. Very beautiful under artificial light. Price 50c Each

Mrs. I. De Ver Warner. (Decorative). Flowers of immense size and a most beautiful shade of glowing mauve pink. It is a tall, vigorous grower and remarkably free bloomer. A variety which we strongly recommend.

Price 75c Each

Mrs. Jessie Seal. (Peony.) This is one of the most popular flowers throughout the entire country. It has long stiff stems that hold the flowers high above the foliage and is excellent for cutting as its keeping qualities are unsurpassed. The color is a magnificent old gold with rose shadings.

Price \$1.00 Each

Mrs. W. E. Estes. (Cactus). Conceded to be the best white dahlia grown. We were looking for some good white dahlias to add to our collection at the late Flower Shows both in San Francisco and Los Angeles, but found nothing to compare with Mrs. W. E. Estes. The flowers are large, with deep, full petals and are held high above the foliage on strong wiry stems. It has the honor of having won numerous prizes, one of which was "The Best Dahlia in Show," exhibited by an amateur at the Palage Hotel the Palace Hotel.

Price 75c Each

Norman. (Cactus). This is a very beautiful cactus type, with many exceedingly narrow petals. The flower is large, has great depth, and the stem is good. The color is a clear, deep scarlet. Fine for cutting, exhibition, or the garden.

Price 50c Each

Patrick O'Mara. (Decorative). This sensational new decorative variety was awarded a Gold Medal by the American Dahlia Society, as the best Autumn shade variety in existence. The color is an unusually soft and pleasing shade of orange-buff, slightly tinged with Neyron rose. It is very large, 7 to 9 inches in diameter, and borne on long strong erect stems. It is a strong vigorous grower and free bloomer. The giant flowers are well formed, while the outer petals are most pleasingly irregular.

Price 50c Each

Paul Bonyon. (Decorative). A beautiful salmon-pink, with luminous sheen. One of the older varieties which has always been satisfactory as a cut flower. The blooms are large, perfect in shape, and freely produced on long stems.

Price 25c Each

Paul Michael. (Decorative). One of the sensational large exhibition flowers that always attracts attention and which has twice been awarded the prize as the largest flower in California shows. Petals quilled at base, curled and twisted, color pure gold, shaded orange-buff at center, very free-flowering.

Price \$1.00 Each

Polar Bear. (Decorative). A California introduction of great superiority and merit. It is of the purest white, the flowers of great size and excellent form, borne very freely on good long stems and last wonderfully either on the plant or when cut.

Price 75c Each

Pride of California. (Decorative). A brilliant, glowing cardinal-red, of very large size held on extra good stems, very free and a wonderful keeper as a cut flower, the best of its

Price 25c Each

Princess Pat. (Decorative). This decorative dahlia is a rarely beautiful shade of old rose. Splendid for exhibition and a good keeper when cut.

Price 75c Each

Rheinischer Frohsinn. (Decorative). One of the most satisfactory dahlias for any purpose. The flowers are large and keep exceptionally well when cut. The color is a deep rose, intermingled with white in such a way as to give the whole a general tone of bright rose pink.

Price 50c Each

U. S. A. (Hybrid Cactus). Probably no other dahlia has met with such favor as this, which is entirely distinct in color from all others, a pure deep orange, sparkling and glistening, an unusual color in dahlias. These flowers are of large size, ot good formation, on excellent stems, held so as to display their full beauty and not least of all, it is remarkably free-flowering, being early and continuing in good condition to the end of the season. U. S. A. is a splendid dahlia for all purposes.

Price \$1.00 Each

SHOW DAHLIAS

This is the old fashioned type of Dahlia that is again coming into great popularity. The flowers are large, round and very double, with quilled petals. They are excellent as cut flowers, and make a beautiful combination with the tiny pompoms.

A. D. Livoni. (Show). An old variety of considerable merit and one that always pleases. It is one of the pink varieties that will be worthy of a place in your garden. Blooms freely and lasts well.

Price 35c Each

Clara Seaton. (Show). Rich golden bronze. Flowers are large and perfectly shaped, and the bush is a robust and very fine bloomer.

Price 35c Each

Maud Adams. (Show). Snowy white, faintly tipped pale pink, making a most dainty flower. This coloring, together with the keeping qualities make it an ideal cut flower.

Price 50c Each

Miss Helen Hollis. (Show). Deep scarlet. One of the largest dahlias in this type, with long perfect stems.

Price 35c Each

POMPOM DAHLIAS

(BABY DAHLIAS)

These are extremely decorative and pretty little flowers. Always perfect and they are the most prolific bloomers that we know of. Their perfectly formed and brightly colored blossoms together with their long keeping qualities gives them a foremost place of importance as garden flow-

In selecting them we have been careful to include a very complete range of colors as well as the better and more prolific bloomers. All varieties here can be highly recommended.

Jeweeltje. (Little Jewel). While we list this among the pompoms, it is really an entirely new type of dahlia. being a very dainty miniature hybrid cactus. We unhesitatingly recommend it as one of the best novelties of recent introductions, and as a most valuable variety for cut flower decoration. The blooms are a clear peach-blossom pink. The stems are thin, but strong and wiry, and the bushes are continually covered with blossoms. Because of its small size and beautiful shade of pink, it can be used in many places where other dahlias are not suitable.

Price 50c Each

Alewine. White, flushed and tipped lavender.

Price 25c Each

Anna Von Schwerin. Most delicate shade of light pink. One of the best.

Price 50c Each

Ariel. Deep orange buff. Price 35c Each

Girlie. Lavender pink

Price 35c Each

CHRYSANTHEMUMS

THE QUEEN OF THE AUTUMN FLOWERS

(Ready May 1)

PLANTING NOTE: Spade the beds over well and use a liberal amount of well-rotted manure. Construct a ridge along the edge of your beds to make a basin as an assistance in watering. Chrysanthemums require plenty of water, as a lack of it tends to harden the stems. It is well to stake plants as soon as they are set out. Pinch the plants back once or twice, as they may need it, but not after the middle of August. After the final pinching back select four or five strong shoots on each plant and remove the balance. When the buds begin to make their appearance, select the strongest and remove the balance as well as all side shoots from the stem. Give your Chrysanthemums plenty of water and one or two good mulchings with wellrotted manure.

All varieties listed at 15c each are \$1.50 per dozen All varieties listed at 20c each are 2.00 per dozen All varieties listed at 25c each are 2.50 per dozen Each plant is labeled and true to name

Adele Griswold. Incurved bright pink.

Adrian's Pride. Very bright yellow. Fine for Thanksgiving blooming. Height 4 feet.

WATER GARDENS

A pool for water-lilies and other water-loving plants is both practical and possible in most gardens. This pool can be constructed on a scale to correspond in size and shape to your garden. And the added charm that it gives to the garden is many time more valuable than the expense of building the pond and furnishing it with suitable plants.

If you desire to add an attractive and practical feature to your garden, we recommend that you see us about building a Water Garden.

Hardy Pompoms

These are the "Baby" Chrysanthemums and should not be disbudded. They grow in large clusters. The height of the plants vary from 18 inches to 21/2 feet.

Button Or Baby Pompoms

"FOUR ALLURING VARIETIES"-YOU CAN'T BEAT THEM

Dainty Maid. Pearly white, delicately shading in the sun to flesh pink. A most perfect little flower in both form and color. Baby Doll. One of the very smallest Button types. Flowers full, perfectly formed, and are a clear yellow.

Clare. A new variety with wonderful keeping qualities. Blooms early, October 20th, and stays in flower until long into the autumn. Very free-flowering and of purest white.

Metzi. Flowers are a little larger than the other Button Pompoms. Plant is a dwarf grower and is extremely free flowering. The color is clear yellow with the center showing a clear red. Very unique.

Price 20c Each

SPECIAL OFFER-3 each of the four varieties for \$2.00

Pompoms— Standard Varieties

(PERFECTLY FORMED LITTLE FLOWERS)

Unusually Billie Primrose. good for floral arrangements; also splendid for bedding. Color is a deep mulberry.

Crawford's Pink. A splendid clear pink. Height 2½ feet.

Diana. Pure white pompoms. Flowers are one and one-half to two inches in diameter; free bloomers. Height 2 feet.

Donald. Small perfectly-formed flower in closely clus-tered bunches. Light pink with bronzy center.

Plum. Immense clusters plum-colored flowers shade to deep pink as they develop.

Zenobia. A fine yellow with outer petals shading to bronze. Price 20c each; \$2.00 per doz.

SPECIAL OFFER 3 each of the six varieties \$2.50 Postage Paid Chestnut. Both ray and disc florets are of an even shade of tan color, which harmonizes perfectly with reds and yellows; full cushion center. Height 2½ feet.

Dazzler. A true single flower with one row of bright crimson petals which do not fade. The center or cushion, is clear yellow and quite full. Nothing else just like it.

Dr. A. J. Crance. One of the finest single white varieties. Each petal rolls back and gives a beautiful effect. Dwarf grower which makes it a good bedding variety.

Emily A. Bean. Sulphur-yellow with burnt-orange shadings. Three rows of petals with a small yellow center. Height, 2 feet.

Gilda. Gilda. Exceptionally free-flowering and very dwarf rugged grower. The flowers are a deep, clear yellow; fine for pot culture.

FLOWER SEEDS-Sow seeds of Calendula, Candytuft, Cosmos, Centaurea, Marigold, Nasturtium, Portulaca, Salpiglossis.

PLANTS—Asters, Coreopsis, Carnation, Chrysanthemum, Delphinium, Zinnias, Clarkia, Marguerite, Verbena, Heuch-era, Geum, Gerbera, German Iris.

Trim edges of borders and hedges. Watch for the appearance of green aphis and other insect pests, and apply the proper remedies. If in doubt, consult us.

VISIT "FLOWERLAND"

Open 8:00 A. M. to 6:00 P. M. -Week DaysMrs. Katherine Williamson. An attractive flower with four rows of petals; color is terra cotta with bronze shading, yel-low eye. Height 2 feet.

Ira. Clear shade of light pink with yellow center. Flow-ers are one and one-half inches diameter and beautifully

Ju-Jitsu. Thread-like variety. A novel variety, with slender quilled petals which come out clear white, but shades to a clear rose as the flower develops. A favorite and different ent.

Peggie Johnson. The color is a clear, soft yellow, shading to bronze. Height 2 feet.

Rev. Albert L. Hall. One row of clear white, beautifully quilted petals and one row of small petals with small yellow cushion center. Fine stems.

Old Gold. As good as the name. The color is deep apricot shading evenly to bronze. Is devoid of stripes as is often seen in this type and is a fine clear color. Equally good for cutting and in the garden; also a splendid variety for pot culture.

Sam Caswell. Another thread-like variety with clear lavender-pink flowers. Good for cutting and floral work.

Sallie. New. A beautiful shade of soft salmon with old gold shading. Flowers are perfectly formed and are two inches across. Height 3 feet.

Single And Anemone Pompom Chrysanthemums

These are extremely attractive and decorative flowers. They are all of easy culture as well as free flowering, and the colors are most pleasing. For cutting and decorating they have no equal.

PLANTING NOTE

The Anemone Chrysanthemums should be planted in rich soil in full sun. April and May are the ideal months for planting, although they may be planted as late as July. We do not recommend the disbudding of this class. They may be cut back during July and then allowed to form compact bushy plants.

Christen Mackenzie. Single row of petals of terracotta pink shading to mahogany; yellow eye.

Ceed. A soft shade of mauve-pink with a tinge of greenish-yellow at the center. Height 2½ feet.

Seaforth. New. One of the finest; flower is clear yellow in the center while the petals are a soft yellow shading to burnt-orange at tip of petals. You will want this variety if you want something fine.

The Belle. Pure white with creamy yellow center; flowers are $2\frac{1}{2}$ to 3 inches in diameter.

White Thread. Thread-like petals. This variety is unlike any other listed in formation. The slender petals are twisted around about five times and are also attractively tinged with pink in

Price of the preceding-20c Each, \$2.00 per dozen.

PLANTS OF SPRING AND SUMMER FLOWERING ANNUALS

Each season we grow thousands of annual bedding plants for distribution in the spring time. At this time of year the bulbs (planted the previous fall) are ready to dig and store away and the beds should be replanted with flowering plants which will blossom during the summer months.

Our spring annuals as well as our fall annuals are grown in pots and are easily and safely transplanted. Most varieties of plants are ready April first (some earlier and some later) and should be planted as soon as the weather is warm enough.

Visit our Lath-houses and see thousands of plants ready to be planted.

Asters

Asters are one of the most important of our summer and fall flowering annuals, and should be planted freely in every garden where color display and cut flowers are de-The strains we offer are the very best and will prove most satisfactory. They bear immense flowers on good stems, and are exceptionally clear colors.

We grow them in the following separate colors. White, pink, rose, carmine, lavender, purple, and crimson.

Price 75c Per Dozen, \$5.00 Per Hundred

GIANTS OF CALIFORNIA
Produced in California and a novelty of great merit.

These new asters combine the strong sturdy habit of growth of the Beauty types with the Crego or Ostrich Plume type. This combination produces a tall, sturdy, non lateral stem on which is borne large fluffy flowers which often measure four to five inches in diameter.

Their immense size and beauty as well as the long sturdy stems make them most desirable and attractive for floral decorations-four distinct colors.

Celosia (COCKSCOMB)

Very popular color-garden annuals. Fasily grown and valuable for their plumy blossoms which are borne in

such quantities as to cover the entire plant.

Celosia cristata. Crested cockscomb, both red and yellow.

Celosia plumosa. Plumed variety. They generally form a pyramidal bush which is covered with flowers closely resembling an ostrich plume in formation. Red or yellow.

Price 75c Per Dozen, \$5.00 Per Hundred

Cosmos

For planting in the perennial border and among the shrubbery few flowers are as satisfactory for late fall blossoms, also for planting along walls and fences, they are very attractive. Grown in separate colors. Red, Pink, White and Yellow.

Price 75c Per Dozen, \$5.00 Per Hundred

Salpiglossis

Undoubtedly one of the most attractive annuals and should be in every flower garden. The blossoms are tube shaped, much like a petunia but even more beautiful in color display. Each flower is veined with a glint of gold beside the many and varied hues of bronze, purple, yellow, and gold that are contained in it. If you have not grown salpiglossis, you should try it. Ready May 1st.
Mixed colors 75c per dozen; \$5.00 per hundred

Zinnias

The most gorgeous annuals that can be grown, and the range of colors is wonderful. Beautiful old rose, dainty cream, and soft pinks, striking red and brilliant yellow, orange and burnt orange, lavender and purple.

We grow large quantities each year and can supply them in separate colors; white, cream, primrose, yellow, burnt orange, salmon pink, pink shades, scarlet, crimson, and purple. Also Dwarf Types.

Page Thirty-three

location for which you are making the selection, as some shrubs thrive better in sun than in shade, and others prefer a little of both sunshine and shade. Some varieties may be strong growers while others may be more dwarf in habit.

Our wide experience in landscape work and our desire to instill into the minds of the people a desire for well-ordered, well-planted gardens, has led us to specialize in this branch of our business. The carefully selected list of Evergreen Shrubbery grouped under this head will give you the best results in your desire for pleasing landscape effects in your plantings.

SIZES AND PRICES OF SHRUBBERY. Owing to the many sizes of shrubbery which may be moved, we have listed here only medium size plants. shrubs have been grown in special containers or they are dug from the field with a ball of earth and may be depended upon to give satisfactory results. We carry at our nurseries thousands of shrubs in various sizes on which we would be pleased to quote prices, either by telephone or letter.

SPECIMENS: For those who desire immediate effects, which can only be obtained by planting large trees and shrubs, we have an unlimited supply of large These are most all established in boxes and can be transplanted with specimens. absolute safety. It is well to make personal selection of these specimens as they vary in size, shape, and price, and really should be personally selected.

PLANTING NOTE: When the plants are delivered balled, the earth being wrapped in burlap, DO NOT RE-MOVE THE BURLAP. Simply place the ball in the hole prepared, cut the strings, and leave the burlap undisturbed. It will rot away in a short time and should you remove it, you would be apt to break the ball of earth and disturb the root action and cause the plant to die.

EVERGREEN SHRUBS

Abelia

Abelia grandiflora. (Abelia Rupestris.) An excellent and exceptionally clean and attractive shrub. Flowers in terminal panicles; white, flushed pink. One of the hardiest and most free-flowering of shrubs. Thrives best in a sandy loam, either in full sun or partial shade.

Price 50c each, one gallon containers

Field Plants \$1.50 and \$2.00 each

Aberia

Aberia caffra. (Kei Apple). A fruit bearing shrub from South Africa. A very attractive shrub for specimens or grouping. Its arching branches are well covered with bright, glossy, green foliage. The small fragrant, tube-like flowers are beautifully tinted, being light pink outside and white inside.

Price \$1.00 Each

5 Collar Containing \$2.50 Resk.

5 Gallon Containers \$2.50 Each.

Arbutus

Arbutus unedo. (Strawberry Tree). Bears a lustrous evergreen foliage. Of great value for decorative plantings. Especially attractive in the autumn when the tree bears large, scarlet, edible strawberry-like fruits and rosy white flowers at the same time.

Price 75c each, one gallon containers Field Plants \$2.00 each

Aucuba

Aucuba Japonica (Gold Dust Plant)

This is a very useful ornamental plant as its natural habit of growth is quite symmetrical and shapely, which makes it an especially good pot plant. The leaves are large and leathery, and are covered with yellow dots which accounts for the common name. Makes a good shady place shrub. Also a valuable specimen for tubs. Do not plant in full sun.

Price 6-inch Pots \$1.00 Each Large Specimens \$3.50 Each

Page Thirty-four

Azara

Azara microphylla. A Native of Chile, This is a large shrub or small tree of upright but graceful habit. The very small, glossy, green leaves contrast beautifully with the dark gray bark of the shrub while it bears quantities of minute yellow blossoms.

Price 75c Each Field Plants \$2.50 Each Berberis (BARBERRY)

Berberis darwinii. (Darwin's Barberry). One of the handsomest shrubs in cultivation. Grows two to three feet high and bears orange-yellow flowers followed by dark purple berries.

Price 75c each, one gallon container

Callistemon

Callistemon speciosum hybrids. (Bottle Brush). Native of Australia and thrives exceedingly well in California gardens as our climatic conditions are very similar. The flowers are very bright and showy. They are in shape very similar to a bottle brush, being borne around the stems or branches of the plants, hence the name. Red is the predominating color, but the hybrids vary from a cream, pink, salmon, rose to deep crimson and scarlet.

> Price 75c each, one gallon containers \$2.00 each, five gallon containers

Buddleia

These beautiful flowering shrubs are native of the semitropical regions and splendid growers in California. The spikes of fragrant blossoms are very useful in decorating.

Buddleia asiatica. (White Buddleia). A tall growing shrub with spreading and slightly pendulous branches. Bears large terminal spikes of fragrant white flowers. Blooms in win-

Buddleia farquhari. Similar to Buddleia asiatica, with light lavender blossoms, very frag-rant. Blooms in winter.

Buddleia madagascariensis. Similar to above, with large spikes of rich, yellow blossoms. Also blooms in winter.

Buddleia magnifica. (Butter-fly Bush—Summer Lilac). Similar to the preceding except that it bears purple flowers in mid-

Price 50c each for strong plants in one gallon containers.

Field Plants \$1.50 and \$2.00 ea.

FLOWER SEEDS-Sow seeds of Cosmos, Nasturtium, Portulaca, Marigolds, Centaurea, Verbena, Zinnia.

PLANTS—Asters, Zinnias, Daisies, Calendulas, Gaillardia, Lobelia, Pentstemon, Marguerite, Heliotrope, Geum, Gerbera.

Roses, Ornamental Shrubs, Vines, and Trees which are established in cans or boxes can be planted at any time of the year. Continue to dig and store bulbs as they ripen and replace with flowering plants.

VISIT "FLOWERLAND"

Cantua

Cantua buxifolia. This plant can be used as a semi-vine or as a shrub and will be found useful for covering banks or useful for covering banks or terraces; good to train on trel-lises as a screen. Flowers are about two and one-half inches long, tubular shaped, red in color. Very showy when in bloom.

Price \$1.00 each. Larger plants \$1.50 and \$2.00 each

Carissa

Carissa grandiflora. (Natal Plum). One of the most beautiful and striking of our evergreen shrubs. The foliage is dark, glossy green, and is very dense. Flowers are waxy, pure white and contrast beautifully with the foliage. The fruit is an additional attraction: bright. an additional attraction; bright cherry red and remains on the plant several weeks. Fruit is excellent for jams.

Price-Potted plants 75c each Field grown plants \$2.00 each

Cassia

Cassia artemesioides. Valuable for its finely cut silvery foliage and deep yellow fragrant flowers. Excellent for dry sunny locations. Plants grow four to six feet high and quite bushy.

Price 60c each Five-gallon container \$2.50 each

Cassia floribunda. This variety makes a small tree and is useful for specimen plantings in userum for specimen plantings in gardens and along sidewalks. Plants are covered with a dense dark green foliage and bear quantities of bright golden-yellow bloom in clusters.

Price 60c each; larger plants \$2.00 each

Buxus

(BOXWOOD — EXCELLENT FOR BORDERS)

These very ornamental shrubs are quite necessary in the formal garden as well as being attractive in shrubbery groups. For tub culture as specimens they cannot equalled as they stand trimming into any desired shape.

Buxus japonica. (Japanese Boxwood). Of special value for hedges and borders as its bright green glossy foliage gives a finished appearance to the garden. Especially valuable for the formal garden.

Price 20c each; \$2.00 per dozen; \$15.00 per hunderd for 3-inch pot plants

Larger sizes, prices on application.

Buxus sempervirens. (English Box Tree). Used for specimen plants and often trimmed into special shapes for pot plants for porch decorations. Also useful for low borders. Small plants for borders.

Price 25c each; \$2.50 per dozen; \$20.00 per hundred Trimmed specimens—prices on application.

Ceanothus (WILD LILAC)

The Ceanothi are beautiful shrubs bearing attractive foliage and lovely dainty flowers. We list only a few of the best varieties which will be found very satisfactory for shrubbery, borders and hillside plantings where a "native effect" is desired.

Ceanothus arboreus. Makes a large shrub or small tree of very rapid growth. Flowers in large trusses, bright blue; foliage is large and dark, glossy green.

Price 75c each 1-gal. container
\$2.50 each 5-gal. container

Ceanothus thyrsiflorus. Of thick, compact growth; small dark green shiny foliage, deep blue flowers.

Price 75c each 1-gal. containers
\$2.50 each 5-gal. containers

Page Thirty-five

Cestrum

Cestrum aurantiacum. An attractive evergreen shrub which is a native of Central America, but it quite hardy here. The flowers are borne in panicles and are a deep orange color.

Price 50c Each. \$2.00 Each 5-Gal. Container.

Cestrum elegans (Habrothamnus). Tall, rather slender shrub of upright growth. Bears almost continuously, tubular flowers in large clusters at the ends of drooping branches. Flowers are a bright rose-red, and are followed by berries of the same

Price \$1.00 Each

Cestrum fasciculatum. Very similar to above, having larger leaves and flowers. Flowers are a deep crimson, brighter than Cestrum elegans.

Price 50c Each Large Field Grown Plants \$3.50 Each

Cestrum nocturnum. (Night Blooming Jasmine). Similar to the preceding except that the flowers are a creamy white and are extremely fragrant at night.

Price 50c Each. \$2.00 Each 5-Gal. Container.

Choisya

Choisya ternata (Mexican orange). Fine rounded shrub for sun or part shade, 4-5 ft., glossy deep green foliage. Fragrant white flowers in clusters. Price 50c Each

Page Thirty-six

Chorizema

Chorizema illicifolium. This handsome flowering shrub is a native of Australia and grows splendidly in the warmer parts of California. The foliage is not unlike a miniature oak leaf, which the flowers which are borne in loose racemes, are peashaped. The color is deep orange-red.

Price 50c Each. \$2.00 Each 5-Gal. Container.

Cistus (ROCK ROSE)

A class of useful flowering shrubs, small or medium sized, and of compact bushy habit. Very hardy when once established and will thrive with little moisture. These may be used on banks or terraces, also on hillsides. The single rose-like blossoms are most attractive.

Cistus maculatus. (Spotted Rock Rose). This variety grows three to four feet high, is very spreading and dense in its habit of growth. The single flowers are borne in profusion, and are very attractive. Their color is pure white except for a conspicuous crimson spot at the base of each petal. Particularly desirable where low growth is wanted.

Price-Pot plants 50c each Field plants \$2.00 each

This shrub has long, slender, and often Leaves are medium sized, grayish-green Flowers are lilac pink in color and are Cistus salvifolius. drooping branches. and rather woolly, of medium size.

Price 50c Each Larger plants \$2.00 each

Cocculus

Cocculus laurifolia. This is a splendid large shrub and will be found especially useful for specimens as well as filling in the shrubbery border. The leaves are long, heavy, and deep green (very similar to the English Laurel), and have a luster unequalled in most of our shrubs.

Price-Pot Plants, \$1.00 Each. Field Plants, \$2.50 Each.

Coprosma

Coprosma baueri. Sometimes called VARNISH PLANT OR WAX PLANT on account of its glossy bright green foliage. Forms a compact bushy shrub and is especially valuable for planting near the house in either shade or sun.

Price 40c each; 5-gallon containers \$2.00 each

Cornus

Cornus capitata. (Evergreen Dogwood). This is a splendid shrub or small tree, as it often grows to a height of fifteen feet. Flowers are very large, two to three inches across, and very similar to the Eastern "Flowering Dogwood." These are of white or cream color, changing to light rose as they age, and are followed by large showy red fruit. The plant is still quite new and scarce, but when really known it will become very popular because it is a beautiful specimen plant

Price \$1.00 Each

Cotoneaster (KO-TO-NE-ASTER)

The Cotoneasters are among our most useful and decorative shrubs. Their clean cut foliage and bright colored berries make them indispensable in the landscape planting. We offer a splendid assortment all of which are perfectly reliable.

Cotoneaster francheti. This is one of the newer and hand-somest varieties of the species. Its habit of growth is rather pendulous; the long slender arching branches are densely fol-iaged with oval silken-like leaves which are dark green above and gray below. The berries are large and are a bright orange.

Price 50c each Field Plants \$1.50 to \$2.00 Each.

Cotoneaster heroveana. This is one of the newer varieties and is without question one of the most desirable of the berry-bearing shrubs. The plant is of pendulous habit and the gracefully arched branches are well covered with bluish-green foliage. Flowers are borne in clusters and are delicate flesh pink. The berries are also borne in clusters and are a beautiful holly red and remain on the bush well through the winter months.

Price-Pot plants \$1.00 each Field plants \$3.50 each

Cotoneaster horizontalis. One of the best low growing shrubs. Branches grow horizontally on the ground and are clothed with very small bright green leaves which turn to a beautiful autumn color during the fall months. Flowers are pinkish-white and are borne in profusion. These are followed by bright red berries during the winter months. (Nearly deciduous).

Price 50c each
Field Plants \$2.00 to \$2.50 Each.

Cotoneaster microphylla. (S mall Leaved Cotoneaster). A beautiful low evergreen shrub with small round glossy green leaves. Deep rose-colored berries follow the flesh-pink flowers which are borne in clusters. Good for massing with low shrubs and for rockery plantings; also attractive if planted on the terrace along either side of the steps.

Price 50c each Field Plants \$2.00 each

Cotoneaster pannosa. A native of Southwest China—very similar to Franchetti, but is more erect and taller growing. Bears thick felt-like leaves and quantities of bright vermillioncolored berries

Price 50c each
Field Plants \$1.50 to \$2.00 Each.

Cotoneaster salicifolia. This is one of the most graceful and prettiest shrubs of the entire Cotoneaster family. The willowy, pendulous branches are clothed in small olive green foliage which is most attractive, but to make it even more beautiful, bright red berries are borne through the autumn and winter months.

Price-Pot plants 75c each Field grown plants \$2.50 each

Cotoneaster wheeleri. Of stiffer and more dense growth than Cotoneaster pannosa, grows to about 4 ft. Leaves small dark green and glossy. Bears abundantly large bright crimson

Price 50c to \$3.50 each.

Diosma

Diosma alba. (Breath of Heaven). A small heather-like shrub bearing white, terminal flowers in great quantities. The finely cut foliage is extremely fragrant.

Price 50c each
Field Plants \$1.50 to \$2.00 Each.

Diosma reevesi. Very much the same as the foregoing except that it is more compact and we believe more floriferous. A wonderful little shrub to use where a low, bushy effect is

Price-Pot Plants 50c Each. Field Plants-Balled, \$2.00.

Duranta

Duranta plumeri. (Golden Dew Drop). An attractive and useful strong growing shrub with dark glossy green leaves. The flowers are borne in racemes toward the end of the branches and are a pretty shade of light blue. Golden yellow berries follow the flower and are carried well through the

Price 1-gal. container 50c each 5-gal. container \$2.00 each

Eleaganus

Eleaganus fragrans reflexa. This is a highly ornamental shrub with attractive foliage. Plants are of spreading habit, leaves are quite large, with waxy margin, smooth above except for numerous small waxy, brown specks, and silvery beneath. This coloring gives it a very striking appearance. Works in well with other shrubbery or makes a good specimen.

Price—Pot plants 50c each

Larger plants \$2.00 each

Erica (Heather)

Erica melanthera. (Heather). Our most popular Heather, and it is really a splendid winter blooming variety. In the fall and winter it is simply covered with tiny pink flowers.

Erica mediterranea. A very desirable, compact growing shrub. In early spring it is literally covered with small, deep rose colored flowers.

Price, 1-gal. Containers, 75c Each 5-gal. Containers, \$1.50 Each Field Plants, \$2.00 to \$3.00 Each.

Escallonia

These useful shrubs come from South America and adapt themselves wonderfully well to California. They are medium tall shrubs of a loose spreading habit of growth. Their attractive flowers contrast beautifully with the glossy dark green foliage. Splendid for massing in groups or even in hedges.

Escallonia montevidensis. Bushy, symmetrical shrub, shiny dark green foliage. Produces large masses of snowy white blossoms in great profusion.

Escallonia rosea. This variety has a heavy dark green foliage and clear pink blossoms. It is a strong, robust grower which makes it a desirable shrub for shrubbery borders, backgrounds, etc.

Escallonia rubra. This is the red flowering Escallonia. Its habit of growth is more dwarf than the two preceding varieties and is more spreading—the foliage is a dark glossy green.

Price—1-gal. containers 50c Each.

5-gal. containers 20.00 Each.

Eugenia

These attractive shrubs belong to the Myrtle family, having white or creamy flowers, which are very similar in formation, and foliage very much like English Myrtle except that it is larger and is a bronzy red when young. The plants are strong growers and lend themselves well to formal gardens for specimens as they may be trimmed into any desired shape.

into any desired snape.

Eugenia hookeri. This is one of the newer varieties. Foliage is similar to Eugenia myrtifolia except that it is larger and more leathery. Not so dense unless trimmed, but like boxwood, it stands trimming well and is taking the place of Bay trees for large specimen plants.

Price—Potted plants 75c each
Field grown plants \$2.50 each
(Trimmed specimens, prices on application.)

Evonymus (SPINDLE TREE)

The Evergreen sorts of Evonymus are grown for their handsome foliage which varies considerably and includes many variegated forms.

Evonymus japonica. A fine upright shrub of medium size and compact growth. The foliage as well as the bark is a clear, dark green. Splendid for hedges and specimens.

Evonymus japonica aurea. (Golden Evonymus). Same as preceding except that the foliage is a bright golden-yellow in the center and dark green around the edges.

Evonymus japonica albo-variegated. (Silver Evonymus). An erect growing shrub. Leaves are almost white around the edge. This margin changes to almost yellow as the season advances. Very attractive and splendid for landscape work.

Price—1-gallon containers 50c each
5-gallon containers \$1.50 each
Field plants \$1.50 to \$2.00 each

Fabiana

Fabiana imbricata. A very beautiful evergreen shrub. Soft green foliage. In the spring the plant is covered with small white bell-shaped flowers.

Price 50c each

Feijoa

Feijoa sellowiana. (Pineapple Guava). Beautiful ornamental shrub producing attractive flowers in June. Fruit ripens in November and is very delicious, resembling the pineapple and the guava.

Price 50c each
Larger plants \$2.50 each
(See also Fruit Section)

Fuchsias

For shade and semi-shaded locations, few plants are so satisfactory or produce as attractive a color display as Fuchsias. Give them a deep, well loosened up soil where plenty of leafmold or peat has been used, for best results. You will be more than repaid for a little extra care.

Double—White and Red. Double—Purple and Red. Single—White and Red. Single—Purple and Red. Price of any of above 35c each.

Baby Fuchsias

This class of Fuchsias produces perfect miniature flowers of clear and distinct colors. They are strong, vigorous growers attaining a height of 7 to 10 feet. Baby Fuchsias are splendid for background plantings on the northern exposure as they are extremely prolific bloomers.

Price 50c Each

Genista

The Genistas are handsome ornamental shrubs, usually quite hardy and bear showy flowers which appear profusely in the spring and summer.

Genista canariensis. A much branched shrub; bears bright yellow flowers in racemes. Requires but little care.
Genista fragrans. Similar to canariensis with smaller leaves and flowers in larger bunches.

Genista hispanica. (Spanish Broom). Correctly listed as Spartium Junceum. Upright grower (12 to 15 feet if not cut back) with green rush-like branches; practically leafless. Bears showy, fragrant yellow flowers throughout the season. Thrives in almost any soil and is especially well adapted to dry sandy and rocky places.

Genista monosperma. White broom. Very graceful shrub with grayish green slender and drooping branches, and almost no leaves. Covered with white flowers in Spring.

Price 75c Each

Genista racemosa. Growth more flat and spreading than the above. Flowers larger and placed more at ends of branches. One of the best of the Genistas.

Price—either variety, except where noted, 1-gal. containers 50c each; 5-gal. containers \$2.00 each

Grevillea

The genus Grevillea, a native of Australia, is adapted admirably to California. They are valued for their finely cut foliage and highly colored blossoms.

Grevillea banksi. This is a tall growing shrub or small tree with attractive foliage much like the well-known tree "Grevillea Robusta." One of the showiest shrubs of our entire collection, and will be planted universally as soon as well known. Flowers are in large clusters, plume-like and a beautiful shade of crimson. Should be planted in warm situation as it will not stand severe frosts.

Price \$1.50 each

Grevillea thelemanniana. A dainty, graceful shrub, with needle-like foliage of a pleasing shade of green. Flowers which are borne in clusters and in great profusion, are bright orangescarlet.

Price—1-gallon containers 50c each 5-gallon containers \$1.50 to \$2.00 each

Hakea

Australian shrubs, cultivated outdoors in California, and enduring well poor soil and drought, Generally with peculiar foliage and attractive flowers.

Hakea pugioniformis. Branches stiff; leaves acicular; at a distance resembling a pine. Flowers whitish.

Hakea laurina. Large shrub or small tree with leaves re-sembling a Blackwood Acacia. Flowers are large red balls, with white stamens. Makes a very striking subject. bloom.

Price-In one gallon containers, 50c each. In five gallon containers, \$2.00 each.

The Hibiscus are showy plants bearing attractive large hollyhock-like flowers all through the summer months. They are somewhat tender and may be nipped by frost in the colder sections. However, the roots are hardy and new shoots will start early in the spring and will bear a quantity of beautiful flowers the same season.

Hibiscus Peachblow. This is a Hibiscus of intense beauty. The flowers are double; delicate rose with salmon shadings.

Hibiscus Double Crimson. This makes a splendid specimen or may be used in hedge form. Flowers are large size and

or may be used in head --very double.

Hibiscus Single Scarlet. The showiest of all.

Hibiscus Single Arrantiacus. Apricot yellow, tinged salmon
with red veining on petals.

Price—Either variety, 75c Each.

Large Plants \$2.50 Each.

Hydrangea

Very ornamental shrubs which bear quantities of flowers in large clusters. They thrive best in a rich porous soil in shaded positions.

Hydrangea otsaksa monstrosa. Beautiful shrub with dark glossy foliage and very showy deep pink flowers in immense

Price 75c Each

Hypericum (GOLD FLOWER)

Useful shrubs for various places such as banks, shrubbery borders, foundation plantings and in sunny or partially shaded exposures.

Hypericum moserianum. This is a low growing variety which makes splendid compact little shrubs—2 feet high and 2 to 2½ feet across. It bears numerous bright golden-yellow flowers all through the summer months months.

Hypericum patulum henryi. Vigorous upright growing with bluish cast to foliage. Flowers are deep golden-yellow.

Hypericum floribundum. This is a tall growing variety. Very hardy and easily grown—blooms almost continually during the almost continually during the summer. The flowers are borne at the terminal end of the branches and are a deep golden yellow. Plants should be topped after blooming so as to produce new growth immediately and they will bloom again very soon. Will grow seven to eight feet high high.

Price-Either variety, 1-gal. containers 50c each

Ilex

Ilex aquifolium. English Holly. The well known holly so much grown and used in the eastern states for their beautiful berries and prickly, glossy deep green foliage. Does best in California in partly shaded location location. Specimen plants \$6.50 and \$7.50

Iochroma

Iochroma lanceolata. Very similar to the Cestrum except that the foliage is heavier and much larger. The flowers are large tube-shaped and borne in clusters. A rich deep purple.

Price-1-gal, containers 75c 5-gal. containers \$2.00 each Leonotis

Leonotis leonurus. (Lion's Tail.) Fast growing low bushy shrub, with long, narrow, hairy leaves, and dense whorls of burnt orange, tube shaped flowers, thickly set on the stems. A very showy subject for winter blooming.

Price 50c each

Leptospermum

Leptospermum laevigatum. (Australian Tea Tree). A strong growing spreading shrub with small glaucous leaves; bearing quantities of flowers having five white spreading petals and pinkish center. Thrives remarkably well in California.

Price 50c each

Libonia

Libonia floribundum. A most interesting little shrub for the rockery, fern bed, or border planting. The foliage is a soft, glossy, deep green, and the flowers are orange-yellow with red shadings—tubular in shape and are borne in the early spring.

Price 50c Each Ligustrum (PRIVET)

Grown in almost any kind of soil and will even thrive in dry situations and somewhat shaded locations. Desirable for shrubbery and Can be closely hedges. trimmed.

Ligustrum henryi. (New). We believe this will be one of the most popular of the privet family, for both hedge purposes and specimen plants as soon as they become known. The dark, glossy, small foliage is very dense and the plant lends itself well to trimming. May be used as a specimen for porch decoration. tion.

Price 75c Each Field Plants \$2.00 Each

Ligustrum japonicum. (Japanese Privet). Large shrub or tree with leathery dark green, glossy leaves and white flowers. Splendid for a tall hedge and also good for a small tree. In flats of 100 plants 10 inches high, \$2.50 per flat

Ligustrum nepalense. This is Ligustrum nepalense. This is one of the most practical hedge plants that we have. Makes a good hedge either at 18 inches or 5 feet. The small, bright green foliage is carried the year around and the plant does not get woody even after repeated cutting.

get Wood, cutting. Price 50c Each In flats of 100 plants 10 inches high, \$2.50 per flat

FLOWER SEEDS — Sow Calceo laria, Cineraria, Centaurea, Cosmos, Pansy, Primula, Stocks, Sweet Peas, Violas.

PLANTS - Aster, Marigold, Begonia, Ferns, Fuchsias, Gaillardia, Myosotis, Eupatorium, Tra chelium, Zinnias.

Trim all flowering shrubs that have finished blooming so as to promote new growth for next season As this is the wood on which the following season's flowers are borne.

5-gal. containers, \$1.50 and \$2.00 Each.

Lippia

Lippia citriodora. (Lemon Verbena). This well-known old favorite needs no elaborate description as everyone is familiar with the delightfully fragrant foliage and attractive spikes of long blossoms. Almost deciduous.
Price 75c Each.
5-gal. containers, \$2.00 each.

Lonicera

Lonicera nitida. (Bush Honeysuckle). A hand with small closely set foliage and white flowers. A handsome shrub value for hedges or specimens.
1-gallon containers, 50c each.

Page Thirty-nine

Mahonia (BERBERIS AQUIFOLIUM)

Mahonia aquifolium. (Oregon Grape). An attractive shrub of medium size with dark green leaves which become a copperypurple during winter months. Its yellow flowers appear in clusters and are followed by blue or nearly black berries. Thrives in most any soil, but is best suited to shady locations where ample moisture and good drainage are provided.

Price-5-gallon containers, \$2.00 each Field plants, \$1.50 to \$2.50 each

Melaleuca

Sometimes called Bottle Brush. The Melaleucas are quick growing, hardy shrubs, of graceful habit and attractive feathery foliage.

Melaleuca armillaris. Large flowering shrubs of spreading habit with long slender drooping branches well covered with small, narrow, soft green leaves. Flowers are creamy white and are like a diminutive Bottle Brush.

Melaleuca decussata. A tall shrub with slender, arching branches; very small grayish-green leaves. Bears soft lilac flowers on short spikes. An extremely graceful shrub.

Melaleuca hypericifolia. One of the most attractive of the melaleuca family. Plant is extremely graceful in habit of growth, bearing slender and rather long leaves which are closely set opposite each other. The flowers are large with long red stamens.

Melaleuca nesophila. Large bushy shrub up to 15 feet high

long red stamens.

Melaleuca nesophila. Large bushy shrub up to 15 feet high with deep green leaves, similar in shape to Leptispermum. Bears rosy lilac colored "brushes," at the ends of branches, instead of around the stems, as in other species. Fine for dry situations where a large shrub is wanted.

Price 50c each. Larger, \$2.00 each.

Myrtus (MYRTLE)

Attractive shrubs with rather small, very aromatic, leaves. Flowers are small and white with numerous stamens, and are followed in the fall by black berries.

Myrtus communis. (Roman Myrtle). True Myrtle. The classic Myrtle, once sacred to Venus; a handsome shrub, growing from 3 to 10 feet high. Quite fragrant, white flowers. Myrtus communis variegata. A form of the above with leaves prettily variegated green and white.

Myrtus microphylla. (Small Leaved Myrtle). Smaller than the preceding and with darker green foliage. Splendid for hedges; also makes a valuable specimen.

Price—Either Variety

Legal containers 50c Each 5-5-21 containers \$1.50 Fach

1-gal. containers 50c Each. 5-gal. containers \$1.50 Each. Field Plants \$1.50 to \$2.00 Each.

Nandina

Nandina domestica. (Heavenly Bamboo). A native of Japan. Growth is upright, somewhat dwarfish, with reed-like stems. The evergreen foliage is attractively tinged with red while still young. Bears numerous white flowers in panicles and masses of small, bright red and white berries in the fall.

Price—One gallon containers, 50c each. Field Plants, \$1.50 to \$2.50 each.

Nerium

Nerium oleander. Oleander. An excellent shrub or small tree for all sections of Southern California, doing especially well in hot dry places. Bears almost continuously and abundantly, large single or double, usually fragrant blossoms. We have the following colors:

Single—White, Rose, Light Pink and Red.
Double—White, Cream, Rose Pink and Salmon Pink.
Price 50c each. Large field grown plants \$3.50.

Osteomeles

Osteomeles schwerinae. Low bushy shrub with fine feathery Acacia like leaves. Thorny stems and bears white flowers fol-lowed by bluish-black berries. Fruit is said to be edible. Native of China.

Price Field grown \$2.00 each.

Photinia

Photinia arbutifolia. (Heteromeles Arbutifolia—California Holly or Christmas Berry). This is our well-known native shrub. The beauty of the hills and canyons during our winter and holiday season.

Price 75c Each. Large plants \$2.50 Each

Photinia serrulata. Large shrub or small tree with large dark green leaves, which turn red in the autumn. Bears large heads of white flowers in spring, making a very showy tree.

Price \$2.50 each.

Pittosporum

For group planting or for specimen shrubs, or for furnishing backgrounds, the many different kinds of Pittospora, native of Australia and New Zealand, are not surpassed. Most of the varieties are good sized, loose, flowing forms, with smooth, crinkled, or many margined, light or dark green foliage, fragrant, white, creamy, yellow, or even darkest maroon, or black flowers. Most of which are followed by berry-like fruits.

Pittosporum crassifolium. A tall growing shrub with heavy dense foliage of a gray-green color. Bears inconspicuous wine-colored flowers. Makes an excellent small tree if properly

Pittosporum engenioides. A small tree with pretty yellowish-green shining leaves. Much used in the northern part of Cali-fornia for hedges. Very ornamental.

Pittosporum nigricans. (P. Tenuifolium). Growth about the same as the preceding, leaves are smaller and a darker green. Bears small black flowers.

Pittsporum phillyraeoides. (Willow Pittosporum). A fine weeping small tree from Australia resembling a willow, but succeeding in a drier soil. Grows to about 20 feet in height.

Price 75c Each.

Pittosporum rhombifolium. A small symmetrical tree up to 20 feet in height. Excellent for street planting, or can be trained as a shrub. Bears large bunches of white flowers followed by waxy orange berries, which are very ornamental.

Price—Field grown plants \$2.50 each.

Pittosporum tobira. (Japanese Pittosporum). Forms a dense, globular shrub of good size or can even be grown into a small tree if properly pruned. Bears pure white fragrant flowers in winter. Easily grown and quite hardy. One of the most popular ornamental shrubs.

Pittosporum tobira variegata. Identical with the preceding except that the foliage is very conspicuously variegated with white.

Price in gallon cans 75c

Pittosporum undulatum. (Victorian Box—Mock Orange.) Makes an attractive symmetrical small tree or can be kept in shrub form; also makes a splendid hedge plant. Leaves are a rich green, longer than any of the preceding varieties. Flowers are intensely fragrant at night.

Pittosporum viridiflorum. Tall shrub resembling Pittosporum Tobira, but not so spreading, and has lighter green, shiny leaves. Flowers are greenish white, fragrant.

Price-Any above varieties, except where noted, 1 gal. containers 50c each. 5 gal. containers and field grown, \$2.00 and up.

Pleroma

Pleroma Splendens. (Tibouchina semidecandra). Glory-Pleroma Splendens. (Tibouchina semidecandra). Glory-bush or Princess Flower from Brazil. We know of no shrub with more delightful foliage and flowers for plant-ing in the more protected spots in Southern California. It grows six to eight feet high, and has soft velvety foliage of a rich deep green turning to bronze in the Fall. But it is the flower that is the crowning glory; a rich royal purple nearly three inches across. The bush is a free bloomer and should have a warm sunny loca-tion. Fine large field grown plants.

Price \$3.50 Each

Polygala

The polygalas are native of the temperate zone of North America, and well suited to our California climatic conditions. They are worthy of a place in every garden, and especially are they useful in the border of flowering shrubs.

Polygala apopetala. This is a slender growing shrub with long graceful branches well foliaged with dark green leaves. Flowers are an unusual shade of lavender-pink and are very attractive. Very showy when used as a background for low shrubbery or as a specimen.

Price \$1.00 Each

Polygala dalmaisiana. One of the most continuous blooming shrubs in California. It is almost always in bloom and much of the time the plants are entirely covered. Forms shapely low shrubs with graceful slender branches. Flowers are magenta-pink, tipped with white.

Price—1-gallon containers, 50c each
5-gallon containers, \$2.00 each

Prunus

This genus is large and very much diversified. It includes many of our most common fruits as well as many valuable ornamental trees and shrubs. We describe here some of the most useful, ornamental shrubs or small trees which are evergreen.

Prunus illicifolia. (California Cherry). An evergreen bush or small tree of dense growth. Foliage is very dark glossy green with prickly margins resembling the English Holly. Splendid for hedges or mass planting.

Prunus integrifolia. (Catalina Cherry). A large shrub or small tree of erect, pyramidal growth; attractive glossy green foliage and small white flowers. Makes a splendid specimen either as a shrub or small tree.

Price—either variety—1-gallon containers, 50c each 5-gallon containers and field plants, \$2.00 to \$2.50 each

Punica

(EVERGREEN POMEGRANATE)

Punica granatum nana. This is one of the best plants that we know of for border work or for miniature specimens. Plants are very dwarf, compact, and bushy, and are almost always covered with bright red blossoms which present a beautiful and striking appearance. May be grown in pots for decorative plants if kept out-of-doors, or on the porch.

Strong plants.

3-inch pots, 35c each; \$3.50 per doz.; \$25.00 per hundred 5-inch pots, \$1.00 each; \$10.00 per dozen.

Pyracantha (HAWTHORNE)

There are several varieties of the evergreen Pyracantha which are of special value as ornamental shrubbery. Their profusion of bloom during the early spring months and their brightly colored fruit which is carried well through the winter months, give them an attractive appearance indeed. We list here five splendid varieties.

Pyracantha angustifolia. Of erect habit of growth with long narrow gray-green leaves. The small white flowers which are borne in cluster are followed by berries which, during the fall and winter, are a bright orange-yellow.

Pyracantha crenulata. (Chinese Evergreen Hawthorne). A dense growing shrub with slender branches and long narrow leaves which are a bright glossy green. The new growth is a ruddy bornze at first. Flowers are pure white and numerous and are followed by bright red berries which are fully colored by September. Will stand in partial shade.

Pyracantha formosiana. One of the best of the Pyracanthas. Compact growth, small bright green leaves. Bears masses of very bright red berries in fall and winter.

Pyracantha lalandi. This is a strong growing variety; growth is spreading and branches are spiny. Bears a great profusion of small white flowers in flat corymbs followed by a mass of orange berries in the fall. These berries are carried until well into the winter.

Pyracantha yunnanensis. This is a form of crenulata, but is a more vigorous grower and has more glossy foliage. The habit of growth is more prostrate and the berries are much larger and are a bright orange. An excellent plant for banks and terraces.

Price—Any above varieties 1 gal, containers 50c each. 5 gal, containers and field grown, \$1.50 and up.

Raphiolepis

Raphiolepis ovata. Native of Japan. A beautiful broad leaved evergreen shrub bearing white flowers in summer and black berries in fall. Thrives best in a well drained soil.

Price 75c Each.
5-gallon containers, \$2.00 each
Field plants \$2.00 to \$2.50 each.

Rhamnus

Rhamnus californicus. (Cascara California Coffee Berry). A hardy native shrub with glossy, aromatic leaves and berries shaped like coffee berries.

Price-1-gallon containers, 50c each

Rhus

Rhus ovata. Low native shrub with thick roundish leaves somewhat resembling a dwarf oak. Very drouth resistant.

Price 75c each.

Rosmarinus

Rosmarinus officinalis. (Rosemary). A hardy shrub with aromatic leaves which are much used for seasoning.

Price 35c to 75c each

te doc to loc cael

Russellia lemoinei. A drooping plant very satisfactory for baskets, window boxes, etc. The small wiry branches are covered with quantities of coral-red tubular flowers.

Price—3-inch pots 25c 5-inch pots 50c

Sollya

Sollya heterophylla. (Australian Bluebell). A low growing and trailing shrub with dark green leaves and bearing quantities of small brilliant blue, bell-like flowers. May be kept compact and bushy by frequent trimming.

Price-1-gal. containers 75c each 5-gal. containers \$2.00 each

Streptosolen

Streptosolen jamesoni. A beautiful, half climbing or rounded shrub. Bears masses of reddish-orange flowers, which completely cover bush when in bloom. Will not stand heavy frost.

Price 75c each.

Veronica

Shrubs of medium size and of quite compact growth. Flowers are borne in spikes. Very attractive shrub for specimens, grouping or even for borders or hedges.

Veronica andersoni. Rather dwarf habit of growth with medium size, closely set, dark green leaves. Flowers are quite large—violet blue.

Veronica andersoni variegata. A form of the above with variegated foliage. Flowers are somewhat lighter blue than the preceding.

Veronica ellipticum. (Veronica Decussata). Rather dwarf—leaves are medium size and very closely set, making a dense, compact growing plant. Flowers are large and a deep blue.

Veronica imperialis. (Imperial Veronica). Rather strong grower and quite spreading. Leaves are larger than any of the preceding and are dark green with purple margins and mid-ribs. Flowers are large and are a deep wine color.

Veronica lewisi. This variety is the strongest grower of all. Makes a splendid compact shrub up to 5 to 6 feet high and will spread equally as far. Bears spikes of light lavender-blue flowers.

Veronica salicifolia var. carnea. A beautiful species with long, narrow, dark green and glossy leaves, and pretty rose-colored flowers. Makes a compact, rounded bush.

Veronica traversi. A dwarf Veronica of compact growth. Leaves are much smaller than any of the preceding and are set very close together making it an ideal low border or hedge plant. Foliage is a dark olive green. Flowers are in small spikes and very dainty. Price for hedge or border planting \$10.00 per hundred.

Price—Any above Veronicas, 1 gal. containers, 35c each Field Plants \$1.50 and \$2.00 each.

Viburnum

Virburnum suspensum. (Sandankwa). A large shrub attaining a height of 12 feet at times and very bushy. Its large heavily lined, dark green leaves are borne very close together on the spreading branches, making it desirable for specimen planting.

Price 50c Each. Field grown plants \$2.00 each

Viburnum rhytidophyllum. Large shrub up to ten feet high, with large thick leaves, very dark and glossy green above, and brownish beneath. One of our most striking shrubs on account of its handsome foliage, and its large clusters of fruit, which change from red to shining black.

Price large plants \$2.50 each.

Viburnum tinus. (Laurustinus). Large or medium size shrub, native of the Mediterranean region, with medium size, wavy margined pointed leaves. Flowers vary from cream to rosy-pink; in clusters and are quite fragrant. A splendid hedge plant.

Price-1-gal. containers, 50c to 75c each. Field plants \$1.50 to \$2.00 each.

DECIDUOUS SHRUBS

HIS class of shrubs has been too little planted in California. So many want evergreen trees and shrubs and fail to remember that these deciduous varieties make up in the spring and summer for their bare branches in winter, by furnishing our gardens with flowers in unlimited quantities. Of course there are a few months (not more than three) that they are bare, but the beautiful fresh spring foliage which is nearly always accompanied with myriads of flowers, more than repays for this short period, which is during the winter months. Nearly all of

Cydonia

Cydonia japonica. (Flowering Quince). Well known shrub with glossy foliage and brightly colored flowers which are borne in great quantities in the early spring. Highly decorative, especially adapted for planting in shrubbery borders. Thrives in most any soil, but requires full sunshine.

Price \$1.00 Each

Deutzia

The Deutzias are among our most beautiful and most popular ornamental shrubs; they are exceedingly floriferous and of easy culture, thriving in most any soil if given a sunny exposure.

Deutzia gracilis. Slender arching branches 3 to 5 feet tall with pure white flowers in racemes.

Deutzia lemoinei. Growth similar to the preceding, but is somewhat more vigorous. Flowers are pure white.

Deutzia candidissima. Very strong grower with dark green foliage and double, pure white flowers.

Deutzia rosea. A dainty and graceful flowering shrub with slender arching branches covered with quantities of small, beautifully formed flowers of a most pleasing shade of pink.

Price any of the above \$1.50 each

Diervilla

Diervilla weigelia. A very desirable class of free flowering shrubs. In late spring or early summer they are abundantly covered with trumpet-shaped flowers. The colors vary in the different varieties from a very light pink to a deep red.

Price 75c and \$1.50 each

the deciduous varieties are hardy and will thrive in our climate.

Do not fail to plant a collection in some part of your garden or you will lose many of the better flowering shrubs.

NOTE: Most all varieties of deciduous shrubs require a good bit of pruning and for best results this should be done immediately after the flowering season, as the blossoms of the following year will be borne on the wood produced by the summer growth.

Forsythia

Forsythia. (Golden Bell). An attractive free-flowering deciduous shrub bearing showy yellow flowers in the early spring time. Has a good clean foliage which remains until the late autumn. Very hardy in any good garden soil.

Price 75c each.

Hydrangea

Hydrangea arborescens. (Hills of Snow). An erect growing shrub with bright green leaves and numerous charming white flowers which are borne a greater part of the summer.

Price 75c and \$1.50 each

Kerria

Kerria japonica. (Japanese Rose). This is a shrub which deserves to be used more freely. Its slender green branches are always attractive while the foliage is very beautiful, being a bright green in summer and turning in November to a clear yellow. Bears numerous large, double, clear yellow rose-like

Price 75c and \$1.50 each

Lagerstroemia

Lagerstroemia indica. (Crepe Myrtle). A strong growing shrub or small tree, bearing an abundance of short fringed flowers in spring and summer. As the plants mature the bark becomes very smooth as if polished.

Price 75c each.

Philadelphus

(MOCK ORANGE—SWEET SYRINGA)

Hardy strong growing shrub with white flowers usually

appearing in June and often quite fragrant.

Philadelphus coronarius. (Garland Mock Orange). Free flowering upright growing shrub with exquisitely fragrant single white flowers, borne in clusters.

Price 75c each.

Punica (POMEGRANATE)

The flowering Pomegranates are well adapted to the California soil and climate and will bloom almost the entire summer.

Double Red. Blooms abundantly during the summer and ll months. The blooms are very double and brilliant scarlet. fall months.

Double Variegated. Handsome variety with large flowers. Petals are striped and mottled with yellow and scarlet.

Double White. Same as above with pure white flowers.

Price \$1.50 Each

Tamarix (TAMARISK)

Attractive flowering shrubs or small trees. Foliage is very minute and looks very much like some variety of Cypress. The flowers are small but are grown in profusion,

press. The flowers are small but are grown in profusion, completely covering the plants during the springtime. Tamarix hispida aestivalis. This variety has the desirable habit of blooming twice a year, in the spring and again late in the summer. Flowers are a delicate shade of pink. Tamarix odessana. An erect and rapid growing variety. May be grown into quite a tree if desired. In appearance it is quite distinct, the foliage is very plumy and the plant may be trimmed so as to form a bushy compact specimen.

Price—In one gallon containers, \$2.00 Each.

In five gallon containers, \$2.00 Each.

Spiraea

Graceful, compact, medium sized free-flowering shrubs, well adapted to California gardens. Ŝplendid for shrubbery borders and specimens. Thrives in any good soil, but prefers a sunny exposure.

Spiraea Anthony Waterer, (Crimson Spiraea). Grows 2 feet high; very fine flowering, with bright crimson flowers in dense corymbs, ar throughout the summer. appearing

Spiraea Reevesiana. (Bridal wreath). Slender graceful shrub with arching branches. Bears numerous clusters of white flowers in late spring.

Spiraea Vanhouttei. (Van Houtte's Bridal Wreath). This is one of the most satisfactory of the Bridal Wreaths. Grows of the Bridai Wreaths. Grows six feet high with arching branches which are clothed with attractive leaves, dark green above and bluish-green beneath. Bears which are the statement of the statem myriads of clusters of white flowers in late spring.

Price any of the above 75c each

Syringa

Syringa. (Lilac), Among our most popular and best known flowering shrubs, valued for their delicately fragrant flowers. Single white, Light Blue, Deep Lilac. Double Rosy Lilac. \$1.50 to \$2.50 each

NOTE—The time for pruning Lilacs is just after they have finished flowering as winter pruning would destroy a large part of the flower buds for the coming season.

SEEDS OF-Calendula, Centaurea, Cineraria, Nemesia. Cosmos, Pansy, Primula, Stocks, Christmas Flowering Sweet Peas. Sow hardy perennials for next year of Aquilegia, Canterbury Bells, Foxglove, Hollyhocks, Delphin-Verbena. Pentstemon, Viola, Wallflower.

PLANTS OF-Stocks, Snapdragons, Pansies, Centaurea, Nemesia, Calendula, Didiscus, Violets.

BULBS—Callas, Freesias, Ranunculus, Anemones, Baby Gladioli, Spanish Iris, Paper White Narcissus, Watsonias.

Viburnum

Viburnum opulus sterile. (American Snowball). A splendid hardy shrub with fine showy flowers in large clusters appearing in the spring.

Price 75c Each

Viburnum tomentosum plicatum. (Japanese Snowball). A very ornamental shrub with tum. (Japanese Snowball). A very ornamental shrub with handsome foliage. Flowers which are often 3 to 4 inches across are borne in gigantic clusters. They are pure white.

Price 75c Each

Vitex

Vitex agnes castus. (Hemp Tree — Monk's Pepper Tree). Shrub or small tree with a strong aromatic odor which re-sembles that of lavender. Foliage is gray-green, while the flowers are a light lilac and are borne in terminal spikes.

Price 75c Each

"There is nothing in which God asks so little of us and gives so much as in the planting of a tree."

SHRUBBERY

Shrubbery has for many years been a specialty with us, AND WE ATTRIBUTÉ MUCH OF OUR SUCCESS IN LANDSCAPE WORK TO THE FACT THAT WE HAVE SELECTED AND GROWN PERFECT SHRUBSshrubs that are properly trimmed and shaped, shrubs that have been staked in the field and are symmetrical.

Come to "FLOWERLAND" for your garden needs. Our salesmen will gladly advise you how to plan your flower garden,-what materials to use and the number of plants needed to fill any space. Quality plants, plus expert advice, assures you a successful garden.

EVERGREEN TREES

Our stock of evergreen trees is large and varied, and the plants are of exceptional quality, having been grown for our landscape work. Each plant has had keen attention paid to it, having been staked, pruned, and fertilized in the best way to produce a well rounded specimen. Owing to the varied sizes of trees in our stock, we cannot give a detailed price list and we kindly ask our customers to write us their requirements and we will be pleased to quote prices.

SPECIMEN TREES

For those who wish large specimens to produce immediate landscape effects, we have an unusually large and varied stock of trees which are now established in boxes. These specimens can be planted at any time, summer or winter, without the slightest set-back. Often a few large specimens when properly spaced will give to a newly planted place, the appearance of an established garden.

Acacia

The Acacias are among the freest flowering of our hardwooded plants. Few pests trouble them; they are hardy; will grow in most any soil, but respond quickly to good care and especially to plenty of water in the summer months, during their growing season.

Acacia baileyana. This Acacia is one of the most strikingly beautiful of evergreen trees. The gray-green foliage is always attractive and in the early spring, when flowers are scarce, the long sprays of lemon-yellow blossoms completely envelop the tree. The tree is quite hardy and with little trimming, makes a shapely, well-rounded specimen. Plant one or more in your garden. garden.

-3 to 4 feet high, 75c Each. 4 to 5 feet high, heavy, \$2.00 Each 5 to 6 feet high, specimens, \$2.50 Each.

Acacia cultriformis. Grayish-green knife-like foliage. A blaze of color in the spring when it is covered with deep yellow flowers. A splendid shrub.

Price-3 to 4 ft., 75c; 5 to 6 ft., \$2.00 Each

Acacia dealbata. (Silver Wattle). Rapid growing large tree, with golden-yellow flowers.

Price—3 to 4 ft., 75c; 5 to 6 ft., \$2.00 Each

Jacaranda

Jacaranda mimosaefolia, One of our most attractive ever-green flowering trees, with fern-like foliage. In June and July they are covered with large trusses of bright lavender-blue flow-ers. Blooms well if not kept too wet; likes a sunny dry posi-tion: requires pruning to be kept in shape. A valuable plant for street planting.

Price—3 to 4 Ft., 75c 5 to 6 Ft., \$2.00 each.

Juniperus

Juniperus chinensis. (Chinese Juniper.) Native of China. Japan and the Island of Formosa. Of upright pyramidal growth with grayish-green foliage. Splendid specimen trees. Juniperus communis hibernica. (Irish Juniper.) A distinct and beautiful variety of slender, dense columnar growth. Bluish foliage of a feathery appearance: excellent for formal planting.

(Continued on Page 18)

JUNIPERUS

(Continued from Page 45)

Juniperus chinensis procumbens, (Creeping Japanese Juniper.) Dense low growing shrub with spreading, procumbent branches; branchlets numerous; foliage grayish-green. Charming for rockeries, terrace entrances, etc.

Juniperus sabina. (Savin Juniper). A dwarf spreading variety with partially trailing, gracefully arched branches.

Juniperus virginiana. (Red Cedar). A pyramidal form with branches that are at first erect then horizontal with pendulous tips, making it an attractive specimen.

Juniperus virginiana glauca. (Blue Virginia Cedar). A bluish-gray form of the Red Cedar and a tree of rare beauty. One of our most attractive conifers, especially when planted with other trees of green foliage.

Magnolia

Magnolia grandiflora. (Big Laurel). Native of South America. Large leaves; dark green glossy on the upperside, underside of rust-brown felty appearance. Flowers large, white, cupshaped, very fragrant; blooms in August. The tree is of stately appearance and deserves to be planted more freely in the garden and on boulevards.

Price \$1.50 to \$3.50 each

Thuya Orientalis Aurea

Parkinsonia

Parkinsonia aculeata. (Palo Verde). A native of California, Arizona, Texas and Mexico. A beautiful tree of willow-like appearance; keen spines at the joints from which one pair of leaf-stems appear from 6 to 18 inches long. Each stem bears from 20 to 30 pairs of extremely small scale-like leaflets; fragrant large yellow flowers will appear from spring throughout the summer. Grows in sandy dry soil. This beautiful tree should be in every California garden.

Price-3 to 5 ft., \$1.00; 5 to 6 ft., \$2.50 each

Henry Ward Beecher said, "Flowers have expressed as much as men. Some seem to smile; some have a sad expression; some are pensive and different; others are plain, honest and upright, like the hollyhock and sunflower."

Picea

Picea excelsa. (Norway Spruce). A well-known beautiful conifer which is distributed all over the northern hemisphere. This is the much used Christmas Tree; also used extensively for wind breaks.

Picea pungens. (Colorado Spruce). A tree of regular, compact pyramidal growth. A slow growing tree and much used for lawn specimen.

Picea pungens glauca. (Colorado Blue Spruce). A blue or glaucous variety of the preceding with shorter and more compact growth. Extremely ornamental.

Picea pungens kosteriana. (Kosters Blue Spruce). A form of the preceding with intensely silvery foliage. Makes a distinctive lawn specimen.

Pinus

(Canary Island Pine). Slender branches Pinus canariensis. and yellowish branchlets; leaves slender, spreading and pendulous light green. Endures drouth.

Pinus halepensis. Tall growing tree with spreading branches; leaves medium length and light yellowish green. Rapid growth; thrives well in California.

Pinus insignis. (Monterey Pine). One of the best for California planting. Extremely fast growing and a most beautiful variety. Strong spreading branches, clothed in long, bright green foliage.

Pinus mughus. (Swiss Mountain Pine). A low dense grow ing tree or shrub, usually of prostrate habit. Excellent for low plantings on hillsides, rocky slopes and on terraces.

Pinus pinea. (Italian Stone Pine). One of the most beautiful and stately of ornamental trees. Growth is very symmetrical; long horizontal, spreading branches form, in the older trees, a broad flat-topped head; very picturesque habit with a trunk usually destitute of branches for a considerable height, forming a spreading, parasol-like head.

Pinus strobus. (White Pine). This variety is very attractive, both while young and when developed. The young trees are clothed in bluish green, long shaggy needles. The horizontal branches are formed in regular whorls, forming a symmetrical pyramid. Rapid grower.

Quercus

Quercus agrifolia. (California Live Oak). The leaves resemble, somewhat, the Evergreen Holly; of a dull green; grows in the foothills and canyons to large size trees. Trunks of the tree grayish-brown; twigs dull gray to a reddish-brown; somewhat downy with short white hairs. Drought resisting. Somewhat difficult to transplant, but once established, it grows quickly into a large tree. Should be planted in every garden.

Prices on application.

Quercus suber. (Cork Oak). Resembles the live oak in foliage. A native of Spain and Mexico. A valuable tree for the cork which is derived from its bark. Grows without water and in sandy rocky soil. In its native states the bark is taken off in the winter time and the tree covers itself with a new bark the following season. A beautiful tree for any garden; also valuable as street trees.

Prices on application.

Schinus

Schinus molle. (Peruvian Pepper Tree; California Pepper Tree). One of our most beautiful trees with graceful drooping branches. Female trees covered with clusters of rost-pink berries during the winter season. It thrives well with little care.

Price 75c Each

Schinus terebinthifolius. (Brazilian Pepper). A much smaller tree than the above, fine for street or specimen planting. Leaflets are much larger and broader than in the common Pepper tree. Bears clusters of red berries.

Price specimens \$2.50 Each

Sequoia

(California Big Tree). Sequoia gigantea. sequona gigantea. (California Big Tree). A mag-nificent tree for park, avenue or specimen planting. Forms an almost perfect pyramid from the ground up, aspecially while young. The trunks are heavy and massive; bark of old trees from one to two feet thick. In reality the most impressive and noble of all known trees.

Sequoia sempervirens. (California Redwood). A graceful, ornamental tree of rapid pyramidal and tapering growth. More slender than the preceding. It succeeds well in all parts of California, adapting itself to mountain side or valley. A magnificent tree.

Sterculia

Sterculia diversifolia. (Victorian Bottle Tree). An ideal avenue or street tree, with slender tapering trunk. Foliage bright glossy green.

Price 75c Each

Taxus

Taxus baccata. (English Yew). Tree or large shrub of rather slow growth, spreading branches covered with somber green leaves forming a low broad head. Can be trimmed in any shape desired. Older plants covered with red berries in the Autumn.

Taxus baccata fastigiata. (Taxus Hibernica—Irish Yew). A remarkable species of the Yew. Of slender upright habit with upright branches and branchlets; effective for formal planting.

Thuya (ARBOR VITAE)

The family comprises species of varying sizes and habits of growth. However, most all varieties are inclined to be compact and symmetrical in their growth. Well adapted to pot culture as specimens.

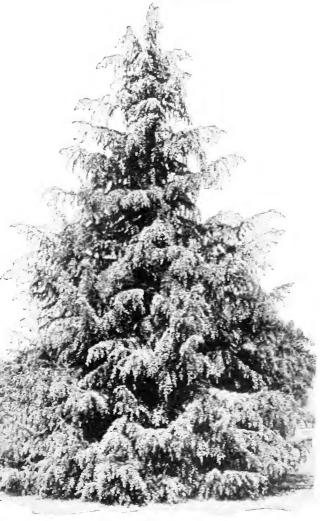

Thuya occidentalis. (American Arbor Vitae—Common Arbor Vitae). The foliage is bright green above, yellowish green beneath, with tones of brown and bronze in winter. Good as tub plants and specimens.

plants and specimens.

Thuya orientalis aurea. (Golden Arbor Vitae.) Of low compact symmetrical habit; golden yellow in spring and summer and changing to bright green in winter.

Thuya orientalis aurea nana. (Berkman's Golden Arbor Vitae). Of dwarf compact habit with golden yellow foliage. One of the best and most popular hardy dwarf evergreens.

Price \$2.50 to \$5.00 each.

Cedrus Deodara

DECIDUOUS TREES

Much charm and beauty has been lost in the gardens of California where deciduous trees have been planted to only a limited extent. When we realize the interest and attractiveness of the early spring when the buds are burst-ing forth and later the partially developed leaves and still later the fully developed clear green foliage which gives the needed shade and protection for the summer months, we understand somewhat the beauty and usefulness of our deciduous trees. But there are the autumn tints. Until we have seen the leaves take on the attractive hues of autumn, which fills the very air with their peculiar beauty, we do not know how beautiful autumn can be.

Acer

Acer dasycarpum. (Silver Maple). A native of North America. Branches brownish gray with large leaves which are bright green above and silvery gray on the reverse side and are 5 lobed. A valuable tree for parks and larger gardens; thrives best in moist places in sandy soil.

Acer platanoides. (Platanus or Sycamore Maple—Pointed Maple). A native of southern Europe; foliage of a shiny green, 5 lobed, coming to a sharp point. Flowers yellowish green at the end of small twigs. A beautiful tree for lawns, gardens, parks and streets, giving plenty of shade. Interesting coloring of leaves in the fall from light yellow to red shades. Likes best moist situations and sandy loam.

Betula

Betula alba. (Common White Birch). Native of Europe. Well liked and much planted tree of great beauty; very ornamental and picturesque among other trees, because of their silvery white, paper-like bark. Upright graceful tree with dull green, and in early spring, May-green foliage.

Catalpa

Catalpa bungei. (Bunge's Trumpet Tree.) Attractive because of its compact form of crown over a single straight stem. Very ornamental for formal gardens. Grows well in California. Similar to a standard Bay tree.

Price \$5.00 each.

Fraxinus

Fraxinus velutina. (Arizona Ash). This species grows most anywhere. Is a native of the Southwest; of slender growth; short trunked; the dense crown of larger trees are broad, rounded and symmetrical. New growth of the twigs are reddish brown, covered and matted with woolly hairs. Leaves pinnate 3 to 9; leathery yellowish green leaflets. This tree will grow very old; a trunk of 15 inches showed an age of 115 years. Useful as ornamental trees in the garden and lawn in dry places.

Ginkgo Ginkgo biloba. (Maiden Hair Tree). Native of China and Japan. Foliage the same shape as the leaflets of the Maiden Hair Fern, from which its name is derived. Upright tree of graceful appearance. This is the tree left from the tertiary period thousands of years ago, when it inhabited the whole northern hemisphere. Useful for solitaires in lawn and gardens, where it will stand out through its interesting peculiar foliage.

Liriodendron

Liffolderium

Liriodendron tulipifera. (Tulip Tree). Native of North America. A beautiful sight when in bloom. Of slender appearance, upright growth and very large leaves 2 to 3 inches wide, similar to the sycamore leaves, of a bright green. Flowers of the shape and size of a yellow tulip; are a yellowish green inside and an orange color outside. Leaves turn into a golden yellow color in the fall. Plant in a moist situation.

Malus

Malus ioensis. (Flowering Crab Apple—Bechtel's Double Flowering Crab). Small tree with spreading or ascending branches. Blooms early in the spring, producing large, very double, perfect flowers resembling small roses; of a delicate

Melia

Melia azedarach umbraculiformus. (Umbrella Tree). A native of the Southern States and the semi-tropics. Vigorous grower of dense even crown, forming a perfect umbrella. Symmetrical and formal. Leaves have long stems; leaflets the size of a walnut. It makes a good shade tree. Flowers of a lilac shape and color; very fragrant, appearing in June and July.

Morus

Morus alba. (White Mulberry.) Light green, rather small leaves. Rapid growing with spreading and ascending branches forming a broad and dense, round-topped crown. Very sweet

fruit.

Morus alba tartarica. (White Russian Mulberry.) A slow-growing, bush-topped tree with small much lobed leaves.

Morus alba tartarica pendula. (Tea's Weeping Mulberry). One of the most popular and widely distributed mulberries in America. Grafts are set in the seedling trees 6 to 8 feet from the ground where numerous pendulous branches are formed.

Morus rubra. (Red Mulberry). A handsome tree with short trunk and strong spreading branches forming a dense broad crown. Leaves are unusually large. Fruit deep red and when real ripe almost black. The largest of the mulberries.

Platanus

Platanus orientalis. (European Sycamore—Oriental Plane Tree). An almost perfect tree for street and avenue planting. Without any training it forms a symmetrical, spreading head. Splendid for a shade tree.

Platanus racemosa. (California Sycamore). Our picturesque native sycamore which adds so much to the natural beauty of our capyon scenery.

native sycamore which according to the control of the growth is very irregular, forming unusually decorative specimens. The leaves are very large and deeply lobed.

Price—7 to 8 ft., \$2.50 each.

Populus

Populus alba nivea. (Silver or White Poplar.) A rapid growing ornamental tree of a wide spreading growth. Leaves are very attractive being large, glossy green above and snowy white beneath.

Populus nigra italica. (Lombardy Poplar). A widely known ornamental tree. The Lombardy Poplar becomes one of the most striking and picturesque trees particularly when the suckers or sprouts are allowed to grow about the trunk from the ground up. Holds its foliage until late Autumn.

Prunus

Prunus cerasifera pissardi. (Purpleleaf Plum). A very ornamental tree, with beautiful bronzy purple foliage, keeping its color throughout spring, summer and autumn. Has ornamental pinkish white flowers in spring, followed by red plums, which are edible and excellent for jelly and preserves. Grows about 20 feet high.

Prunus persica vulgaris. (Double Flowering Peach). An esteemed ornamental tree for garden adornments and affording excellent cut flowers which appear in the spring time bfore the leaves. A truly charming and widely cultivated tree that will thrive in almost any soil. White, Pink and Red.

Salix

Salix babylonica. (Weeping Willow). A very much distributed tree known all over the globe; also admired by everyone. A beautiful tree and quick grower with graceful drooping branches; foliage small and soft light green. Likes moist situations and good soil. Also used for covering pergolas or seats. Thrives well near streams or lakes.

Ulmus

Ulmus americana. (American Elm). Large stately tree; tall, wide spreading branches with a graceful habit and beautiful outline; of quick growth. Valuable for lawn and garden and also as street trees. Remarkable shade tree.

Prices of Deciduous Trees

Deciduous trees, like the Evergreen trees, vary in price, and we are unable to give a detailed price list.

Our prices are based on the merits of each individual specimen, the size, symmetry, and variety being considered.

We will be pleased to quote on your requirements, or best of all-

> VISIT "FLOWERLAND" and make your selection.

VINES

Ampelopsis

These are very hardy ornamental vines, which thrive in almost any soil, but grow best on the sunny side. As they climb by tendrils they will adhere to stone, brick or cement work.

Ampelopsis quinquefolia. (Virginia Creeper, Woodbine Vine.) Luxuriant large leaves which are a most intense scarlet early in the fall. A rapid climber.

Ampelopsis veitchi. (Boston Ivy). A beautiful hardy vine clinging closely to wall by means of small disk-bearing tendrils. Glossy green leaves which color brilliantly in autumn. Price either variety 50c each.

Ampelopsis sempervirens. Ampelopsis sempervirens.
(Evergreen Ampelopsis). Very
handsome vine of much more
dainty appearance than the deciduous kinds. Leaves small,
palmate, with five dark green
leaflets. Adheres by tendrils to
walls or trellises.

Price 75c Each

Antigonon

Antigonon

Antigonon leptopus. (Rosa de Montana or Queen's Wreath). A beautiful rapid climber for warm locations, covering a trellis in one season. Has rather large leaves, and is covered in Spring and Summer with panicles of exquisite rose-pink blossoms. The top usually dies down in winter, coming up again early in spring.

Price 75c Each

Bignonia

The Bignonias are strong and rapid growing evergreen climbers which will cover a considerable space, often growing 50 feet in one season. They bear brilliant showy flowers.

Bignonia cherere. This is a most desirable variety with dark green leaves and trumpet-shaped flowers about 4 inches long, blood-red with yellow at the base. A rapid grower.

Price 75c Each

Bignonia tweediana. A splendid vine for covering high walls and buildings. Has slender dark and buildings. has signed that green leaves and bears trumper-shaped flowers, two inches long; canary yellow; clings to either wood or stone.

Price 75c Each

Price 75c Each

Price 75c Laca Bignonia venusta. Has bright green, somewhat glossy leaves. Rich orange-yellow flowers about three inches long and are three in numerous clusters. borne in numerous clusters. Blooms during the winter and early spring.

Price \$1.00 each

Bignonia violacea. One of the most beautiful Bignonias. It has bright, glossy-green leaves of large size and large tubular-shaped blossoms of a pleasing shade of light lavender blue.

Price \$1.00 each.

Bougainvillea

Native of South America. The Bougainvilleas thrive

best in a warm sunny exposure,

Bougainvillea spectabilis. A free flowering variety with larg
rosy-purple flowers and bright green foliage. A splendi A splendid

Price \$1.00 each.

Bougainvillea "Crimson Lake." A new introduction. Incomparable in richness and brilliancy of coloring. On first opening a brilliant crimson-lake, retaining this color for three or four weeks, then passing to a crimson-carmine.

NOTE:—Bougainvilleas do not stand cold situations and should be planted in a reasonably warm location.

Clematis

Clematis paniculata. A vigorous climber well suited to the covering of porches, fences, walls, etc. Bears fragrant white flowers in great quantities. Price \$1.00 each.

Clematis montana. Similar to the preceding with light pink

Price \$1.00 each.

Ficus

Ficus repens. (Creeping Fig). A beautiful evergreen climber, with small dark green heart-shaped leaves. Very useful for covering brick or stone buildings as it clings by means of small clinging tendrils.

Price 35c Each.

FLOWER SEEDS — Sow hardy annual seeds of Alyssum, annual seeds of Alyssum, Snapdragon, Calendula, Candy-tuft, Calliopsis, Clarkia, Cali-fornia Poppy, Dianthus, Lark-spur, Lupin, Mignonette, Nig-ella, Pansy, Stocks, Sweet Peas, California Wild-Flowers.

PLANTS OF Carnations, Canterbury Bells, Cineraria, Columbine, Foxglove, Hollyhocks, Pansies, Pentstemon, Snap-dragon, Stocks, Verbena. Violets, Ranunculus, Anemones.

BULB OF Amaryllis, Anemones, Callas, Hyacinths, Ixias, Nar-cissus. Oxalis, Ranunculus, Spanish Iris, Sparaxis. Tulips, Watsonias, Lilies. Freesias, Gladioli.

Renovate old lawns and apply good dressing of fertilizer. Dig and fertilize all unoccupied ground for future use.

Hardenbergia

Hardenbergia. Splendid and attractive vines, bearing small size, pea-shaped flowers in great quantities through the late winter and early spring months. They have a fine foliage, blue or white flowers.

Price 75c Each

Hedera

Hedera helix. (English Ivy). A well known evergreen climber, valuable for covering walls, banks, trunks of old trees, etc. Leaves are dark glossy green.

Price 50c Each

Jasminum (JASMINE)

Climbing vines and vinelike shrubs cultivated for their ornamental foliage and fragrant flowers.

Jasminum grandiflorum. Jasminum Officinalis). Very sweet scented pure white, star-shaped flowers. A vigorous grower, Intensely fragrant at night.

Jasminum primulinum. Jasminum primulinum. (Japanese Jasmine). A magnificent large flowering Jasmine from Japan. Flowers are two inches in diameter and are a rich gold-

Jasminum revolutum. (Italian Jasmine). A semi-climber with bright golden-yellow flowers. May also be used as a shrub.

Price 50c Each Larger Plants \$2.00 Each

Lonicera (HONEYSUCKLE)

Well known ornamental vines noted for their fragrant flowers.

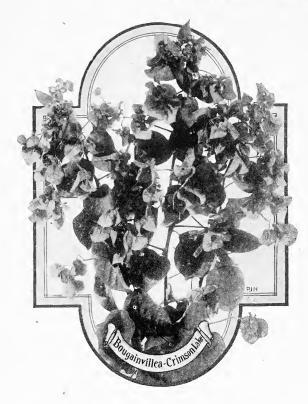

Lonicera halliana. (Hall's Honeysuckle. Japanese suckle). An evergreen climber of rampant growth. Flo white changing to yellow and are deliciously fragrant. Japanese Honey-Flowers are

Price 50c Each.

Mandevillea

Mandevillea suaveolens. (Chilean Jasmine). Another plant which is a native of South America that thrives well in California. Bears fragrant white flowers two inches in diameter. Price 75c each

Page Forty-nine

Muehlenbeckia

Muehlenbeckia complexa. (Wire Vine Maiden Hair Vine). A graceful vine with small Maiden-Hair like foliage and wire-like stems. Splendid for pergolas, posts and fences.

Price 75c each

Plumbago

Plumbago capensis. (Blue Plumbago). Very desirable and effective for massing of color and unsurpassed for continuous blooming and drought resisting qualities. May also be used as a shrub. Flowers are a pleasing shade of azure blue. Plumbago capensis alba. (White Plumbago). Same habit as above except with pure white flowers.

Price 50c Each.

Solandra

Solandra guttata. (Cup of Gold Flower). An erect growing plant with large leathery, shiny leaves, bearing cup-shaped fragrant flowers, ochre-yellow with purple-brown ridge near the throat. This is something different and something you will enjoy. Will not stand frost.

Price \$2.00 Each.

Solanum

Solanum wendlandi. This is a magnificent climber in this climate where it will grow 40 to 50 feet in one season. It is perhaps the showiest vine in California when in full bloom. Flowers are large, light blue, about two inches across.

Price 75c each

Tecoma (Trumpet Vine)

Vigorous, ornamental vines and semi-vines with showy flowers borne mostly in clusters. They will thrive in most any location. However, they grow best in a deep moist

Tecoma australis. Without doubt the fastest growing hardy vine we have, which carries it's foliage the year around. Its principle value lies in the glossy green foliage which always appears to be varnished. Bears creamy white flowers in profusion during mid-summer.

Tecoma capensis. (Cape Honeysuckle). Climbing or half-climbing shrub of luxurious growth. Covered in summer with glowing scarlet flowers in racemes. Very attractive foliage. Easily trimmed as a shrub.

Tecoma jasminoides. (Bower Plant of Australia). Glossy green foliage and white trumpet flowers with rosy-pink throat.

Tecoma mackenii. (Pink Trumpet Vine). A vigorous climbing vine with evergreen foliage and loose terminal panicles of rosy-pink trumpet flowers.

Tecoma stans. Yellow Elder. Semi-climber, yellow flowers, Attractive foliage.

Tecoma smithi. Leaflets small and numerous. Flowers medium sized, orange-yellow, borne in large panicles, semi-evergreen.

Price 75c Each.

Vitis

Vitis capensis. (Evergreen Grape). Ideal for covering pergolas and arbors. Bears glossy, cherry-like fruit which adds materially to its appearance.

Vtis rhombifolium. A variety with smaller, more dainty ergreen foliage. Very attractive.

Price \$1.00 Each. evergreen foliage.

Wistaria

Graceful and quick-growing climbers unsurpassed for wall coverings, piazzas, pergolas and arbors; flowers borne in long pendulous panicles, varying from white to a rich lilac purple and pea-shaped in formation, which appear in spring before the advent of foliage. Wistarias make gorgeous effects by reason of their profusive and abundant flowering characteristics.

Price—Strong plants, 3 to 4 ft. high, \$1.50 each Heavy plants 5 to 6 ft. high, \$2.50 each

FRAGRANT DAPHNES

Everyone who knows the wonderful fragrance of this dainty shrub will want one. Those who are not familiar with its delightful perfume and beautifully variegated foliage among which is borne the delicate pink blossoms, will make no mistake by planting one or more. Very scarce.

Strong Bushy Plants, \$5.00, \$7.50 and \$10.00 Each

TRAILING PLANTS

Plants listed below are suitable for window and porch boxes, and for covering banks and walls or in rockeries.

Cerastium

Cerastium tomentosum. (Snow-in-summer). A desirable plant with silvery foliage and masses of white flowers in Spring. Suitable for rockeries or carpet bedding.

Convolvulus

Convolvulus mauritanicus. A perennial suitable for edging borders, window boxes or covering banks, etc. In flower nearly the year round. Lavender-blue flowers shaped like small morning glories.

Price 20c each. \$2.00 per doz.

Fragaria

Indica. (Creeping Strawberry). A splendid plant for rockeries and used extensively for covering banks. Rapid grower. Price 15c each; \$1.50 per dozen; \$10.00 per hundred

Helianthemum

Helianthemum chamaecistus. (Sunrose.) Fine trailing plants with small foliage, and red flowers like miniature wild roses. Helianthemum chamaecistus tomentosum. A variety of Sunrose with hairy, grey leaves.

Price 20c each; \$2.00 per doz.

Lantana

Lantana delicatissima. (Trailing Lantana). A wonderfully effective ground cover. A very profuse bloomer in both winter and summer, being covered with rosy lilac colored flowers. A desirable plant for baskets, window boxes, etc.

Price \$1.50 per dozen; \$10.00 per hundred

Linaria

(KENILWORTH IVY)

Cymbalaria. Free-flowering plants of a trailing habit. Especially good for hanging baskets, window boxes and rockeries. Dainty lilac, lavender, purple flowers throughout the summer.

Price 15c each; \$1.50 per dozen

Lippia Grass

Lippia repens. An interesting grassy plant designed as a substitute for lawn grass in hot, dry sections of the South. Not adapted to shady locations, Makes a remarkably dense mat. Thrives in any soil; rapidly covers the ground; stands trampling and requires little or no mowing. Used in Southern Europe for tennis grounds. Requires much less water than

Price \$2.00 Per Box (Enough to plant 100 square feet.)

Lopezia

Lopezia albiflora. (Mosquito Vine). A fine trailing plant for baskets and window boxes. Has small leaves and myriads of pink flowers, completely covering plants. Very showy and pleasing. Makes an effective ground cover.

Price 15c Each; \$1.50 Per Dozen.

Lotus

Lotus peliorhyncus. (Coral Gem). Grown chiefly for basket and window box culture; also splendid for rockeries. The vine is small, drooping, much branched with slender silvery foliage. Flowers are one and one-half inches long, borne in loose clusters toward the end of the branches and are a bright orange-scarlet.

Price 20c each; \$2.00 per dozen

Nepeta

Glechoma. Of trailing habit and variegated foliage suitable for window boxes, hanging baskets, rockeries, etc.

Price 20c each; \$2.00 per dozen Saxafraga

Sarmentosa. (Strawberry Begonia). A useful trailing suitable for hanging baskets, window boxes, and rockeries.

Price 15c each; \$1.50 per dozen A useful trailing plant

Sedum

Fine plants for rockeries, banks, and exposed sunny locations

Acre. .. (Golden Moss). Flowers yellow, low growing, succu-

Acre alba. Flowers white. Fine ground covering; covers quickly.

Price \$1.00 per dozen; \$7.50 per hundred

Thymus

(THYME) Serpyllum. (White Mountain Thyme). Suitable for rockeries, forming dense mats of dark green foliage and clouds of

Price 20c each; \$2.00 per dozen

Vinca

Vinca major. Trailing Myrtle. Popular vine for window boxes, hanging baskets, hillsides and rockeries. Shining ever-green foliage. Blue trumpet-shaped flowers in spring and sum-

Vinca major variegata. Variegated Vinca. Identical with the preceding except with creamy white margined leaves.

Price 15c Each; \$1.50 per Dozen

GRASSES, BAMBOOS, PALMS, ETC.

white flowers.

California gardens would hardly be complete if the planting of these tropical and semi-tropical plants were left out. There is always a nook or corner to be filled, a back fence to be hidden, or a pool to be surrounded and nothing is more fitting than Bamboos and Grasses-then the Palm trees can be used in so many ways, as street and avenue trees, as specimens in various parts of the garden, or in groups.

We list these with only brief descriptions and as the stock varies in size and prices to quite an extent, we ask that

you write or telephone for prices, if not quoted here.

Bamboo

Giant grasses, often tree-like. Delight in deep, rich loam and a warm, slightly shady nook where moist and well drained soil is plentiful.

Bambusa disticha. (Dwarf Bamboo.) Branches numerous. Leaves 2 to 2½ inches long and ½ inch wide, produced in two vertical ranks. Valuable as background or screen.

Bambusa vulgaris. (Arching Giant Bamboo). Beautiful, tall, and of rapid growth, attaining a height of 70 feet, with stems 4 inches in diameter; gracefully arching, with feathery foliage. Invaluable in lending a tropical appearance.

Cyperus

Cyperus papyrus antiquorum. (Egyptian Paper Plant). A tall, graceful aquatic; dark green. Much used for bedding in and about ponds, for single groups on the lawn, or for screening unsightly objects, and with elegant decorative material. Not particular as to soil or location, but will take any amount of water. Does not endure frost.

Price 50c to 75c each

Cyperus alternifolius. (Umbrella Plant). Will thrive in any good soil and always presents a green and attractive appearance. It may be grown as a subaquatic and in any case should never lack a liberal supply of water.

Price 50c and 75c Each.

Gynerium

Gynerium cortaderia argentea. (Gynerium argentum—Pampas Grass). Long considered the finest of all tall, clump grasses, as also the most important commercially of all ornamental grasses. Grows in individualized, large, dense tussocks. Stems 5 to 8 feet tall; leaves long and narrow, gracefully spreading and drooping. Plumes sometimes two or more feet in length; they are shipped in large quantities from California to Europe, and are dyed in various colors. Pampas Grass thrives in almost any garden soil, preferring a sunny location.

Price—1-gallon containers 75c Each
5-gallon containers \$2.00 Each

Miscanthus—Eulalia

Tall, perennial grasses with handsome green and variegated foliage and ample, terminal, fan-shaped panicles. They rank among the most popular grasses cultivated for ornament. Remarkably hardy and universal favorites for bedding. Arundo Donax is frequently employed as a tall center-piece, surrounded by Eulolies by Eulalias.

Price 50c Each.

Yucca

Yucca pendula. Evergreen, with long, narrow, usually spiny-pointed leaves, gracefully recurved. Adapted for porch decora-tion, or for exposed or hot situations. Specimen plants \$1.50 to \$3.50 Each

Page Fifty-one

PALMS

Chamaerops

(LOW FAN-LEAVED PALM)

Chamaerops excelsa. (Windmill Palm). 20 to 30 feet; slim hairy trunk. Beautiful lawn or street tree. Chamaerops humilis. Dwarf Fan Palm. Hardy; widely cultivated. Suitable for vases and small lawns.

Cocos

Cocos australis. (Pindo Palm). Stem erect, columnar. Cultivated outdoors in Florida and California. A hardy palm with beautiful, long graceful leaves of bluish-green color; finely arched.

Cocos plumosa. (Ornamental Cocoanut Palm), Slender, smooth trunk, clothed near the apex with remnants of the dead petioles. Leaves spreading and recurving, plumy and graceful. A quick grower, ultimately 50 feet in Southern Florida and California. The favorite avenue or street tree.

Dracaena

Dracaena indivisa (Cordyline indivisa). Sometimes called Dracaena Palm or Dragon Palm. Has long grass-like leaves on a very tall, slender trunk. Very ornamental for Spanish planting or in pots.

Price—1-gallon 75c Each. 5-gallon, \$2.50 Each
Larger specimens priced on application

Phoenix

Phoenix canariensis. (Canary Island Palm). Graceful and hardy, with numerous leaves. Of slow growth in pots or tubs, but grows rapidly in the ground, soon giving a tropical appearance; its beauty is much enhanced if planted in groups. The handsomest of our hardy palms and one of the most effective on a lawn or for porch decoration. The gem of the genus, doing wonderfully well in Southern California. Fruit not edible.

Price, \$2.50, \$3.50 and Up, According to Size. Seaforthia

Seaforthia elegans. (Australian Feather Palm). Tall specimen of street palm; also one of the best for the conservatory. Pinnate leaves, 2 to 10 feet in length; dark green; perfectly smooth.

Washingtonia

Washington robusta. Distinct and especially valuable where a tropical effect is desired, or for parks and avenues. Tall and vigorous; leaves fan-shaped. In California, during the dry season, it responds gratefully to an abundance of water.

Washington filifera. The well known California Fan Palm. Grows 60 to 80 feet. Always a bunch of leaves hanging close to trunk. One of the most hardy of our palms.

Price \$2.50, \$3.50, \$5.00 and Up

According to Size

DECORATIVE PLANTS FOR THE HOUSE

Our large greenhouse is full of plants of many varieties suitable for any location in which a plant can be grown, either indoors, or for conservatories, porches and protected patios. We also grow flowering plants for all occasions, such as Easter and Christmas. We cannot here list all the plants we carry, but a visit to our growing house will amply repay one, as our salesmen are glad to show you all the plants and to give advice on which plants to be used for certain situations.

Aspidistra

Aspidistra lurida. One of the easiest decorative plants to grow. A most useful house plant, thriving in a hallway or a comparatively dark place in the room where nothing else will succeed.

Price-Specimens, \$2.50, \$3.50, \$5.00 and Up

Begonia

Begonias. We have various kinds of these desirable flowering Price-25c to \$3.50

Coleus

Coleus. The well known decorative plants with large leaves strikingly variegated with red, yellow and green.

Price-25c, 50c and 75c

Crotons

Crotons. Wonderfully decorative, tropical looking plants, fine for sunny exposures in the house. The leaves are richly colored with a medley of colors not found in any other class of plants. Price \$2.50 and \$5.00

Ferns

Ferns. We have an extensive assortment of ferns for house decoration, including various types of the popular Boston fern. All are properly grown in a cool greenhouse, assuring our customers well hardened plants of good color and substance. Our ferns are not forced, and with proper care, will last indefinitely. finitely.

Price-Boston ferns-75c to \$8.00

Ficus

Ficus elastica. (Rubber Plant). Well known to everyone and much in demand for porches, hallways and living rooms. Very hardy and effective, with large glossy green foliage, clothing the slender trunk and branches.

Price—\$1.50, \$2.50 and Up
Ficus pandurata. (Fiddleleaf Fig.) A very ornamental species
of rubber, with large leaves, shaped, as the name implies, like

Price \$3.50 and Up

Kentia (KENTIA PALMS)

Kentia belmoreana. The Kentias are the hardist palms in cultivation for inside decoration. They are of slow growth, and are less affected by the dust and dry atmosphere of the house than any other palms. Their graceful dark green foliage makes them most effective for decoration.

Kentia fosteriana. Similar to Belmoreana, but of stronger growth, with broader, heavier foliage which is more drooping or pendular.

Price, either variety, \$1.50, \$2.50, \$3.50 and Up According to Size

Pandanus

Pandanus veitchi. (Screwpine.) One of the finest decorative plants for the house, withstanding more adverse conditions than a fern or palm. Has graceful, long swordlike foliage broadly striped with cream-white on a green ground.

Price \$2.50 and \$3.50 Each

Phoenix

Phoenix roebelini. The most graceful of the Phoenix Palms, and one of the most popular for inside decoration. Of vigorous growth with graceful recurving leaves and narrow dark green pinnae.

Price on application.

Sansevieria

Sansevieria zelanica. An elegant variegated plant especially adapted for house culture; the thick, leathery leaves stand the dry atmosphere of the house with impunity.

Price \$1.50 to \$2.50 Each

Sansevieria laurenti. This variety, in addition to the variegation shown in the ordinary sort, has a band of creamy yellow in each edge of the leaves, which adds greatly to its decorative effects.

Price \$2.50 Each

AND GRASS FLOWER

All annual, as well as many perennial flowers, are successfully grown from seed, for whatever purpose you may desire flowers—cutting, flower beds, color, or attractive foliage effect—you will find sufficient material from which to select.

In buying flower seed it is a matter of great importance that you know the seeds are fresh and produced from the best plants. Only through great care in selecting and breeding are flowers brought up to a high standard of perfection.

The following list of seeds, while not extensive, contains a selection of the leading varieties. The seeds are fresh, well matured, and carefully selected-if carefully sown and cared for will furnish an abundance of flowers and foliage.

Ageratum (FLOSS FLOWER)

A favorite bedding plant. In bloom nearly all the year round. Easily raised from seed either in the Spring or Fall. From 9 to 15 inches high.

Blue Perfection. The best dark blue. A fine bedder.
Price 10c Per Pkt.

Little Blue Star. Tiny bushes. Flowers light blue; good for edging.

Price 10c Per Pkt.

Alyssum (SWEET ALYSSUM)

Free flowering annual. Useful for beds, baskets, boxes or edging. Sweetly scented.

Little Gem. Dwarf, compact habit. Blooms when quite small. The best flowering edging plant.

Price 10c Per Pkt.

Saxatile compactum. Showy bright yellow hardy perennial; blooms first season.

Price 15c Per Pkt.

Alyssum argenteum. lemon-yellow flowers, s foliage. Very attractive. Clear silvery

Price 15c Per Pkt.

Alyssum Lilac Queen. Dwarf, compact habit; flowers pure lilac color.

Price 15c Per Pkt.

Asters

A hardy annual in numerous varieties and colors, blooming from July through October. Sow the seed in shallow boxes and when large enough to handle, transplant to rows 12 to 15 inches apart. While Asters will thrive in any good soil, it is well to remember that any extra preparation of the soil is repaid by finer plants and blooms.

They should have an open, sunny position, and prefer a good heavy loam soil well enriched.

AMERICAN BEAUTY ASTERS

A new Aster of the free branching type, stems are long, and plant is a strong grower, reaching almost three feet. Flowers are large and very double. Six colors.

White. A pure glistening white.

Carmine Rose. A most beautiful shade of bright carmine rose.

Purple. Beautiful, rich velvety purple. Lavender. Lovely clear lavender. September Beauty. Delicate soft pink. Rose Pink. A lovely shade.

Price 25c Per Packet-6 Packets \$1.25

GIANT CREGO ASTERS

Flowers are of an immense size, often measuring four to five inches in diameter, and are borne on long, strong stems. The petals of this type are attractively quilled and twisted, resembling the Japanese Chrysanthemum. White, shell pink, rose pink, crimson, lavender, dark blue, purple.

Price 10c Per Pkt .- 6 Pkts. 50 Cents

GIANT COMET ASTERS

desirable for cut flowers, which are large with Blue, crimson, white, lavender, purple and mixed Especially long stems. colors.

Price 10c Per Pkt .- 6 Pkts. 50 Cents

GIANT LATE BRANCHING ASTERS

This type makes strong growing plants, and produces very large and very double flowers in numerous quantities. Blue, crimson, deep rose, light blue, lavender, rose pink, purple, white, clear pink and mixed.

Price 10c Per Pkt.-6 Pkts. 50 Cents

GIANTS OF CALIFORNIA

Produced in California and a novelty of great merit.

These new asters combine the strong sturdy habit of growth of the Beauty types with the Crego or Ostrich Plume type. This combination produces a tall sturdy, non lateral stem on which is borne large fluffy flowers which often measure four to five inches in diameter.

Their immense size and beauty, as well as the long sturdy stems, make them most desirable and attractive for floral decorations-four distinct colors.

Peach Blossom. A clear delicate peach blossom pink. Light Blue. Called blue by the producer, but in reality a beau-

tiful lavender.

Deep Rose. A splendid deep rose. Deep Rose. A splendid deep rose. Dark Purple. A deep dark purple. White.

Price 25c Per Packet—6 Packets \$1.25 HEART OF FRANCE Asters. Heart of France. Rich Dark Red. Fine for massing. Price 25c Per Packets \$1.25 HEART OF PRANCE

Calliopsis

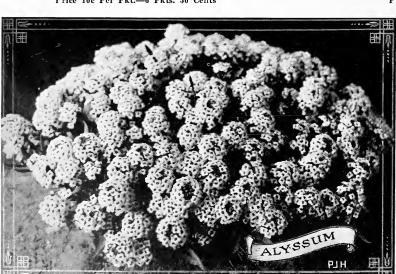

Showy free flowering annuals, of easy culture, doing well in any sunny position. Excellent for cutting and massing. Mixture of the several shades of gold, bronze and brown.

Price 10c Per Pkt.

Candytuft (IBERIS UMBELLATA)

These annuals are considered indispensable for cutting; best used for beds or massing.

Carmine. Bright carmine rose.
Crimson. Rich deep shade.
White Fragrant. Flowers small, very sweetly scented.
Lavender. Delicate shade of rosy lavender.
Mixed. A splendid mixture of all the colors.
Price 10c Per Pkt.—6 Pkts. 50 Cents

s. Bradshaw. Brilliant orange-scar-See under "Perennials" for descrip-Mrs. tion.

Price 15c Per Pkt.

Gypsophila

(BABY'S BREATH)

Pretty free flowering plants, succeeding in any garden soil. Their misty, white panicles of bloom are largely used for mixing with cut flowers.

Elegans Alba Grandiflora. This is the annual, large flowering pure white Baby's Breath. Free easy growth.
Elegans rosea. Delicate pink.
Paniculata. A hardy perennial which blooms the first year if sown early. White flowers, excellent for bouquets.

Price 10c Per Pkt.

Hollyhock

Hardy perennial of stately growth. For planting among shrubbery, or forming a background for other flowers, it is without equal. Seed sown in seed beds, or boxes in the spring; may be planted out when large enough and will bloom the following year. Double maroon, bright rose, bright red, salmon rose, white, yellow, newport pink, and mixed.

Double Maroon. Bright Rose, Bright Red, Salmon Rose, White, Yellow, Newport Pink, and mixed. Single, pink, red, yellow, white, also mixed. Price 15c per Pkt.

Hunnemannia Fumariaefolia (BUSH ESCHSCHOLTZIA)

Plants about 2 ft. high, bushy with beautiful feathery foliage. Produces large buttercup yellow poppy-like blossoms, which, when cut, will last for several days. Price 10c per Pkt.

Larkspur

We know of no other plant that we feel so free to recom-mend as the Larkspur. They make handsome beds, or borders, and their free, graceful habit and bright colors are very effective when interspersed in that old fashioned flower or shrubbery border. The excellent keeping qualities when cut and the ease with which they may be arranged for decorative purposes make them doubly valuable as cut flowers. Easily grown, seed may be sown in the open ground. We list an excellent strain that is the result of long years of careful selection.

Double Stock Flowered. Dark blue, lilac, Newport pink, shell pink, light blue, white and mixed.

Exquisite. (New). Clear rose-pink.

Price 15c per Pkt.

Lobelia

Hardy perennials: One of the most desirable plants for use in hanging baskets, window boxes and especially for edging, borders, etc.

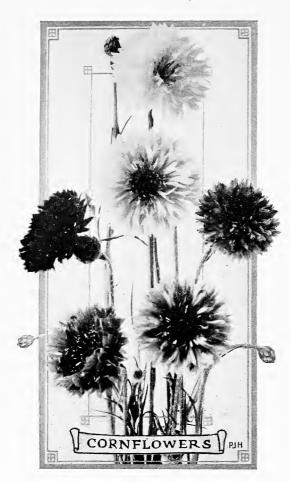

Crystal Palace Compacta. Rich deep blue, the finest dark blue for bedding.

Tenuior. Upright habit, about 5 inches, large flowers of cobalt blue with white eye.

Price 15c per Pkt.

Price 15c per Pkt.
Gracilis. Ultramarine blue, trailing.
Price 10c per Pkt.
Cardinalis. Grows 2 to 3 feet high with spike of brilliant scarlet flowers. Fine border plant.
Price 15c per Pkt.

Marigolds

The African and French Marigolds are old favorites; free flowering annuals of easy culture, adapted for large beds or mixed borders. Succeed best in a light soil with full exposure to the sun.

FRENCH MARIGOLDS

Dwarf Single French Marigold. (Legion of Honor.) Single flowering compact bushes 9 inches high. Flowers golden yellow, marked with a large spot of velvety crimson at the base of each petal.

Dwarf French Mixed.

Price 10c per Pkt.

Signata Pumila. (New). A miniature Marigold which forms very compact, bushy little plants 10 to 12 inches high and spread about 12 to 15 inches across. These compact little plants are literally covered with flowers which are a bright yellow with a brown stripe through the center of each petal. The foliage is finely cut and is exceptionally graceful. Each little plant really forms a bouquet. Wonderful for edging.

Price 15c per Pkt.

AFRICAN MARIGOLDS
African Marigold Double. Orange King. Tall growing variety, bearing large perfect double quilled flowers of a rich deep orange color.

African Marigold, Double. Lemon Queen. The same as Orange King except in color which is a soft lemon yellow.

African Marigold. Double Mixed. Both colors. Price 10c per Pkt.

Mina Lobata

A climber of luxurious growth, with tube shaped flowers produced in the greatest profusion, the vine being literally a mass of flowers which will last until the frost kills it. In color the flowers range from bright red, changing through orange-yellow to creamy white. One of the fastest and most showy climbers of all.

Price 15c per Pkt.

> Myosotis (FORGET-ME-NOT)

Hardy perennials which are especially effective when grown in masses. Small star-like flowers borne in clusters; bloom first year if seed is sown early. Does best in a cool moist location.

Alpestris. Rich indigo blue flowers; finest dark blue.
Palustris. An everblooming variety; clear blue flowers.
Price 10c per Pkt.
Blue Bird. (New). Large, clear dark blue.
Price 25c Per Pkt.

Nasturtium

A favorite and popular old annual, which, for ease of culture, duration of bloom, and brilliancy of coloring, nothing can excel. All they require is a fairly good soil in a

well drained sunny position.

DWARF OR BEDDING VARIETIES

This is a good month to spade over the ground, spread a good thick dressing of dairy fertilizer over the surface and dig the ground as deeply as possible.

VISIT "FLOWERLAND"

Phlox Drummondi

One of the easiest and most satisfactory annuals that can be readily grown from seed. Will grow in any kind of soil if given a sunny position, but prefers a light rich loam. Seed may be sown in the open ground. Shows to best advantage when used in masses, beds or border. Snow white, shell pink, deep rose, bright scarlet, rich crimson, primrose, soft lilac, and mixed.

Price 15c per Pkt. Collection of six separate colors, 75c

Scabiosa Columbaria

Scabiosa Columbaria. This wonderful new Scabiosa from South Africa can be raised from seed, and we now have a limited supply for sale. The flowers are very graceful and the foliage is feathery and decorative. The stems are long and graceful, making one of the most beautiful cut flowers in our entire list. The color of the flower is an exquisitely delicate mauve. It is a free bloomer and a valuable addition to our list of perennials

Price 25c Per Pkt.

SEND SEEDS AS GIFTS-You can "Say It With Flowers" in a way that will long be remembered. Send a few packets of flower seeds to your friends. Enclose your card with the order and we will forward a neatly wrapped package, prepaid, with your card.

Page Fifty-seven

SWEET PEAS

The ideal soil for sweet peas is a rich sandy loam. Soil should be prepared if possible, a few weeks before seed is sown, so that it may become firm and settled. Some well rotted dairy fertilizer should be spaded in and mixed with the soil to a depth of 18 inches to 2 ft. Then make a trench about six inches deep, sow seed about two inches apart, cover with top soil two inches and firm down. Be sure that soil contains sufficient moisture before sowing, as it is advisable not to water until plants are up. As plants grow, soil may be worked in until level. If these few simple directions are followed you will be more than repaid with a wealth of beautiful long stem flowers. We offer a selection of the best of the winter-flowering varieties, seed of which, when sown in August or September, will produce blooms for Christmas and the holidays.

THREE SPLENDID NEW SPENCER SWEET PEAS

Mary Pickford.

Tithonia

Tithonia speciosa. (Mexican Sunflower). Flowers like single Zinnias, of the brightest rich orange. Grows 7 to 8 feet high.

Price 25c Per Packet

Verbena

The verbena is one of the most popular and useful plants grown. It may be used in beds, borders, parkings or as an undergrowth among taller plants. It can also be used to great advantage in window boxes. The clusters of large and showy flowers are borne in constant succession almost all the year round. We offer an excellent strain of the mammoth verbenas in Pink, Purple, Scarlet, White, Blue, and mixed.

Price 15c Per Pkt.

Verbena erinoides. "Moss Verbena." Trailing perennial with finely cut foliage and bright purple flowers. Very fine bloomer and desirable for planting in parkings and on banks.

Price 25c Per Pkt.

ZINNIAS

For brilliancy and show there is no garden annual that excels the Zinnia. It has been a garden favorite and becomes more so each year. They commence blooming early in the summer and continue until in the fall.

Giant Double Zinnias. The flowers are gigantic in size and deep and velvety in appearance. In colors of golden-yellow, burnt orange, white, sulphur-yellow, crimson, purple, rose, shrimp pink, pastel shades, and mixed.

Large Flowering Dwarf Double Zinnias. Canary, flesh-pink, orange, scarlet, salmon, rose, white and mixed.

Price 15c per Pkt.—6 Pkts. 75c

Dahlia Flowered Zinnias

This is a distinctly new, large-flowering type with cupped petals. The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers often 6 inches across and 3 to 4 inches in depth, similar in shape to the double Decorative Dahlias. The range of colors includes the usual shades and also many unusual tones, such as salmon, old rose, cerise, strawberry red, etc. As the result of careful selection we offer an exceptionally fine strain this season.

A GRAND COLLECTION OF GIANT DAHLIA FLOWERED ZINNIAS

12 Prize Winning Beauties

Exquisite. Probably the most pleasing shade of the collection. A truly Dahlia-flowered type in both size and form. The color is a light rose with deeper rose shading in the center. Old Rose. Quite adequately described by its name "Old Rose" of which it is a desirable shade—really a beauty.

Golden State. An exceedingly rich orange or cadmium yellow—yellow at first turning to an attractive orange when fully developed.

Crimson Monarch. One of the best of the shades of red. Flowers enormous, often six to eight inches in diameter. A really meritorius crimson zinnia.

Giant Attraction. A distinct shade of brick red, which color it retains from the opening bud to the fully expanded flower. An immense ball of color when in full bloom.

Scarlet Flame. The beautifully blended coloring in this variety is very distinct and different. A large, bright scarlet with a blending of orange over the entire petal.

Meteor. A rich, glowing deep red-probably the darkest of all red shades. A very large and floriferous variety.

Oriole. We do not hesitate to call this the "Queen of Zinnias." It is an immense flower of deep orange color shading to gold. The color varies as the flower ages, but it is at all times a beauty.

Dream. This is a fine deep lavender turning to purple. A new and desirable shade in zinnias.

Polar Bear. A true Dahlia type and form. Very large, pure white.

Butter Cup. An immense creamy yellow. The shade that blends well with the entire colletion and should be included in each planting.

Canary Bird. This is a delicate shade of primrose yellow—flowers are very large and well formed, and retain the color until well through blooming. Price 25c per Pkt.

(one packet of each of the 12 varieties)

Collection price. \$2.50 postage prepaid.

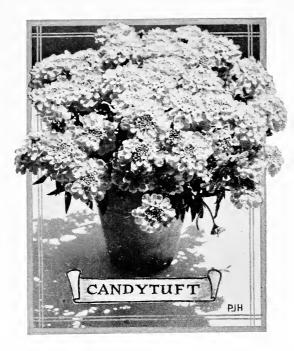

SPECIAL DAHLIA FLOWERED MIXTURE A well blended mixture containing all of the foregoing varie-

Price 25c per Pkt.

Lilliput Double Mixed. Small double flowers. Dwarf com-pact bushes and profuse bloomer. A good zinnia for cutting. Price 15c per Pkt.

Haageana Zinnias. A recently introduced zinnia of dwarf habit, especially adapted for edging, where they make an effective and gorgeous showing in their many variations of color. Flowers are the size of a large daisy, single, semi-double and double. Each plant when in bloom is literally covered with flowers. Mixed, all colors.

Price 15c per Pkt.

LAWN GRASS SEED

There is nothing that adds to or detracts from the garden as much as does the lawn. A well kept velvety green lawn is necessary as a setting for the garden. A dry, brown, uncared for lawn will make the best arranged garden look badly.

There are several things to be considered when making a new lawn. First of all GOOD SEED is an essentialpoor grass seed is expensive at even a low price. Properly prepared soil, which means well graded, pulverized and well settled or firmed so that the loam will not settle when the rains come. If you have poor top soil secure enough good loam to cover the entire area 5 to 6 inches deep. Use enough good seed; 3/4 to 1 pound to every one hundred square feet of area should be used. Sow evenly when the surface is properly graded and pulverized, and cover lightly with well rotted, screened dairy manure. Water thoroughly when you have mulched the seed as instructed and keep the surface continually moist. Watering twice daily with a fine spray that will not wash or pack the soil, is usually sufficient, except in hot weather, when a careful watch should be kept. SEED TO BE USED: Kentucky Blue Grass and White Dutch Clover are the principal grasses used in California. We advise one pound of Clover to two pounds of Blue Grass as the proper propor-

Kentucky Blue Grass. Makes a fine, deep green lawn and forms a firm thick sod. Will last a long time with proper care and fertilization.

White Dutch Clover. Largely used to mix with Blue grass, making an excellent lawn. The clover germinates more quickly than does the Blue grass, which gives you a quicker showing of green.

Australian Rye. Often used when a quick lawn is wanted. Requires less moisture than other lawn grasses and will thrive on less fertile soil.

Velvet Lawn Mixture. A mixture of grasses designed to make a good lawn within as short a period of time as possible.

PRICE OF LAWN GRASS—As the price of Lawn grass varies considerably during the different seasons of the year, we do not list prices here. We will gladly quote on application the lowest price for the best seed. We handle only one quality. THE BEST.

We maintain a completely equipped Nursery Plant and keep on hand a large, well-selected stock of Perennial and Annual bedding plants for flower beds and border planting. We also have just as complete a line of Ornamental Trees, Fruit Trees, Berry Vines, Flowering and Evergreen Shrubs, Vine and Trailing Plants as well as Flower and Grass Seeds, Insecticides, Fertilizers, and Garden Pottery.

Our Five-Acre "FLOWERLAND" Plant with its modern equipment and personnel of trained men enables us to give our customers the best of garden requisites and practical and helpful advice.

Our Chatsworth Nurseries also have the most modern equipment and its thirty-five acres of fertile soil furnishes us with unlimited quantities of plant materials.

Our location enables us to give efficient delivery service to all of our nearby customers by auto truck, and our modern warehouses and packing room make it possible to dispatch mail orders promptly.

Our Landscape Department is in the hands of competent, trained men. Whether your garden requires one plant or a thousand—with a planting plan or without—we offer you a complete garden service from the planning of the garden to the furnishing of the plants and doing the planting.

ANTROL

Cottage Set (like illustration and consisting of 9 Antrol containers and Antrol Syrup) \$1.60 Antrol Containers only .15 Antrol Syrup, pint .65 Antrol Syrup, quart 1.00 Antrol Syrup, gal. can. 2.75

Antrol is the most effective eliminator of Argentine and honey dew loving ants known. The largest nurseries and thousands of homes on the Pacific Coast use it exclusively.

Antrol is harmless to children or pets, yet eliminates the entire ant colony - quickly and surely.

Flyrol is non-poisonous - will not stain the daintiest fabrics yet kills all flies, moths, mosquitoes, roaches, bedbugs, bettles, silverfish fleas, chicken lice, mites and their eggs.

Excellent too, as a sanitary measure against contagion.

Easy to use. No unpleasant odor. A few minutes and the work is done. Use it freely and end these pests.

Snarol is a boon to the gardener. It quickly destroys these garden pests. Just sprinkle Snarol around and under newly planted vegetation. Insure it against destruction.

Kills snails, slugs, cut worms, sow bugs, earwigs, and grasshoppers.

Every household should have these three insecticides-none better on the market.

USE GOOD INSECTICIDES

(PREVENTION IS USUALLY BETTER THAN CURE)

Arsenate of Lead

A dry powdered form which may be used either as a wet spray or by dusting, for slugs, snails, caterpillars, and all leaf-eating insects.

Price—1/2 lb. 25c; 1 lb. 45c

Black Leaf 40

This highly concentrated nicotine preparation is most highly recommended as a spray for green aphis, thrips, and all leaf-sucking insects.

Price-1 oz. 35c; ½ lb. \$1.25; 2 lbs. \$3.50; 10 lbs. \$13.50

Fungi-Bordo

A finely powdered Bordeaux mixture for mildew blights and all fungus diseases.

Price—1/2 lb. 25c; 1 lb. 40c

Fish Oil Soap (Whale Oil Soap)

An excellent insecticide for killing plant lice and scale on trees and plants of all kinds.
Price—1 lb. 25c

Lemon Oil

Lemon Oil is an odorless, non-poisonous insecticide which may be used with safety on the most tender plants, for destroying scale, mealy bug, aphis, thrips, etc.
Price—½ pt. 45c; 1 pt. 70c

Nico-Garden Dust

A specially prepared dusting material for the control of insects on cultivated plants. It is clean and easy to apply, and quick and certain in its action. Being harmless to the foliage of tender plants, it may be used with perfect safety for aphis, mildew, leaf-cutting insects, and other pests commonly found in the garden.
Price—8 oz. pkg. 35c; 2 lb. pkg. 80c

Paris Green

This powdered form is light and fluffy and when mixed with the proper amount of water, it is very effective against all leaf-eating insects. Price-1/4 lb. pkg. 20c

Rosin Spray

For black, yellow, red, purple, and citricola scale, mealy bug, rose scale, and aphis, this spray is universally used. Requires only to be dissolved in hot or cold water for use.

Price-1 lb. 35c: 2 lbs. 60c: 31/2 lbs. 90c

Slug Shot

Destroys insects, worms, and aphis on tender plants, without injury to the foliage or flowers. Used dry for dusting or may be used in water as a spray. Price-1 lb. 30c

Sulphur

Powdered sulphur is used successfully for dusting plants affected with mildew and red spider.

Price—1 lb. 10c; 100 lbs. \$5.40

Volck

A SPRAY FOR INSECT PESTS

Volck is a spray for Scale Insects, Mealy Bugs, White Flies, Red Spiders, Rust Mites, and similar insects. It is a distinct improvement over former sprays sold to kill these insects and will kill some insects that were previously uncontrollable.

Price—½ pint, 40c; 1 pint, 55c 1 Qt., 80c; 1 Gal., \$2.15

We are Distributing Agents for

COONS GARDEN CRAFT FURNITURE

Manufactured exclusively by the Coons Manufacturing Company of Abingdon, Illinois

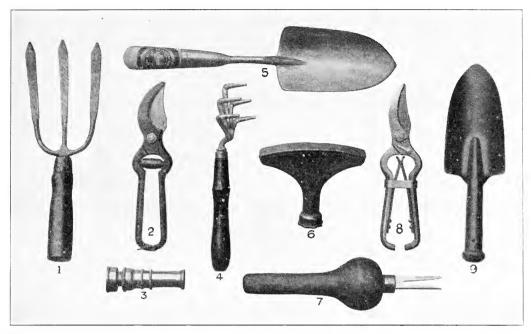

Garden Craft Furniture retains all the seasoned beauty of European Masterpieces hundreds of years old, yet is built by modern methods with improved finishes so that the cypress wood from which it is fashioned will out-last any other wood for out-door use. These pieces are furnished in white or grey, or may be had in color combinations on special order.

And just as planting properly done flatters Nature without risking the least offense, so the GARDEN CRAFT furniture manufacturer takes classic designs and builds them with modern skill into pieces which are so beautiful and in such perfect taste that they cannot fail to enhance any garden.

Insist on genuine GARDEN CRAFT furniture whether you purchase from us or another dealer.

PLEASE OBSERVE WHEN ORDERING

HOW TO ORDER: Write plainly name, town, and state, giving street numbers or post office box when expedient.

TERMS: All prices in catalogue F. O. B. Los Angeles.

Seeds will be sent prepaid at catalogue prices. Bulbs in small quantities are shipped prepaid. In orders of fifty or more, bulbs are sent Express collect, unless order is accompanied by a sufficient remittance to cover postage.

All plants are shipped Express collect, and all orders must be cash. No plants will be sent C. O. D. Remit in any safe way—Post Office Money Order, Express Order, or personal check on local banks are best. Postage stamps will be accepted in amounts up to one dollar.

In applying prices, not less than six will be sold at the dozen rate, or fifty at the hundred rate. All goods travel at purchaser's risk and at purchaser's expense unless otherwise listed.

NON WARRANTY: We give no warranty expressed or implied as to purity, description, quality, productiveness or any other matter of any Seeds, Bulbs, or Plants we send out, and we will not be in any way responsible for the crop. If purchaser does not accept the goods on these terms, they are to be at once returned, and the money paid for same will be refunded.

FILLING ORDERS: All orders are filled promptly, usually on the day of receipt.

In ordering, please state whether substitution will be permitted, as we feel at liberty, when no instructions accompany the order, to replace any varieties out of stock with others as nearly similar as possible. When a certain variety is selected which we feel not suited to the customer's locality, or when a variety has been superseded by another which is superior, we also feel at liberty to substitute.

PLANNING A GARDEN

"I felt a certain sensation of pleasure, as I always do when successfully battling with a difficulty."

—Ludvig von Beethoven.

This noble phrase of the great composer is, we believe, applicable to the feelings of the person who has finished a garden. It is a work which is to endure for many years, and when skillfully done, adds much of beauty and value to even the most dexterously designed building.

A garden must contain shrubs, trees, herbaceous plants, bulbs, vines, etc., but these are not enough—there must be a sense of unity, a fitting together and blending of groups and species.

Through years of training and a love for the creative, our landscape men have learned much of this art which will assist you with your garden problems. Plan your garden with a PAUL J. HOWARD Landscape Man.
